Planning Series Of Nutrition Classes

A course in nutrition will be sponsored by the Junior Woman's Club, and will begin some time in the near future. This course will be offered to all who wish to take it.

A class of around 150 can be taken care of, and classes will meet once week lasting two hours each. The meetings will be held at the Woman's Club building and it is necessary to have at least twenty hours in order to get a certificate.

This is the only course in nutrition being offered at this time which is approved by the government. Each member will be expected not to miss more than one class in order to get a certificate, except for a very good reason.

The classes will be conducted by Miss Irene James, of the VEP. Call either Mrs. H. O. Peele, Mrs. K. D. Worrell or Mrs. Benjamin Courtney, to have your name put on the roll. Notice your paper carefully for the announcement of the day of the week and the time of day these classes will be held.

A course in Canteen work will follow the nutrition course. Class requirements will be approximately the same in the number of hours necessary for a certificate. It is required for one to have the course in nutrition before taking the canteen course. More detailed information will be given later.

HINTS FOR HOMEMAKERS

By Irene James, Home Service Director, Virginia Electric And Power Company

The limiting of sugar may prove to be a blessing in disguise. It may cause us to turn to the abundant and delicious supply of fresh, canned and dried fruits for many of our desserts. Half grapefruit, served after a heavy meal, is a refreshing and delightful dessert. Dried prunes, apricots and peaches can be served without any sugar, or with a very small amount if they are cooked in the water in which they are soaked. Other fruits, such as grapes, oranges, bananas, plums and peaches can be served as desserts without the addition of any sugar. Canned fruits, especially those canned in a thin syrup are ready for serving right from the can.

If however, we wish to continue to make desserts, we must have recipes which use little or no sugar. Honey, sirup and marshmallows are some of the substitutes used. Fruits also play a large place in this type of recipe since a limited amount of sweetening is needed for fruit desserts. Here are a few recipes which you might like to try.

Apple Sauce Cake
3-4 c honey
1-3 c shortening
1 egg
1 c thick apple sauce (unsweetened)

2 c flour
1 tsp soda
1-4 tsp cloves
1-2 tsp nutting
1-2 tsp cinnamon
1-2 tsp salt
1 c seeded raisins
1-2 c nuts

Cream honey and shortening, add egg, beat well, add apple sauce alternately with sifted dry ingredients to which nuts and raisins have been added. Pour in greased floured pan, bake 1 hour at 350°.

Hot Pineapple Ambrosia
3 slices canned pineapple, diced
1 c coconut
9 halves canned apricots, diced
1-4 c corn sirup
2 tsp lemon juice
Arrange layer of pineapple and apricot in baking dish. Sprinkle with coconut, repeat until fruit is used. Pour over it sirup and lemon juice. Bake 350°-20 to 30 minutes.

Banana Marlow
10 marshmallows
1-3 c grape juice or orange juice
1-2 c whipping cream
2 tsp lemon juice
1 c mashed ripe bananas (2 or 3)
Add to marshmallows 2 tsp juice. Heat slowly, turning over until the marshmallows are half melted. Remove from heat, continue folding until mixture is smooth and fluffy. Fold in remaining juice, then bananas and lemon juice. Chill in freezing tray until it begins to freeze. Beat well, fold in whipped cream.

Apricot Whip
1-2 c evaporated milk, whipped
2 tsp lemon juice
1 c apricot pulp
4 tsp sugar
1 1-2 tsp vanilla (optional)
1 c chocolate snap crumbs
Whip milk, add lemon, beat until very stiff. Beat apricots into pulp, add sugar and vanilla—add to milk. Blend well. Place alternate layers of chocolate crumbs and apricots in parfait glass. Freeze if desired.

Honey Baked Apples
Bake apples with a small amount of water and butter until tender. Remove from oven, warm honey slightly, and add 1 to 2 tablespoons to each apple. The hot apple will absorb honey and give a delightful flavor.

Happenings In The Oak City Schools

School is running along normally. There are a few cases of mumps and measles, but no serious number. The basketball season for our school is now at an end. Those interested in sports are now eagerly looking forward to the baseball season.

The physical education program is functioning nicely. Dr. Pittman has completed the examination of high school students and the physical examination cards are being filled by the teachers and helpers.

The women of the Red Cross here are ready for work. The sewing machines were received last week. The ladies are now waiting for material and also to hear from Mrs. V. A. Ward to set the date for the next meeting.

Last Wednesday, the P.T.A. met. There was a good meeting. The fourth grade won the prize for having the largest number of parents present. Discussions on Red Cross work and library workers were held.

At their last meeting, the Dramatic club voted to donate the money left in their treasury to the Red Cross.

The Junior Class has decided to, instead of having a banquet, hold a prom and donate the money that is left to the Red Cross and Salvation Army.

Mrs. Howell Entertains
Mrs. Bill Howell delightfully entertained at her home on East Main Street Wednesday night. Three tables were set for bridge. A green and white color scheme was carried out in decorations and refreshments. During the playing cold drinks and nuts were served. When cards had been laid aside, and final scores tallied, Mamie Clyde Taylor was found to have scored high. Mrs. Woodrow Tice was given a consolation prize.

Later in the evening the hostess served a delicious salad course to the following guests: Misses Ruth Ward, Anne Getsinger, Mary Rodgers, Josephine Eldridge, Marie Griffin, Mamie Clyde Taylor and Lorene Weaver, and Mesdames Oswald Stalls, Woodrow Tice, G. V. Flowers and Steve Clary.

CHILDREN'S COLDS

FOR DIRECT RELIEF from miseries of colds—coughing, phlegm, irritation, clogged upper air passages—rub throat, chest, and back with Vicks VapoRub. Its poultice-and-vapor action brings relief without dosing.

ALSO, FOR HEAD COLD "sniffles", melt a spoonful of VapoRub in hot water. Then have the child breathe in the steaming vapors.
