EAT MORE FRUIT IN 1942

Fruit is one of the sources for that much needed Vitamin C (Ascorbic Acid). This vitamin is essential for growth and maintenance of normal bone and teeth structure and for the proper healing of wounds. In addition, an inadequate supply of vitamin C may result in Anemia, Hemorrhage, Pyorrhea and certain gum conditions. Aside from the daily service of fresh fruits they should frequently be included among the desserts.

Banana Apple Betty

2 tart apples, peeled
3 firm bananas, peeled
3-4 cup sugar
1-2 tsp cinnamon
1-4 tsp salt
3 cups soft bread crumbs
3 tbsp melted butter

Slice apples, cut bananas in 1-2" pieces. Combine fruit, sugar, cinnamon and salt. Mix bread crumbs with butter. Place alternate layers of crumbs and fruits into a well buttered baking dish, using crumbs for the first and last layers. Cover baking dish and bake in a moderate oven (375°) about 40 minutes (or until apples are tender). Uncover. Bake 5 minutes longer to brown the top crumbs. Serve hot with cream; sweetened whipped cream or a fruit sauce.

Bananas are valuable in the diet of both old and young and are easily digested.

Uncooked Lemon Pie

2 5c-boxes vanilla wafers
3 egg yolks
Juice of 3 lemons
1 can sweetened condensed milk
Roll 1 box of wafers fine and line the bottom of pie tin. Stand whole wafers around the sides of the tin. Beat well the egg yolks and gradually beat in the lemon juice. Pour into the lined pie tin. Cover with meringue and place in a moderate oven to brown.

Apricot Souffle

1 large can apricots (dried cooked, sweetened to taste may be used)
1 tsp granulated gelatine
1-2 cup cold water
Juice of 1-2 lemons
2 egg whites
1-2 cup sugar (more if desired)
Mash fruit to pulp or put through ricer. Combine with sugar and heat thoroughly. Soak gelatine in cold water 10 minutes and add to hot pulp. Add lemon juice and when cool place in refrigerator. When it begins to set, stir and beat with spoon and cut in the stiffly beaten egg whites. Turn into mold which has been dipped in cold water. Serve with cream, plain or whipped; or a custard. Amount of sugar used in this recipe must be determined to please the taste of the individual.
Peaches may be substituted if desired.

Cranberry Heart Salad

2 cups cranberries
1 cup sugar
1 tsp gelatine
1-2 cup cold water
1-2 cup chopped nuts
3-4 cup diced celery
Salt
Mayonnaise
Wash cranberries. Cover with cold water. Cook until tender. Add sugar. Cook 5 minutes. Soften gelatine in cold water. Add gelatine and salt to cranberries, stir until dissolved. Chill until partly set. Add celery and nuts and mix thoroughly. Pour into any desired shaped molds. (Heat shape most attractive). Chill until firm—mold and serve on crisp lettuce. Garnish with mayonnaise.

Cinnamon Orange Slices

1-2 cups sugar
1-2 cup water
Juice of 1 lemon
2 cinnamon sticks
3 oranges
Make a syrup of the sugar, water and juice and cinnamon. Wash oranges, cut in thick slices and place in the hot syrup. Boil gently without covering until the rind is clear. Chill in syrup before serving as a meat garnish.
