

Suggest Vegetables For Each Garden

What constitutes a "Victory Garden?" This question has been raised in connection with the "Victory Garden" campaign through which every farm family is asked to contribute to the National war effort by producing their own fruits and vegetables in 1942.

H. R. Niswonger, extension horticulturist of N. C. State College, answers the question, as follows: "A Victory Garden is one in which a sufficient quantity of different vegetables are grown to feed the family. Normally this requires one-tenth of an acre for each member of the family, with 10 or more different vegetables grown."

Farmers In Buncombe Set New High In Money Crops

Record books submitted by demonstration farmers of Buncombe County show that growers made more money in 1941 than in the past several years, reports Assistant Farm Agent W. R. Palmer.

The Navy trains mobile hospital units staffed by two doctors and four hospital corpsmen for use in epidemics and emergencies.

Niswonger suggests that the following 22 vegetables be grown, and he recommends varieties of seed to buy, and tells the amount of seed to plant for a family of five persons:

Bush lima beans, Henderson Bush, Wood's Prolific and Baby Fordhook varieties, 2 1-2 pounds of seed; pole lima beans, Carolina Sieve and Challenger varieties, 2 1-2 pounds of seed; bush snap beans, Stringless Black Valentine, Stringless Greenpod, and Bountiful varieties, 5 pounds; pole snap beans, Kentucky Wonder, 2 1-2 pounds; beets, Early Wonder and Crosby's Egyptian, 2 1-2 ounces; cabbage, Jersey Wakefield (early) and Danish Ball Head (late), 1 ounce; carrots, Chantenay and Imperator, 2 1-2 ounces.

Collards, Carolina Short Stem, 1 ounce; cucumbers, Clark's Special and Kirby, 2 1-2 ounces; lettuce, Big Boston and New York No. 12, one ounce; okra, White Velvet and Perkins Mammoth, 2 1-2 ounces; field peas, Crowder and Cowpeas, 2 1-2 pounds; garden peas, Laxton's Progress and Laxtonia, 2 1-2 pounds; peppers, California Wonder, one-half ounce; onion (sets) Silverskin, Ebenezer, and Yellow Globe Danvers, 5 pints; kale, Siberian and Swarf Blue Scotch, 2 1-2 ounces; spinach, Virginia Savoy and Long Standing, 2 1-2 ounces; squash, Yellow Crookneck and White Bush, 2 1-2 ounces; sweet corn, Golden Cross Bantam and Ioana, 1 1-4 pounds; mustard, Southern Giant Curled, 5 ounces; tomatoes, Pritchard, Rutgers and Marglobe, 1-4 ounce; turnips, Purple Top, 5 ounces; Irish potatoes, Cobbler, Green Mountain and Sequoia, 5 pecks; and 500 sweet potato slips of available variety.

Tea Time for Yanks in Northern Ireland

C. P. Cablephoto
Women war workers pour tea for some of the first American soldiers who landed in 1942 AEF at a North Ireland port. The troops are under the command of Major Gen. Russell P. Hartle. This photo was transmitted by cable from London to New York.

Recommends Canning Budget For Family of Five

Miss Mary E. Thomas, extension nutritionist, recommends: 20 quarts of string beans, 5 quarts of lima beans, 10 quarts of beets, 5 quarts of carrots, 5 quarts of corn, 5 quarts of greens, 5 quarts of okra, 10 quarts of garden peas, 30 quarts of soup mixture, 60 quarts of tomatoes, and 50 pounds of dried vegetables and 40 pounds of dried fruit for a five-member family canning budget.

beautiful... They will set the most steady agog now and then, and by awakening their curiosity lead them to see a little of the world... They will bring the powers of science into action at the very door of our standard friends, and teach them the advantages of intellectual advancements."

There is a tradition that tells of a family that visited relatives and found a new word. The relatives lived beside one of the plank roads and had begun to use better English. The word that was new to the visitors was "gravy"; and to their astonishment it was only a "high-falutin" name for a very familiar table dish, "soup".

being in Martin County, State of North Carolina, and defined and described as follows, to-wit:

Beginning at a stake on Commerce Street, in Oak City, North Carolina, 150 feet Northeast of Cherry Street, the corner of J. H. Ayers' lot; thence in a Southeasterly course with J. H. Ayers' line 160 feet to a corner; thence with J. T. Daniel's line 60 feet in a Southwesterly course parallel with Commerce Street to a stake in J. T. Daniel's line; thence with J. T. Daniel's line 160 feet parallel with Cherry Street to a stake in Commerce Street; thence with Commerce Street 60 feet to a stake, the beginning, containing by estimation one-eighth (1-8) of an acre, be the same more or less, and known as the Feddie and Alice Harrell lot.

THIRD TRACT: A certain parcel or tract or lot of land lying and being in Martin County, State of North Carolina, and defined and described as follows, to-wit:

Beginning on the Northern corner of W. T. Harris' land on the road leading from Oak City to Hassell, North Carolina; thence with said road 210 feet to a stake in said road; thence in a Westerly course 231 feet to a stake; thence in a Southerly course 176 feet to a stake in W. J. Harris' line; thence in an Easterly course with W. J. Harris' line to the corner of the beginning, containing by estimation one (1) acre, be the same more or less, and being the same lands deeded to J. B. Whitfield by H. Z. Hyman, deed dated November 14, 1923.

The last and highest bidder or bidders for said lands will be required to deposit ten per cent (10) of their bid or bids at the time of sale and before closing the sale, to show good faith.

This 9th day of January, 1942.

Local Happenings In The Enterprise Forty Years Ago

JANUARY 31, 1902.

County Commissioners meet next Monday.

The work on the Tobacco Warehouses will begin about the 10th of February.

It seems as if our merchants have let the ferry question die a natural death. Who will revive it?

Dr. John D. Biggs has moved into new quarters. His office is certainly the most cozy one in town.

Mr. Lee Dixon has been in town all the week trying to do some tinning, but the weather has greatly hindered him.

The renting of the second warehouse will take place at the meeting of the directors of the Tobacco Warehouse Company next Monday night.

Mr. J. L. Woolard, who resides near town and manufactures carts, cultivators and tobacco flues, has an "ad" in this issue which we call your attention to. Look for Mr. Woolard's new "ad" next week, who has been visiting her sister, Miss Hattie Harrell, left for her home in Everetts, Monday morning.

Miss Emma Hastell has returned home after a very delightful visit to Washington, N. C. Glad hearts abound.

Misses Nora Fowden and Clyde Hassell spent Sunday in Parmele, visiting friends.

Miss Nora Fowden entertained quite a few of her friends at her home on Simmons Avenue Wednesday evening.

Miss Annie Lamb left Saturday morning for St. Mary's School, Raleigh, N. C.

Mr. P. Ewell, of Washington, is visiting his father.

"Victory Garden" Campaign Feb. 9-14

Next week, from February 9 to 14, has been designated as "Victory Garden Week" in North Carolina. It will mark the start of a campaign to encourage every farm family in the State to contribute to the war effort of the United Nations by producing their own vegetable and fruit supplies.

Dean J. O. Schaub, extension director of N. C. State College, says the "Victory Garden" campaign is based on: (1) Patriotism, (2) eco-

Named to Labor Victory Board

CIO leaders are shown at a New York City hotel after announcing appointment to the "Labor Victory Board" which will meet with President Roosevelt to settle all labor disputes. Left to right, CIO president Philip Murray, who heads the CIO committee; Thomas Kennedy, United Mine Workers secretary-treasurer; R. J. Thomas, president of United Auto Workers, committee member.

Organize Ladybirds

Jacqueline Cochran, ranking woman flier of America, is shown looking over a globe with Capt. Norman Edgar, ATA representative in New York, as they discussed organization of an American section of women fliers to serve abroad with the British Air Transport Auxiliary. The women fliers would ferry planes from factories in assigned bases.

organizations, dealers in seed, fertilizers and farm supplies; churches, health, rural electrification and other welfare agencies; bankers, and civic clubs, chambers of commerce, and (3) health.

Schools, National and State farm and other city and town organizations, have been enlisted to help agricultural agencies in the campaign.

"The patriotic duty of every family demands participation in the Victory Garden campaign," Dean Schaub declared. "We must make an extra effort this year to grow an adequate supply of vegetables and fruits for family needs."

"Because of the advancing prices for food, the shortage of containers, and the increasing war demands, more food must be produced at home. Every serving of food produced in a Victory Garden saves money for the farmer and makes avail-

PLANK ROADS IMPROVED PEOPLE'S LANGUAGE

A century ago North Carolina had no reputation for "good roads." In fact, transportation facilities were lacking and the state was so backward that writers of that period merely used the name "Old Rip" implying that the Old North State had been sleeping for years.

A century ago there were no ribbons of concrete criss crossing the 52,286 square miles of Tar Heel soil. Since Governor Morrison was chief executive of North Carolina, other states have envied the extensive system of highways. There is some interesting history behind the story of our hard-surfaced highways.

One hundred years ago there was a world-wide "good-road movement" which caused experiments of various kinds in an effort to improve travel and transportation. Perhaps the most interesting experiments were the plank roads. In North Carolina there were approximately five hundred miles of highways constructed by carpenters. Five plank roads were constructed from Fayetteville to towns in various parts of the state. The longest one was the Fayetteville and Western Plank Road which spanned the one hundred and twenty-five miles to Bethania in Forsyth County.

The roads paved with wood were constructed upon a prepared road bed by laying planks across large sills. Those highways were nothing more than a "floor" constructed from town to town. However, the planks were heavier than regular floor boards, for they were often three inches thick, usually a 3 by 8.

Much was expected of the improved roads. The Tarboro Southerner included the following in an editorial: "Improvements of this kind will add to the real or permanent wealth of our country... They will encourage the cultivation of the ornamental and

Manure Is Considered Best Garden Fertilizer

Manure has no substitute as a general garden fertilizer. However, if it will be necessary to furnish plant nutrients in the form of chemical fertilizers. On soils of average fertility, complete fertilizers may be used safely at the rate of one ton per acre, if applied broadcast. If applied in the furrow, the applications should not be greater than 1,000 pounds per acre. Heavier applications may prove harmful. If more fertilizer seems necessary, apply it as a side dressing after the crop has become established.

able more food for our armed forces. "The strength of our Nation is determined by the strength of our people. Stronger bodies, keener eyesight, steadier nerves, and greater courage can be developed by the use of fruits and vegetables in the diet."

"MY JANUARY SAVINGS GO INTO THE BANK"
1942 BUDGET
I SAVE a lot of money by purchasing many of the things I need at January Sales... and I feel that the best place for those savings is in the bank. There, they earn interest for me and are available as cash whenever I need it. I like to see those little bank book figures grow... I like to know that I have money for those "extra" expenses that always arise. That's why, after saving in any sale, my first stop is the savings bank.

You'll like these Time-and Money-Saving Features of **JOHN DEERE Tractors**

- Simple, rugged two-cylinder engine that burns low-cost fuels successfully.
- Straight-line transmission—no bevel gears.
- Forced crankcase ventilation to prevent formation of oil sludge.
- Full-pressure lubrication.
- Positive gear-driven fan—no belt.
- Thermo-siphon temperature control.
- Belt pulley on crankshaft—full engine power to belt.
- Unobstructed vision.
- Simple maintenance—everything easy to get at.
- Hand clutch easily operated from the tractor seat, standing up, or from the ground.
- Foot-operated differential brakes.
- Complete line of integral and drawn equipment.

And many other features you'll like. Come in today—see them—you'll want a John Deere.
