Happenings In The Farm Life School

Eleven boys from the Farm Life School, accompanied by Coach Ward attended the basketball tournament held at Atlantic Christian College, in Wilson, last week. The boys won their first game with Selma by a score of 24-13, and they lost to the tournament champions, La Grange, in the second game. Boys making the trip were: Dalmar Manning, Carlisle Manning, Alton Peck, Robert Whitley, Bruce Peck, B. F. Lilley, Jr., E. H. Manning, Jr., Verlin Griffin, Elbert Ward, Ervin Manning and Benny Daniels.

There will be a game in the Farm Life gym tonight at 8:30 o'clock between the Farm Life Independents and the Williamston Eagles.

The seniors will have their first practice of the senior play this week. The play, "Feudin' in the Hills," is a royalty play and will be given soon.

The seventh grade gave a very interesting chapel program Friday, Feb. 27th. It consisted of two short comedies. The first one was entitled, "The Weatherbys Go to the Circus." The action took place very near the circus grounds. Paw Weatherby sold a cow to get some money to take his family to see the circus, and Maw Weatherby and the children had quite an exciting time on their way to the circus grounds. The characters were as follows:

Silas (Paw) Weatherby, who sold a cow, Justus Tice; Matilda (Maw) Weatherby, who never saw a circus; Mary Dean Hardison; Jeremiah, their oldest boy, Archie Revels; Hiram, the youngest son, Mack Donald Griffin; Perfidious, their only daughter, Thelma Clyde Manning.

The second comedy was entitled, "Waiting for the Train." The action took place on a railroad station platform. Ma and Pa Peck carried their children for a ride on the train. Poor Ma had such an awful time keeping the children straight that she was almost exhausted by the time the train arrived. The characters were as follows:

Cynthia Peck, known as Ma, Bettie Perry; Elmer Peck, known as Pa, Nathan Roberson; Emily Peck, sweet sixteen, Susie Manning; Roscoe Peck, ten years old, Mack Donald Griffin; Philander Peck, eight years old, Wilford Griffin; Red, a railroad station red-cap, Oscar Tice.

Higher Oil Content Of Soybeans Sought

Farmers of North Carolina have been asked to increase their production of soybeans by 111,000 acres in 1942 to provide a source of vegetable oil for war-time uses. The State College Agricultural Experiment Station has speeded up its soybean research program in an attempt to develop varieties of soybeans which have a high oil content.

Dr. L. D. Bayer, Experiment Station director, announced that E. Fred Schultz, a graduate student, has been added to the research staff to help with this soybean work. He will cooperate with Agronomist J. A. Rigney who has devoted a major part of his time to this problem.

Rigney reports that Wood's Yellow, Tokio and Herman varieties of soybeans have been superior in the production of seed in the Coastal Plain. In the Piedmont, the same varieties do well, although Wood's Yellow is late maturing and is not recommended for delayed plantings. The State College agronomist says that Wood's Yellow is fairly shatterproof, but is comparatively low in oil content. The Tokio and Herman (Haberlandt) varieties are higher in oil content, but they shatter severely under any but the best conditions. Rigney suggests that soybeans be planted in rows and cultivated a few times in the Coastal Plain. In the Piedmont, however, erosion is a prime consideration and it is usually best to plant soybeans broadcast or in close drills. Soybeans leave the land in very loose, erosive condition and any cultural practice that will reduce this on rolling lands should be used, the agronomist declared.

The State College leader said seed supplies of the Arksoy, Biloxi, Clemson and Mamredo varieties of soybeans are small this year; seed supplies of the Herman and Mammoth Yellow varieties are medium; and seed supplies of Tokio and Wood's Yellow are comparatively large.

My Swan Day

By Gracie (Well, I Swan!) Allen

•Dread I had to bathe 139 babies when along came a pure white Swan and it was as mild as imported castles and it turned into a BIG cake of soap and guess what the soap was? SWAN!

•Woke up late—but was all showered and dressed in half the time, because Swan lathers twice as fast as old-style floaties. Goodiel

SWAN FLOATING SOAP
