Spending This Week Here Miss Alta Critcher, of Angier, is spending this week here with her parents. The Angier schools are closed on account of an influenza epidemic.

Juniors Present Play Last Evening

The Junior class of the local high school presented its annual play to a fair-sized audience in the high school auditorium last night. "Go Slow, Mary," the three-act production, was well received as the cast of eleven students portrayed their roles in the swiftly moving drama. Jim Critcher as the young husband, Madeline Taylor as the Swedish maid, James Carrow as the "tough guy," and Bennie Weaver as the Englishman, were outstanding in their parts as they became involved in difficult situations throughout the play. Mary Warren as the discontented wife, Evelyn Griffin as the mother, Millie Biggs, Frank Lilley, Robert Jones and Marie Moore as the two little "brats," and Irving Gurganus as the Irish cop contributed creditable roles to the successful class play. The receipts of approximately fifty dollars will be used by the class toward defraying the cost of the annual Junior-Senior banquet which is always an outstanding event of the school year.

Was Here Wednesday Mr. Roy Hampton, of Plymouth, visited here Wednesday. Returns from Marion Rev. J. H. Smith is returning home this afternoon from a several days' visit with relatives in Marion. HINTS FOR HOMEMAKERS By Mary Brown Allgood, Home Service Director, Virginia Electric And Power Company "SOME DO'S AND DON'TS FOR COOKS" Paper Bags for Chickens In preparing chicken for frying, a simple and quicker way of applying the flour is to partly fill a paper bag with flour and then shake the pieces of chicken up and down inside the bag. Several pieces may be floured at once and you may be sure that all sides are thoroughly covered. Crisp French Fried Potatoes After paring potatoes for frying, drop them in boiling water and let boil 2 minutes. Remove from water. Dry with a clean absorbent towel and fry in deep-fat, 365° F. until a golden brown. These will stay crisp for some time after they are cooked. Meringues To make meringues stand in peaks, be tender and thicker, put 1 tsp baking powder to the whites of 3 eggs beaten stiff and 2 tsp sugar to each egg white. Bake at 300° for 12 to 15 minutes. Whipping Light Cream To one-half cup of light cream add one tbsp of gelatin which has been dissolved in about 2 tsp of boiling water. Place the mixture in your electric refrigerator for 15 to 20 minutes, then whip. The cream will whip quickly and easily at about half the cost of whipping cream. Weld the Rolling When a recipe calls for finely chopped nuts instead of putting the nuts through a chopper or chopping them by knife, there is a more efficient method. Place nuts between several folds of wax paper, then roll or crush them with a rolling pin. The degree of fineness may be varied by the pressure exerted. None of the oils from the nuts are lost when this method is employed. The chopped nuts may be sprinkled directly from the waxed paper. If the nuts come in cellophane wrapper it is well to crush them in that. When To Prepare Orange Juice Besides being attractive and palatable in the diet, the orange furnishes an excellent source of Vitamin C. By experimenting it has been found that Vitamin C loses its potency when exposed to air in proportion to the length of exposure. If you want to get full value of your orange, it is better to prepare it and serve it at once. Household Hints To take fish odor out of pan — wash, then pour vinegar in pan and let boil a few minutes. To cut frosted cake—put a knife in warm water, dry well, and you will have no crumbs. To remove whole pieces of meat from peccans—boil 15 minutes. To keep poached eggs whole—put one teaspoon salt in water. Sulphur in thin silk bags keeps ants out of bread box. Heat milk before adding to mashed potatoes. To measure one-half cup of shortening—fill cup half full of water, fill with shortening until water line reaches cup level, pour off water.

Leaves for Raleigh Mr. Robert Moore, for nine years employed by Saunders and Cox lumber company here, left this week for Raleigh where he has accepted a position. Was Here Yesterday Mr. J. E. Buffal, of Edenton, visited here yesterday. EXECUTOR'S NOTICE Having this day qualified as executor of the estate of the late Mrs. Dora Clark, deceased, this is to notify all persons holding claims against the said estate to present them for payment on or before January 8, 1941, or this notice will be pleaded in bar of their recovery. All persons indebted to said estate will please make immediate settlement. This the 8th day of January, 1941. C. B. CLARK and GEO. KEEL, Executors of the estate of Mrs. Dora Clark, deceased. j10-6t

NOTICE TO CREDITORS In the District Court of the United States for the Eastern District of North Carolina, Washington Division. In Bankruptcy No. 741. In the Matter of: Hepman Barker, Greenville, N. C. Voluntary Bankrupt. Notice is hereby given that Monday, March 3, 1941, has been fixed, by order of the Court entered at the first meeting of creditors, as the last day on which objections to the discharge of this bankrupt may be filed. Such objections are required to be specified, to be verified, to be in duplicate, and to be filed with the undersigned. WHEELER MARTIN, U.S. Referee in Bankruptcy, Williamston, N. C. January 15, 1941. j17-2t

NOTICE OF SALE North Carolina, Martin County. In The Superior Court. County of Martin vs. Provident Trust Co., of Philadelphia, et al. Under and by virtue of an order of sale and judgment in the above entitled proceeding made by L. B. Wynne, Clerk of the Superior Court of Martin County on the 6th day of January, 1941, the undersigned commissioner will, on Saturday, the

8th day of February, 1941, at twelve o'clock noon, in front of the courthouse door in the town of Williamston, offer for sale to the highest bidder for cash the following described real estate, to wit:

Lying and being in the county of Martin on the South Side of Roanoke River in Great Pocosin, butted and bounded as follows: Beginning at Samuel Smithwick's corner on the river side where William Gardner lived, running along his line N 68 W 118 poles to his other corner, thence N 4 E 100 poles to his other corner; thence N 86 W 180 poles to his other

corner; thence N 84 W 100 poles along the line of Samuel Smithwick's other patent, a corner, then a straight line to the river, so as to include 200 acres, then down the river to the first station, containing 200 acres, this being the same land allotted to Emil Guenther in a judgment of the Federal Court for the Eastern District of North Carolina and recorded in Book W-1, at page 378 in the public registry of Martin County. This the 6th day of January, 1941. ELBERT S. PEEL, Commissioner. j10-4t

BE SURE to use genuine, time-tested VICKS VAPORUB.

DOES FORD PAY GOOD WAGES? HERE ARE SOME FACTS about Ford Labor. During the year ended November 30th, 1940, the Ford Payroll throughout the United States averaged 113,628 hourly wage earners, not including office employees, students, or executives. They were paid \$185,105,639.12. On this basis, the average annual wage was \$1,629.05. According to the latest available government figures, the annual average wage of all workers in employment covered by old age insurance law was \$841.00. If the 45,000,000 workers of this country received the same average wage as Ford employees, they would have had additional wages of more than \$35,000,000,000, thus increasing the national income about 50%. Think what such an increase would mean to the workers of this country and to the American farmer, whose prices are based on the national income. Wage scales in the Ford Rouge plants are divided into three classifications: Unskilled... Minimum hiring wage . 75c per hour Semi-skilled... Minimum hiring wage . 80c per hour Skilled... Minimum hiring wage . 90c per hour Higher wages are in consideration of ability and years of service. Minimum wage scales for unskilled labor at the Rouge plant are the highest in the industry. Top wages for skilled labor compare favorably with, or are higher than, wages in other automobile plants. Now some facts on Ford labor conditions: Not only are sanitation and other health conditions the best in the industry, but Ford also leads in safety devices for the protection of employees. Proof of this is found in the following comparison of compensation insurance costs: The national average rate in automotive manufacturing plants as computed by the National Association of Underwriters is in excess of \$1.50 premium on each \$100 payroll. The Ford cost of workmen's compensation is less than 50c. This indicates that the chance of injury in a Ford plant is much less than in the average automobile plant. The Ford Motor Company has no age limit for labor, and in fact deliberately attempts to keep older workers working. The average age of Ford workers at the Rouge and nearby plants is 38.7. A recent check-up shows that nearly one-half the workers at these Ford plants were 40 or over, falling into these age groups: 25,819 between 40 and 50 14,731 between 50 and 60 3,377 between 60 and 70 417 between 70 and 80 12 between 80 and 90 In addition to the so-called regular employees, the Ford Motor Company has hired, and now has on the payroll, at the same regular hourly wage, thousands of workers who are blind, crippled or otherwise incapacitated for normal productive work. They are not selected for their ability to build cars or to maintain the plant. They are on the payroll because of Henry Ford's belief that the responsibility of a large company to labor goes beyond the point at which the unfortunate worker can no longer produce profitably. The above are facts. They are open to anyone who really wants to deal in facts. Anyone who wants to get a job... buy a car... or place a national defense contract on the basis of fair labor treatment must place Ford at the top of his eligible list. FORD MOTOR COMPANY
