

# Martin County Farmers

Are Asked To Raise  
Bumper Crops To Feed  
Allies, Our Civilians and  
Our Own Army

## WE HAVE A DUTY TO PERFORM

Your Country  
Needs

### SCRAP IRON

The least you can do for your county is to gather, and either sell or give away, every available piece of scrap iron on your farm or premises.

*It is your patriotic duty to do this little bit towards winning the war. Will you shirk your duty or let John do it?*

Let it not be said that a single person in this county failed to do anything that would hamper the war effort and build for a stronger nation, state and county. Be sure that you have done your all in keeping food and equipment in the hands of those who are ready to sacrifice their all in behalf of country and us.

### HELP SOLVE THE TIRE AND GAS PROBLEMS

By Selling and Buying on  
Martin County  
Markets

In this day of uncertainty, Martin County farmers can do much toward solving the knotty problems facing their country, and it is with great pride that we recognize the marked accomplishments traceable directly to the farmers of our county.

It is with much earnestness that we, as friends of every citizen in this county and as officials who are greatly interested in the welfare of all that we urge every Martin County farmer to patronize his home markets, and work for the fullness that a strong cooperative spirit will bring. We don't know whether there'll be enough tires and gas to transport produce to market another season or not, so it behooves the everyone of us to look ahead, tackle the problem now and be ready for any eventuality.

### KEEP UP THE GOOD WORK, COUNTY FARMERS

As commissioners of Martin County, it gives each of us much pride to recognize the strong cooperative spirit among our people for the advancement of the war effort. Scrap iron deliveries have been far above the average. Food crops have been augmented. Peanut plantings for oil have been materially increased, and other challenges have been met by our patriotic farmers and others. It is indeed a rare privilege to serve such a body politic, and as you labor to do your part and more, rest assured that the welfare of your county will receive our very best effort, that we, too, are trying to do our part and more.

The work is underway; we earnestly plead with every man, woman and child to keep it up, to keep on keeping on.
