

### Registration For Gas Rationing To Be Held May 12th

(Continued from page one)

fill out a form showing for what purpose his vehicle will be used, and he must state that his vehicle will be used either entirely or substantially for this purpose. Legitimate uses which make an owner eligible for an "X" card include: (1) for an ambulance or hearse; (2) for a taxi or bus; (3) for a minister in performance of his religious duties; (4) for a physician, nurse, veterinarian or Christian Science practitioner; (5) for the official business of Federal, State, local or foreign government agencies; (6) for trucking, delivery or messenger service; (7) for transportation of materials and equipment needed for construction or for maintenance and repair services; and (8) for transportation of work crews to render such services.

The "X" card is not marked with unit squares. Instead the words, "For Essential Use," are written across it, and the holder is authorized to make any necessary purchases.

Inboard motorboat owners must fill out a form to obtain either the "A" or "X" cards. An "A" card will be used if the craft is used for non-essential purposes; an "X" card will be issued if it is to be used for certain specified commercial purposes.

After registration dates, gasoline users may apply to their local rationing boards if they feel they need more fuel than their card permits them to buy.

### Two Dozen Marriage Licenses Issued In County Last Month

(Continued from page one)

Judson Mack Whitfield and Rosa Mae Outterbridge, both of R.F.D. 3, Williamston.

Harry Hyman and Hattie Burt Shields, both of Palmyra.

George Games and Beulah Griffin, both of R.F.D. 3, Williamston.

Elisha Lucas Purvis and Nancy Taylor, both of R.F.D. 3, Williamston.

### The 21st Week Of The War

(Continued from page one)

will be bases for offensive action, the President said, and the U. S. is determined that the territory which has been lost will be regained.

#### The War Front

Admiral William Stark, Commanding U. S. Naval forces in European waters, said the submarine menace off the U. S. Atlantic Coast is being beaten. Gen. MacArthur's headquarters in Australia reported a six-day aerial offensive by United Nations bombers against Japanese bases north of Australia destroyed more than 50 enemy planes, sank one transport and inflicted heavy damage on enemy ground installations. Air raid alarms on Corregidor Island passed the 250 mark before it fell on Tuesday night.

#### Army and Selective Service

The War Department established an Eastern Military Area, including all of the Atlantic Seaboard. Secretary Stimson said no mass evacuations of citizens are contemplated, but vital areas will be policed to prevent potentially dangerous persons from entering them. The Army announced establishment of "port agencies" in principal U. S. seaports to coordinate and speed shipment of war supplies to all United Nations. Mail to American prisoners of war in the Far East whose names have appeared on official lists of the Provost Marshal General may be sent postage free, the Red Cross said.

College students enrolling in advanced ROTC courses will be required to enlist in the Army Enlisted Reserve Corps if they have reached the age of 18, the War Department said. The Department reported 327 Negroes are now enrolled in Officer Candidate Schools. Selective Service Director Hershey said men who registered last February 16th will be included in June calls of every SS local board.

#### Navy

The Marine Corps announced its maximum enlistment age is now 33 instead of 30, and height requirements range from 63 to 75 inches, instead of 64 to 74. The first submarine completed in the Great Lakes was launched at a Wisconsin port. The Navy Department reported Navy, Marine Corps and Coast Guard casualties from December 7 to April 15 totaled 6,393, including 2,991 dead.

#### Production and Conversion

War Production Chairman Nelson said although the U. S. is "over the hump" in war production and United Nations output exceeds that of the Axis by a considerable margin, the real production war has just begun because of the head start of the Axis. More than 1,000,000 men and women are working in war plants where joint labor-management production drive committees have been set up, he said. The War and Navy Departments announced jointly the establishment of a price adjustment board in each department to review financial setups of war contractors whenever there is reason to believe excess profits are being made.

#### War Labor Supply

President Roosevelt said plans to register women for war work have been abandoned for the present because there are more women workers now who want jobs than there are jobs available. He said any woman wanting to get into war work may register at a U. S. Employment Service Office. War Manpower Chairman McNutt said the number of persons employed in war work by the end of 1942 may reach 17,500,000 compared with 1,500,000 at the beginning of 1941. He said a million or more additional women will be employed in war industries this year. Mr. McNutt issued directives to the 1,500 employment service offices in regard to the placement of women and of men over 40.

#### War Bonds and Stamps

The President told his press conference he hoped people would buy war bonds and stamps out of current earnings rather than from cash reserves. Treasury Secretary Morgenthau said investments of employees in firms operating under the payroll savings plan must be raised at once to a minimum of 10 per cent of the gross payroll. He said the number of employees purchasing bonds regularly must be doubled, and the average purchases raised from \$7.50 to \$20 per month.

#### Transportation

Transportation Director Eastman asked the 48 governor and the mayors of all cities of 10,000 population or more to institute systematic staggering of business, school and working hours, planned group use of private cars, and improved regulation of local traffic to increase efficiency of passenger vehicle movement and mass transportation. President Roosevelt asked departmental and agency heads to draw up a transportation program for employees that will "substantially reduce" the number of cars necessary to take men and women to and from work. He asked that similar programs be planned by state and local governments.

### Russia's Ace Surgeon

Head of the surgical department of the Soviet Neurological Clinic, Dr. A. Vishnevsky has succeeded in transplanting nerves from the dead to the wounded Red Army men. As a result of this operation, many men considered hopelessly incapacitated, have been returned to the front as good as new.

(Central Press)

### THE RECORD SPEAKS . . .

A driver thoughtlessly and carelessly stopped his car on the highway last Saturday night on the Stokes-Robersonville Highway. A crash followed and the figures in the "wreckord" columns went scooting up after drivers on Martin County roads went through nearly two weeks without an accident. It is encouraging to note, however, that a third of the year has passed without a single fatality on the highways of the county. And there are other bright spots in the picture, but the wreckord figures can still be improved greatly.

The following tabulations offer a comparison of the accident trend: first, by corresponding weeks in this year and last and for each year to the present time.

18th Week Comparison				
Year	Accidents	Inj'd	Killed	Dam'g \$
1942	1	4	0	\$ 250
1941	1	3	0	475
Comparison To Date				
1942	31	17	0	\$4260
1941	34	23	2	\$2396

### Allies Score Great Victory Over Japs In Pacific Ocean

(Continued from page one)

gained additional strategic points and were now within 70 miles of India's border. General Stilwell is reorganizing his Chinese army for a new stand, but the Japs have pushed well into China along the Burma Road. The British have improved their stand on Ceylon and are better prepared to fight the Japs in an invasion attempt of India.

Doggedly trying to disrupt the delivery of American and British supplies to Russia, Germany has about lost out in its air battle over Murmansk, the Russians stating that they had gained supremacy there after shooting down 107 Nazi planes. Along the Eastern front from Leningrad to the Crimea, the Russians still are scoring telling successes against the Nazi hordes. Nearly 350 villages have been recaptured in recent fighting, and guerillas have wiped out 35,000 Nazis in recent days from their vantage points all along the front.

The RAF attack on Germany and occupied countries has been slowed down again by unfavorable weather.

Two more United States merchant men have been sunk by enemy subs in the Caribbean recently.

### Hook And Line Fishing Season Opens May 20th

Delayed longer than usual, the season for hook and line fishing in inland waters will open on Wednesday, May 20th, Game Warden Bill Abbott announced today.

### Ashe Farmers Giving More Attention To Conservation

Dozens of acres of eroded land in Ashe County are being planted to white pines as a result of 4-H Club members and farmers giving more attention to soil conservation and reforestation.

The zinc in a 3 1-2 pound toy locomotive would make a carburetor for a jeep.

Transportation Director Eastman asked the 48 governor and the mayors of all cities of 10,000 population or more to institute systematic staggering of business, school and working hours, planned group use of private cars, and improved regulation of local traffic to increase efficiency of passenger vehicle movement and mass transportation. President Roosevelt asked departmental and agency heads to draw up a transportation program for employees that will "substantially reduce" the number of cars necessary to take men and women to and from work. He asked that similar programs be planned by state and local governments.

WANT A BAND? THEN CONTACT Joe Wilson or any member of his band. Will play anywhere for anybody. School has closed and all dates are open, 334 W. Warren Street, Williamston.

### Oak City Closes Successful Year

Holding the last of its exercises this week, the Oak City Schools closed a very successful term, school authorities and patrons declared.

The commencement sermon, delivered Sunday morning, May 3, in the school auditorium, was taken from II Cor. 2nd chapter and 2nd verse. Topic: "Writing the Book of Life." Rev. N. E. Gresham held his audience to close attention while he divided his sermon in the following five topics, unity, completeness, emphasis, proportion and beauty.

Marvin K. Blount, candidate for Congress, delivered the address on Monday night, May 4th, to a filled house. His topic was, "Youth in Society." The 26 graduates marched to the stage and received their diplomas presented by Supt. J. C. Manning. Thus closed the school year for 1942. In spite of adverse difficulties the school term was a success, many patrons expressing themselves in very favorable terms of the school year.

The junior class presented the local Red Cross with \$30.23, the cash being a part of the money the class raised for the banquet which was agreeably changed for war help. The class also has in the hands of their leader, Mrs. Evelyn Jones, money enough to purchase a Rex-o-graph for school use another year.

### Womanless Wedding Will Be Held In Hamilton

There have been shotgun weddings, Tom Thumb Weddings, and now comes a Womanless Wedding. This novel presentation of the rites of matrimony was presented Tuesday, May 5th, in the Hamilton school, but the ceremony was interrupted when something went wrong with the electric system and the lights went out. The program was never finished.

Plans have been made to present the same Womanless Wedding with the same cast, next Tuesday night. The program will be presented in the Hamilton school at 8:30 as before and proceeds will go to the school. Admission is 10 and 15 cents. The public is cordially invited and urged to attend.

### No Precinct Meetings Scheduled In The County

While no schedule has been announced, all good Democrats are at liberty to meet in their respective precincts, perfect that local organizations and elect delegates to the county convention. Local meetings are being held in some counties tomorrow, and on Saturday of next week the county convention is scheduled to be held in the courthouse.

### Officers Raid Distillery Plants In County District

Raiding in Hamilton Township last Wednesday, ABC Officer J. H. Roebuck and Deputy Roy Peel, assisted by ABC officers from Pitt County, wrecked two partial liquor distilleries and poured out about 250 gallons of beer. The plants were not in operation and the kettles had been moved from each manufacturing site.

### Temporary Naval Recruiting Station

Navy Recruiter E. E. Parker, Chief Water Tender, USN, of Navy Recruiting Substation, New Bern, has announced that a temporary recruiting station will be open at the Post Office Building, Washington, N. C., on Monday and Tuesday, May 11th and 12th, 1942, for the purpose of enlisting applicants in the Naval Service. Those accepted will be sent to Raleigh, for final examination and to be sworn into the Naval Service. An unusual attractive enlistment program is offered, and the Navy has a place for all qualified men between the ages 17 and 49 inclusive. Applications are accepted for the Regular Navy and Naval Reserve, offering men the opportunity to serve their country, build their future, and earn while they learn. Some of the many training schools now available are: aviation mechanical; radio; signals; clerical; metallurgy; machinist; electrical; car-

### Sugar Shortage Is Causing Apiarists No Great Concern

(Robersonville Herald)

The sugar shortage has awakened the bee owners of Robersonville from their slumbers of several months duration. Even Calvin Smith's interest has been revived and according to a statement issued by him yesterday morning he is not anticipating any sweetening shortage around his house.

W. B. Rogerson is the latest addict to the bee business. Gilbert Smith, of course, sold him on the idea and Rogerson is making plans to "honey" just about everything in this section.

Bill Gray, Calvin Smith, W. B. Rogerson, Gaston Andrews, David Grimes, Gilbert Smith, Hugh Roberson, Eli Rogers, J. R. Matthews, C. M. Hurst and many others in this section have gone into the honey business within the past two or three years. Until sugar became scarce you didn't hear them say much about their bees and hives unless one of them got stung in the buttox. For some reason or other they lost their enthusiasm but now they are looking up and are proud of the fact that they have honey to spare.
