Address all communications to The Enterprise and not individual members of the firm.

Tuesday, May 6, 1941.

Clean-Up Week

Next week—May 11 to 17—has been designated as "Clean-up Week" by Mayor John L. Hassell. The call for a cleaner town is certainly timely, for if cleanliness ranks next to godliness why godliness has dropped to a pretty low level in Williamston. At no time in recent years has Williamston offered more unsightly, filthy and disgusting views: From the very seat of the government—the town hall—to the backlots, streets and vacant lots all over the town, cleanliness has been literally snowed under by mud, rubbish and filth.

If a clean-up movement ever was needed in Williamston, it is needed now. With some few possible exceptions, everyone needs to snap out of his creeping paralysis, take up his chosen weapons and declare an all-out war against the dirt and filth staring us full in the face. The movement need not wait until clean-up week, we can start now and be ready for the big push next week.

Mayor Hassell has issued the call. Will we, a boasting people, answer or ignore that call?

And They Call It A Step Forward

The 1935 edition of the Army cook book carried the introduction, "Cooking is not difficult. Any person of average intelligence can cook a satisfactory meal, provided he takes an interest and follows a recipe." The 1941 streamlined edition of the book has for an introduction, "It takes a person of intelligence to cook."

Mary I. Barber, probably America's leading woman dietitian, says the mere change in the cook book introductions is a big step forward.

It would seem that more is necessary than a mere change in a book introduction before any claim to progress can be laid.

And speaking about cooking in the Army. Reliable reports state that the boys are getting good food in sufficient quantities, that the American Army is the best fed in the world. There is a serious trend in all this Army cooking. Literally donning men's pants in other fields of endeavor and in other instances finding little time for work in the kitchen after the bridge game, modern women have just about deserted the home. And it may be that all this Army cooking will provide an ideal opportunity to complete a change in our way of life with the man displacing the woman in the kitchen.

Hitler Will Stop At Nothing

That Hitler will stop at nothing in his drive to enslave other peoples of the world is well demonstrated in the story coming out of Germany telling of acts as terrible in their cruelty as any ever heard. Some time ago it was unofficially declared that Hitler was disposing of the unfortunate human souls among his own race. More recently, a recognized report leaked out, telling of the mistreatment of helpless Germans.

The civilized world was shocked when it was learned some time ago that Hitler was killing tubercular victims by chaining them to munitions machines where they died while employed at the task of making shells to be shot at a helpless world. That practice was not a profitable one and death for the unfit proved too slow in many cases. Stalking death would not be delayed. In the last three months of 1940, 85,000 blind, incurably ill or aged Germans were put to death by Hitler's New Order. The victims were fed poison and their ashes were sent to relatives without explanation.

Certain days were designated for the wholesale executions, and a few Catholic priests became suspicious when they saw the small boxes moving out of a large hospital on those days. The priests appealed to the church head at Rome where it was ruled the practice was in opposition to the laws of God and contrary to civilization's code. A decree, warning that euthanasia was contrary to the laws of the Church was issued and hundreds of priests were torn from their churches and homes and placed in concentration camps. Strange as it may seem, a majority of the 800,000 persons held in German concentration camps today are Catholics and not Jews.

The cruel facts coming out of Germany are all inclusive. They clearly show that Hitler is not killing in the name of mercy, that he is killing because the aged and feeble can't make enough powder or shot to pay for their keep. He is killing the aged Germans because he visions Germany as possessing a superior race.

He is killing under the old theory of the survival of the fittest. He is killing those poor old souls because he is mad. And, yet there are those who would die down beside Hitler and sleep at peace with the contemptible, murderous scoundrel.

If for no other cause, America now has reason for the sake of humanity and decency and that which is good and all that stands for good to take action against the world's No. 1 murderer and mad man.

A County Agent's Farm Philosophy

Live and help live.
Sell your feed on the hoof.
Be very proud that you are not proud.
Do as the woodpeckers do: Use your head.
A winner never quits, and a quitter never wins.
The garden is the best-paying acre of the farm.
Just pretending to be rich keeps some folks poor.
Recipe for long life: Do not exceed the feed limit.
Borrow trouble is the worst kind of debt.
You can absolutely depend on luck if you put "p" in front of it.
A small jack can lift a car, but it takes a lot of "jack" to keep it up.
The money the other fellow has is capital; getting it from him is labor.
A husband is like an egg: If kept too long in hot water, he becomes hard-boiled.
The world owes every man a living, but every man must do his own collecting.
The man who is cruel to dumb animals would be cruel to folks if he were not a coward. — "Uncle Tom" Marks, in the Progressive Farmer.

Uncle Natchel, says:

IT'S YO'
NATCHEL
SIDE DRESSER
...YAS SUH!

Side dressing your row and hill crops with Natural Chilean Nitrate of Soda is the ideal method of supplying quick-acting nitrate at the exact time they need it.

It contains 16% nitrogen and small amounts of other "vitamin" plant

food elements, such as boron, iodine, calcium, manganese, magnesium and many more.

For over a century farmers have preferred Natural Chilean Nitrate of Soda. It is the time-tested nitrate for every crop.
