### Band In Its Last Concert Of Season

Director Jack Butler and his band appeared in their last concert of the season last Sunday afternoon when they offered a very entertaining program on the high school lawn for a large and appreciative audience.

Taking the band master's stand for a few minutes, Principal D. N. Hix expressed his appreciation and that of the school and others to Mr. Butler for his able and efficient work so willingly handled during his two years as director of the youthful but very promising musicians. It is hoped that the work can be carried on, and the pupils, band mothers and others are looking forward to the professor's return after peace is restored. As a token of appreciation, the band mothers gave Director Butler a billfold with a green bill inside. Jimmy Leggett expressed the band members' appreciation for the cooperation and support extended by the public.

Professor Butler is leaving for a short visit with friends in Pender County before going to his home in Canadagua, New York. From there he will enter the Naval Reserve. Last evening the band enjoyed a picnic supper in the school park.

### Anti-Typhoid Drive Is Short Of Its Goal

Virtually concluded last week, the drive against typhoid fever in this county fell short of its goal, the health department announcing that only 5,637 persons took advantage of the free immunization.

Appointments will be kept at the regular clinics in Jamesville each Monday, Robersonville on Wednesdays, Oak City on Friday and Williamston each Saturday. Commenting on the drive, Dr. John Williams said that the department would reopen the clinics in any community where there was a sufficiently large number of persons interested in taking the "shots."

Following is a review of the anti-typhoid drive in the county:

### Settle Politics For Next Two Years

Casting a much larger vote than was predicted by many, Martin County voters settled their politics for another two years and immediately turned their attention back to war, business—and the weather.

The figures stand for themselves with Clarence Griffin winning over W. Iverson Skinner for representative by a vote of 2,000 to 1,112; J. Calvin Smith over S. Harcom Grimes for county judge by a vote of 1,735 to 1,278; Bonner over Blount and Edwards for member of congress, and Fountain over Bailey for the U. S. Senate by a vote of 1,803 to 1,041.

The congressional district vote in this county was in line with that cast in the other thirteen counties, but the Senate vote in this county stood almost alone in the State. Only three other counties joined Martin in supporting Fountain or opposing Bailey, according to incomplete returns. Approximately 1,700 of the 1,919 precincts in the State gave Bailey 192,577, and Fountain 90,031. Bailey has expressed his appreciation-Fountain, commenting on the returns, say they speak for themselves, that it is apparent that the common workers were away from home and that farmers did not go to the polls. The vote itself, observers say, is a large one for the opposition.

### County Authorities Hold Their Regular Meeting On Monday

(Continued from page one)

while some other items were decreased.

Rev. John L. Goff, of Williamston and E. H. Ange, of Jamesville, were appointed to the county library board—without pay.

The county commissioners contracted with Greathouse and Butler, certified public accountants, for the annual county audit, the contract carrying a \$350 fee.

Troubled for weeks with indefinite plans for handling the WPA canning project for the public school lunches, the commissioners finally washed their hands by appropriating \$200 for the project and cancelling plans calling for the construction of a regular cannery on the county home property. The project, for the most part, will be centered in the grammar school building in Williamston.

Tax relief orders were granted the following:

F. A. Elks on property listed in error in Goose Nest Township.

W. F. Bellflower Estate, settled in Goose Nest Township.

C and W Motor Co., Robersonville, execution sale, no property.

A. J. Earley, Robersonville, moved to Virginia.

Larry Wade, Williamston, moved from state.

Donald Byrd, Williamston, listed in error.

J. G. Simpson, Jamesville, deceased, left no property.

### Salvage Huts Are Being Constructed

### Number Of Draftees Are Returning To The County

Reporting at a United States Army induction center recently, a large number of county draftees have already returned to their homes, ruled unfit for military service. No official report has been received but at least nine of the men reporting recently had been rejected and returned home by last Saturday.

A fairly sizable number of white selectees are on the eve of their departure from this county for an Army induction center.

### With The Patients In The Local Hospital

Mr. Dave Daniel, undergoing treatment in the Brown Community hospital here for several weeks, is able to be out. He is attending church today, but plans to return to the hospital for continued treatment during the next few days.

Mrs. O. S. Green, of Williams Township, recently entered the hospital. Mr. Green was discharged from the hospital about a week ago after undergoing treatment.

Pete Hardison, of Farm Life, is getting along very well today after undergoing an operation for appendicitis yesterday.

### THE RECORD SPEAKS . . .

Biding its time patiently for almost five months, death struck on the highways of this county for the first time this year at an unusually late hour and in a slightly out-of-the-way place last Sunday. John Henry Teel, colored man, lost his life in a freak auto accident. A second person was hurt but not seriously a short time before to weaken the belief that tire and gas rationing are lowering the accident figures in this county. With the exception of a life and a mere few hundred dollars, the accident record last year is not much worse than the one that is being builded from week to week.

The following tabulations offer a comparison of the accident trend: first, by corresponding weeks in this year and last and for each year to the present time.

#### 22nd Week Comparison

On Wednesday night at 8:00 o'clock, there will be a meeting at The Enterprise office of all persons interested in having softball in Williamston this summer.

With many of the old players in the armed service and others having another year added to their already advanced years, different plans from last year will have to be made. With no baseball this year and since conditions make it imperative that we stay in town more than usual, prospects for a larger interest is anticipated. With a large attendance at the meeting plans can be formulated and playing get underway in the near future.
