The first part of the meeting was given over to the program committee chairman who turned the meeting over to Miss Katherine Bradley, a member of the grade school faculty here. Her class of fourth grade children presented musically a lesson about February.

The "teacher" was Warren Goff, who called the roll to the tune of "Coming Through the Rye." Each pupil answered musically as his name was called. Lilybet Muse read a paper on George Washington and Ronald Levin read a paper on Abraham Lincoln. Three songs, "The February Song," "The Duck Song," and the "Salute to the Flag," were sung by the class, and the program was closed with everyone singing the National Anthem.

During the business portion of the meeting, members were urged to do all they could to aid in National Defense, and the club as a whole decided to start a program of buying defense bonds and stamps. After other routine business matters were discussed, the meeting adjourned.

HINTS FOR HOMEMAKERS

By Irene James, Home Service Director, Virginia Electric And Power Company

SOUPS

Soups are almost universal in their acceptance, clear and thin for the beginning of heavy meals, full bodied and substantial as the main dish—served with a good salad of raw fruits, since possibly your soup will include many vegetables.

Nearly every nation has a soup particularly its own. Russia and Poland have a soup which uses beets and sour cream as a foundation. France and Italy have onion soup which combines cheese, onion, and toast as its chief ingredients.

Some hints regarding vegetable soups: List under this head soups with a strong basis of meat and bone. Soup bones should always be cracked in order that the marrow may be freed—this being the reason for using bones in soup. All vegetables may be used as seasoning with the exception of squash and egg plant. Their lack of a decided flavor is the only reason for not including them. Soup meat should be cut in cubes. Vegetables, pepper and salt, are added as preferred by those enjoying the soup.

Cook slowly. Never thicken vegetable soup with flour or other mediums. The starch of beans, corn, etc., is sufficient to give body to the soup.

French Onion Soup

Simmer one cup of chopped onions in one-half cup of water with a blade of mace, half a bay leaf, a sprig of thyme, one-fourth teaspoon of salt and a few grains of sugar, until the onions are tender but not too soft; then remove the mace, bay leaf and thyme, and add the onions with the liquid, to a thin white sauce made as follows: Melt two tablespoons of shortening, add two tablespoons of rice flour, stir to a smooth paste and add two cups of hot milk; stir and cook until thickened and add one tablespoon of butter, one-half teaspoon of salt, a few grains of white pepper and two bouillon cubes dissolved in two tablespoons of boiling water. Mix well and serve hot.

Float a piece of whole wheat bread, cut in fancy shape on top of each bowl of soup, sprinkle with cheese, set into a hot oven to melt the cheese, then serve at once.

Potato and Water Cress Soup

3 medium sized potatoes
4 1-2 c boiling water
3-4 tsp salt
3-4 tsp melted butter
1 1-2 tsp flour
1 1-2 c finely chopped water cress
1 1-2 tsp salt
1-8 tsp pepper
Wash and pare the potatoes and cook them until tender in boiling salted water. Put boiled potatoes, while hot, through a vegetable ricer or sieve. To this puree add the potato water, let come to a boil and thicken with melted butter and flour which have been blended together. Add water cress, salt and pepper. Serve hot with croutons. Add hot milk to make a thinner soup if desired. Six servings.

Philadelphia Pepper Pot

Shin or soup bone
2 lbs boiled tripe
Cut in 1-2 inch dice
1 qt diced raw white potatoes
1 c cut onions
2 c finely cut dumplings
1 tsp flour
1 tsp salt
1-8 tsp black pepper
1 tsp finely cut parsley

1 tsp dried sweet marjoram
When possible buy the tripe boiled. If not, it must be well washed and boiled 4 hours or until tender. The shin or soup bone is put on to boil with four quarts of cold water; when the meat is tender, remove bone; add the tripe, potatoes and onions; boil 40 minutes; add salt, pepper and flour, which has been mixed smooth with cold water; then add dumplings and parsley; boil 3 minutes; last add the sweet marjoram.

Black Bean Soup

1 onion

Pepper
Salt
Paprika

POTASH

For Five Million Farms

More than 800,000 tons of potash materials for fertilizer use left American mines and refineries last year for farming areas where soil deficiency of potash—an essential plant food—is limiting crop production. About two-thirds of this tonnage was in the form of muriate of potash (60-63% K₂O), a form highly concentrated to reduce the Farmer's fertilizer freight bill. Immediately upon the outbreak of war in 1939, the American Potash Industry began a rapid increase in production capacity. This expansion program is still continuing to meet the demands for increased food production—FOOD for VICTORY.
