# A Message of Profit to the Tobacco Growers of Martin County

Four years ago we introduced Swift's Top Grade Tobacco Grower. It was the result of a great deal of costly research work. But we knew it would grow better tobacco and result in larger tobacco profits for growers who used it. We asked our agents to help us get a few folks to try it in side by side tests!

These side-by-side tests proved what we already knew . . . **SWIFT'S TOP GRADE TOBACCO GROWER** would give outstanding results!

Naturally, farmers who tried TOP GRADE used it on more of their acreage the following year! Neighbors tried it and they too, found that it seemed to "just suit" the needs of their crop! On and on the story of the unusually profitable results Swift's TOP GRADE TOBACCO GROWER gives has travelled. Today, thousands of tobacco growers recognize Swift's TOP GRADE as the "blue ribbon winner" of all tobacco fertilizers.

You will never know how much extra profit you can make from your tobacco acreage with Swift's TOP GRADE TOBACCO GROWER unless you try it on your land! That's how thousands of other tobacco growers found out that the new Swift idea of complete, balanced feeding of tobacco crops with TOP GRADE was an important first step to take in making tobacco more profitable to grow.

SWIFT'S TOP GRADE TOBACCO GROWER has won the praise of hundreds of growers in Beaufort and Martin Counties because it has put more tobacco money in the grower's pocket. Read the letters reproduced on this page from growers in your county. Then, make up your mind that you are going to give your next crop the chance to make big money for you, too!

Fertilizer with Swift's TOP GRADE.

REMEMBER, IT'S A

*"It Pays To Use Them"*

Chocowinity, N. C. September 16, 1940

"I'd like you to know I have used Swift's fertilizer exclusively for the last two years. I have had above the average crop both years. I used Vigoro for plant beds and also TOP GRADE tobacco grower for my tobacco and both proved more than satisfactory. I plan to use your fertilizer again next year as I have in the past."

(Signed) J. W. Paul

Robersonville, N. C. November 7, 1940.

"I used your Top Grade 3-8-5 under part of my tobacco this year. It proved very satisfactory. I had 3.8 acres where I used Top Grade and it sold for \$332.90 an acre, net to me after all warehouse charges were deducted. This was the best crop I had and needless to say I plan to use more Top Grade next year."

(Signed) C. L. Keel.

Chocowinity, N. C. October 8, 1940

"I used your Special Tobacco Grower, 3-8-5, this year and I have a very good crop. My tobacco stood the dry weather much better than it ever has before. My crop will average 1,200 pounds per acre and is selling very good."

"I am enclosing a tobacco sale that I made a few days ago. I feel sure that I have some that will average much better. This sale averaged \$27.26."

"Needless to say, I plan to use Swift's fertilizers again next year."

(Signed) James S. Dixon

Washington, N. C. R.F.D. 1 August 26, 1940

"I used TOP GRADE Tobacco Grower 3-8-5 on my entire crop this year. I have the best crop I've had in several years. I am grading a barn of first pullings to sell on opening day. These are the prettiest lugs I've ever had."

"It is unnecessary to say I plan to use TOP GRADE again in 1941."

(Signed) J. T. Swanner, Sr.

Washington, N. C., R.F.D. 2 July 15, 1940.

"I used TOP GRADE Tobacco Grower 3-8-5 at the rate of 1,000 lbs. per acre. Up to the present time I am very well satisfied with the results. I have above average crop in my section. Unless something unforeseen happens, I feel sure I will make over 1,000 lbs. per acre."

(Signed) H. T. Bright.

Hamilton, North Carolina October 4, 1940.

"I used your TOP GRADE for tobacco and Double Action for peanuts this year and the results were very satisfactory. I used only Swift Fertilizer this year and with an average crop of tobacco, corn and peanuts it's needless to say that I plan to use it again next year."

(Signed) F. L. Haislip.

Blounts Creek, N. C. October 8, 1940

"I used Swift's fertilizer for the first time this year. R. W. Hodges & Bro., of Washington, N. C., advised me to use TOP GRADE Tobacco Grower, which I did. I have one of the best crops that I've ever had. I feel sure that TOP GRADE was responsible for this. On my 5.8 acres, I will have over 7,000 pounds of tobacco."

"I have not finished selling my tobacco yet, but I am enclosing a sale I made a few days ago. You will notice that I had some poorer types of tobacco in this but I still averaged \$27.90. I know I have three barns that will sell much higher. I plan to use TOP GRADE again next year."

(Signed) Chas. Shackelford

Robersonville, N. C. October 10, 1940.

"I have used TOP GRADE 3-8-5 for my tobacco the past two years. I feel that it is the fertilizer that produces the best quality and the most pounds."

"I am sure that I have at least 1,400 pounds per acre and if tobacco continues to sell as it is now, my crop will average at least 22¢ per pound. I expect to continue using TOP GRADE."

(Signed) W. L. James.

Washington, N. C., R.F.D. October 11, 1940.

"Year in and year out under varying conditions Swift's TOP GRADE ranks top in quality and quantity production on our farm."

(Signed) Glandora H. Glover

Oak City, N. C. October 4, 1940.

"I have used TOP GRADE for tobacco for two years and am thoroughly convinced that it is the fertilizer for quality tobacco. I feel sure that my crop will average around \$200 an acre. This is not bad for this year in my section."

"I have very good corn, cotton and peanuts all raised with Swift's Fertilizers. I plan to use again next year."

(Signed) B. L. Johnson.

Blounts Creek, N. C. October 8, 1940.

"I have an extra good crop of tobacco this year. It will sell for a net of between \$250 and \$300 an acre. This is very good this time. I used 1,000 pounds of TOP GRADE 3-8-5 per acre and will raise around 1,300 pounds per acre. The dry weather did not hurt my tobacco as it did some of my neighbors."

"I am well pleased and plan to use TOP GRADE again next year."

(Signed) A. C. Shackelford.

Oak City, N. C.

"I used Swift fertilizer entirely this year and found them very satisfactory. My crops are above average for this section."

"I used TOP GRADE on part of my tobacco and where this was used we have a better grade of tobacco."

"My cotton will average over a bale to the acre, and I must say that I am well pleased and plan to use again next year on all my farms."

(Signed) R. A. Haislip
