

### State College Hints For Farm Homes

By RUTH CURRENT  
State Home Demonstration Agent  
Refreshing sleep is a must in this time of stress, so let's have comfortable, clean, well-ventilated bedrooms.

Guard against sharp edges of springs or bedstead when removing sheet. Lift the corner of the mattress to prevent undue strain. Change sheets at least once a week. Use them in rotation. Wash with good quality pure soap. Rinse thoroughly. Hang straight. Double over line in sun. In ironing, keep hems straight and do not press sharp creases. Do not use sheet or pillow case as laundry bag.

Keep dish cloths and towels sweet and clean with frequent washing and airing.

Teach children to wash and rinse hands clean before drying them. Change towels frequently. You won't have to rub so hard when washing them, saving your energy and it will also prolong the life of the towel.

Women have a three-fold job in defense: (1) To buy food correctly—food that is fresh, food that has proper vitamin content, food chosen

### Things To Watch For In The Future

Clothes made from peanuts. W. B. Jester, president of the National Peanut Council, says they are a definite early future prospect, and that you won't be able to tell the difference between a "peanut wool" suit and one made of Scotch woolsens. Rubberless but nevertheless elastic-topped socks for men. At least two new ideas in glass jars for home canning, requiring no rubber sealing rings. A gift candy box in large disc shape, the cover of which is, in effect, a phonograph record that can be played.

### Wilson Farmers Plan To Grow More Legumes

A large number of Wilson County farmers are planning to grow more legumes this year so that they will be able to supply more of their nitrogen needs for 1943.

Mr. Julius Edwards, of the U. S. Navy, stationed in Norfolk, visited here last week-end.

to give a balanced health diet; (2) To preserve food properly—so as to retain its health-giving vitamins and minerals; (3) To cook food scientifically—so that only the minimum amount of minerals and vitamins will be lost in the preparation.

Elderly people use less energy, need fewer calories. Plan diets to keep down excessive weight for it is a burden on the heart, a danger to health.

### The House That Cotton Built

Almost overnight scores of concrete defense homes are rising at Falls Church, Va. The rapidity of construction of these houses can be attributed largely to the ingenious use of cotton and rubber, the National Cotton Council and Cotton-Textile Institute report. Room-sized rubberized cotton balloon sections are inflated and sprayed with concrete. When the concrete hardens the balloon is removed and the concrete shell is covered with insulating material and an outer layer of concrete. Defense housing officials say that using four balloon sections they can erect 100 houses in 60 days and 200 in 90 days. Above, workmen dust balloon with a compound to prevent concrete from sticking to it, and below, is shown a finished house. The house has two bedrooms living room, kitchen, bath, entrance hall and ample closet space.

### VICTORY ON THE FARM FRONT

#### APPLICATION OF AAA LIME SHOWS INCREASE IN STATE

In line with the nation's wartime need for large increases of certain essential crops, and continuance of soil conservation practices, North Carolina farmers are increasing use of crushed limestone as a soil building material, according to E. Y. Floyd, AAA executive assistant of State College.

For the period from November 1, 1941, through May 6, 1942, Mr. Floyd said, farmers of the state ordered 236,800 tons of limestone from the Agricultural Adjustment Agency for use on pasture lands, hay crops, and small grain. For the corresponding period of the previous year, he said, 196,351 tons of limestone were ordered. At the same time, he declared 11,471 tons of 20 per cent superphosphate have been ordered this year.

He urged farmers who plan to use additional limestone on their land this fall with small grain crops to place their orders as quickly as possible to insure delivery.

"The current transportation situation is making it more difficult to obtain supplies of limestone within a short time after orders are received," he said. "This situation probably will grow worse as troop and war materials movements place an additional burden on railroad facilities."

The AAA official pointed out that, in placing orders for fall delivery farmers should give proper consideration to the possible shortage of other materials which now are going for war purposes, and that needs should be considered in relation to the war production program.

Crushed limestone is obtained from the AAA through county agricultural conservation associations as grant-of-aid material, and costs of it are deducted from conservation payments due farmers at the close of the program year.

Mr. and Mrs. Eddie Trahey visited the latter's mother in Parmele Sunday.

### Hull Back at Work

After two months illness, Secretary of State Cordell Hull returns to work. He is shown arriving at the White House to attend a conference with Gen. Marshall, Harry L. Hopkins and the President. Marshall and Hopkins recently returned from a confidential mission to London. (Central Press)

### Interesting Bits Of Business In the U.S.

American tanks with thicker armor than axis tanks and deadlier armament, are now rolling off production lines at Baldwin Locomotive works at three-and-a-half times the rate set by War Department officials a year ago. A standard harvester-cutter of Papep Machine company of Shortsville, N. Y., has been adapted as a guayule-harvesting machine. One is already at work on a plantation near Salinas, Calif., where the rubber-bearing shrub grows. (That has almost no effect, however, on the immediate rubber problem.)

### How To Establish A One-Variety Cotton Community

The first step to establish a one-variety cotton community is to have interested farmers. Then they should see the county agent, who will aid them in setting up an organization for the improvement of cotton in their community. Arrangements will then be made with ginners to take the samples necessary for the classification. The organization will make an application through the county agent for free classing and market news service. This application must be filed in the office of the cotton marketing specialist at N. C. State College by August 15.

### GIVEAWAY

A judge was pointing out that a witness is not necessarily to be regarded as untruthful because he alters a statement made previously. "For instance," he said, "when I entered this court today I could have sworn I had my watch in my pocket. But then, I remembered I had left it in the bathroom at home." When the judge got home that night his wife said, "Why all this bother about your watch—sending four or five men for it?" "Good heavens," said the judge, "what did you do?" "I gave it to the first one who came; he knew just where it was."

### Rules of the Road . . .

#### ON BEING OVERTAKEN

Sec. 113, Motor Vehicle Laws of North Carolina—"The driver of a vehicle upon a highway about to be overtaken and passed by another vehicle approaching from the rear shall give way to the right in favor of the overtaking vehicle on suitable and audible signal being given by the driver of the overtaking vehicle."

In other words, when the driver of an overtaking vehicle signals his intention to pass, stay in your proper lane of traffic and continue at the speed at which you are traveling. Above all, do not speed up.

#### In Leggets Sunday

Mrs. C. A. Harrison visited her mother, Mrs. Blanche Anderson, in Leggets Sunday.

### To The Voters Of Martin County:

I beg to advise that I filed as a candidate for the office of judge of the Recorders Court, for Martin County, at the request of many of my friends and county officers and for the further reason that I am willing to perform my share of the public duties, and if the people of this county wish to trust me to do the work I shall be glad to serve them, notwithstanding the fact that the office will not greatly help me financially. I can't afford, under the circumstances, to use my automobile traveling over the county in an active campaign and I wish the people to understand that I will greatly appreciate their confidence if they wish to trust me. I do not appreciate those who try to buy the support of their constituency. The people of Martin County are intelligent and I trust their good judgment in making choice.

Sincerely,

J. C. SMITH

April 5th, 1942.

The U. S. Employment Service is working on plans for handling the recruiting of women for farm work in areas where the usual labor supply may be short this year.

ADMINISTRATOR'S NOTICE  
Having qualified as administrator of the estate of Julius D. Hardison, late of Martin County, North Carolina, this is to notify all persons hav-

ing claims against the estate of said deceased to exhibit them to undersigned on or before May 2, 1943, or this notice will be pleaded in bar of their recovery. All persons indebted to said estate will please make immediate payment.  
This the 2nd day of May, 1942.  
D. V. CLAYTON,  
Administrator of Estate of Julius D. Hardison.

## HAIL Insurance

BE SURE—INSURE

Your Tobacco against the ravages of Hail!

You may suffer a destructive Hail storm this year.

The cost of this protection is very little compared with the benefits should hail strike — SEE ME TODAY!

## H. P. MOBLEY

### Have You Insured Your Crops Against Hail?

If not, you should waste no time in doing so, for Hail Storms often come up unexpectedly, and can do untold damage to your young crops.

## Pitt County Boards Indorse MARVIN K. BLOUNT For Congress

We, the undersigned members of the Board of Aldermen and Mayor of the City of Greenville, North Carolina, take pleasure in indorsing and recommending to the voters of the First Congressional District the candidacy of Honorable MARVIN K. BLOUNT for the United States House of Representatives.

We have known him for many years, and, from our close association with him as Mayor of Greenville for two terms and our knowledge of his record of achievement, we know he is qualified and highly competent to fill the office he seeks. He is a recognized leader, not only in his own County of Pitt, but throughout North Carolina.

Under his administration as Mayor, a progressive program was put into effect, which received favorable recognition over the entire State. Many improvements were made and with no increase in the already reasonable tax rate.

We, therefore, indorse his candidacy, knowing that if he is elected, he will represent the people of the First District in a manner which will reflect credit upon the State of North Carolina.

Signed:

J. A. Watson M. B. Massey D. A. Evans  
L. B. Fleming Berry Bostic A. E. Hobgood  
L. N. Buchanan J. A. Collins B. B. Sugg, Mayor  
N. O. Van Nortwick, Jr.

We, the undersigned, Mayor, Town Manager and Commissioners of the Town of Bethel, North Carolina, have known Honorable MARVIN K. BLOUNT for many years. He was born and reared in Bethel, and for a number of years has served as Attorney for the Town of Bethel.

We have observed with interest his record of service and achievement in the State Senate, as Mayor of Greenville, as a business man, farmer and citizen. He is qualified in every respect to represent the people of the First Congressional District in a manner that will command the confidence of the entire District.

Signed:

Lewis Ayres, Mayor J. B. Bunting C. G. Garrington, M. D.  
S. C. Ives L. M. James F. L. Blount  
S. L. Johnson, Town Manager
