W. E. Old and Family.

Clare Booth and Vincent Sheehan, well-known writers, confer on details of the United China Relief Dinner to be held in New York at the Waldorf-Astoria. Wendell Wilkie, Pearl Buck, and Henry Luce, publisher, are scheduled to speak.

### Economics Students Plan Cooking School

The person who said, "There is nothing new in the world," may have been right, but the home economics girls at the local high school are definitely going to prove that there is something different in the world. Imagine, high school girls presenting and exchanging new ideas about cookery with their mothers.

Beginning next Tuesday, April 1, and continuing through Thursday afternoon, cooking school conducted by the third year home economics girls will meet at four o'clock in the Home Economics kitchen at the high school. The following week the school will be held the same days.

Some of the demonstrations to be given are: Variation of biscuit dough including cinnamon rolls, orange marmalade tarts, and cheese drop biscuits; New ideas for a wholesome school lunch; desserts, a tray for the sick; one dish meal and salads.

To conclude the school on April 10, the entire department is going to give a mother-daughter tea in honor of all the home economics mothers.

This is a special invitation to every mother and housewife of the community to support the home economics girls by attending every meeting of the cooking school.—Reported.

**BIRTHDAY PARTY**  
Miss Barbara Margolis entertained a number of her friends at her home on Smithwick Street Tuesday afternoon to celebrate her eleventh birthday.

After playing a number of games the guests gathered around the dining room table centered with the birthday cake and sang songs. In the living room they were served at individual tables, with a chicken salad plate and lemonade. "Happy Birthday" covers and cups were used.

Guests were Misses Eunice Anne Britton, Margaret Ward, Mary Lou Coltrain, Betty Sue Clark, Polly Manning, Anne Spencer Mizelle, Jean Stinnette, Sylvia Green, Gloria Hayman, and Gertrude McLawnhorn and little Miss Sandra Margolis, John Gurkin, Rod Nash, Morton Critcher, Frank Wynne, Harry Jarman and Julian Mason.

# A REPORT to America

The Ford Motor Company's business has always been to serve the needs of the American people. In providing them with low-cost transportation for the past 38 years, we have developed one of the country's largest and most useful industrial units. During a national emergency, we feel that these facilities should be devoted without reserve to our country's needs. Toward that end we started rolling months ago, with these results:

- 1 A \$21,000,000 Ford airplane engine factory, started only 6 months ago, is nearly completed. Production will start with an initial order for 4,236 eighteen cylinder, air-cooled, double-row, radial engines.
- 2 We are building a new \$800,000 Ford magnesium alloy foundry, one of the few in the country. It is already producing lightweight airplane engine castings.
- 3 Army reconnaissance cars — military vehicles of an entirely new type — are rolling off special Ford assembly lines at the rate of more than 600 a month. We have produced Army staff cars and bomber service trucks.
- 4 The government has given the "go-ahead" and work is now under way for the fast construction of an \$11,000,000 Ford plant to produce bomber airframe assemblies by mass production methods.

5 Several months ago work was started, on our own initiative, on an entirely new 1500 horsepower airplane engine especially designed for mass production. This engine is now in the test stage and plans are being developed for producing it in large quantities when and if needed.

6 A Ford aircraft apprentice school has been established, to train 2000 students at a time.

That is a report of progress to date.

The experience and facilities of this company can be used to do much of the job which America now needs to get done in a hurry.

Our way of working, which avoids all possible red tape, enables us to get results and get them fast. This benefits users of our products and workers who produce them.

We are ready to make anything we know how to make, to make it to the limit of our capacity if need be, to make it as fast as we can, and to start the next job whenever our country asks us to. And to this end, we know we have the full confidence and loyal support of the workmen throughout our plants.
