

# MORE LUBRICATION FOR YOUR QUARTER

We ask you to make a test.

Change over to New Texaco Motor Oil. Watch the results carefully. Compare them with your present lubricant. We want you to know the really fine lubrication you can get with a quarter.

You will find, first, that New Texaco Motor Oil gives you full lubrication in summer months. It gives extra protection to your engine.

Just as important, you will find out that New Texaco

Motor Oil saves you money. Your crankcase stays full longer because New Texaco Motor Oil is a cleaner motor oil. It is cleansed by the Furfural process to take out the dirty foreign matter that turns to tar and gummy substances from engine heat. You get full lubrication without buying so much oil.

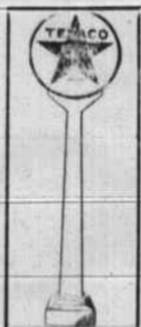

Get New Texaco Motor Oil from your local Texaco Dealer today. It's as good as Fire-Chief Gas.

*Stays FULL longer*
