

Margolis Brothers Make Alterations

The Margolis Brothers, Irving and Frank, are modernizing their store this week with the installation of modernistic partitions and equipment on the side of the store which serves the ladies. Using a formal scheme, Mr. Margolis is placing cabinets of the same size and design on each side of his store. These new racks will house dresses divided into teen-age, misses, etc. groups.

And at the rear of the store, cabinets specially designed for hats, purses and gloves, as well as sweaters and other merchandise, are now under construction.

The entire color scheme of the store is to be changed, too. Instead of using no definite colors, the store owners have hit upon a very delicate shade of pink that they'll use inside the cabinets, and maple wood on the outside.

This new arrangement will aid the customer, for anyone may walk to a particular rack, made selections, and have adequate room to do his buying.

The new dressing rooms are the novelty. The management has cleverly tucked them in behind cabinets in such a fashion that they are hardly detected.

Mr. and Mrs. Jack Hunter and daughters, Margaret Ann and Virginia, and Clyde Taylor are spending the week-end here with Mr. and Mrs. Joe Godard.

The 36th Week Of The War

(Continued from page one)

of England in 48 hours ending August 13. Air forces heavy bombers based in India and China continued destructive raids against the Japanese. The Navy announced the sinking of seven United Nations Merchantmen by enemy submarines, the lowest weekly number of such sinkings announced in the past sixteen weeks.

Rationing

Sugar ration stamp number 8 will be good for five pounds of sugar in the ten-week period beginning August 23 and ending October 31, the Office of Price Administration announced. While not changing the basic ration of one-half pound per person per week, it will enable consumers to make purchases in larger units and facilitate the disposal of 5, 10 and 25-pound packages.

Price Administrator Henderson and Petroleum Coordinator Ickes announced jointly that fuel oil rationing on the East Coast may be unavoidable next winter. All Eastern motorists were told by the OPA to display their gasoline rationing stickers immediately, because "It is illegal for any service station attendant to sell gasoline to a vehicle unless the sticker corresponding to the type of book is conspicuously displayed on the car." The rationing regulations for new passenger automobiles were amended to make members of the U. S. armed forces eligible to purchase new cars upon proof that a car is needed for transport of duty or on official military transportation between residence and business where no military vehicle is available.

Farm Prices

Livestock price ceilings would require very complicated controls of marketing conditions, even to inspection at individual farms, Agriculture Secretary Wickard said. Such ceilings would benefit small packers, he stated, but would not increase supplies. If it becomes necessary, however, the Department of Agriculture will assist in working out a ceiling program, he said. Mr. Wickard reported the available meat supply, after deduction of Lend-Lease and Military requirements, would furnish four pounds more meat per person between now and June 1943 than the average per capita consumption from July 1931 through July 1940. The Agriculture Department estimated the number of cattle on feed for market in the cornbelt states on August 1 had dropped 19 per cent from the comparable figure a year ago, apparently because imposition of ceilings on beef prices caused feeders to deviate from their plans as reported in April this year.

Secretary Wickard said the corn supply is being used faster than corn is being produced, and next year, "unless we feed more wheat than usual," over 200 million more bushels of corn will be used than is being raised this year. There are still large stocks, however, in the national granary, he said.

Stabilization of Wages

The National War Labor Board granted an increase of 7 1/2 cents an hour to 61,000 workers in 40 New England and 11 Southern textile mills. The Board denied any wage increase, however, to 32,000 employees in 10 plants of the Aluminum Company of America and 900 workers in the Buffalo, New York plant of the American Magnesium Company because these workers "had received average hourly rate increases sufficient to compensate for the 15 per cent rise in the cost of living which had occurred between January 1, 1941, and May, 1942." The Navy, acting under orders from President Roosevelt, took over the strike-bound plant of the General Cable Company in Bayonne, N. J. The strike occurred at the plant, working exclusively on production of war materials, after the NWLB had refused a request for a general wage increase.

The Armed Forces

The Army announced an intensive recruiting campaign to enlist 100,000 skilled mechanics and technicians for service in the Army Air Forces, the Signal Corps and the Ordnance Department. All applicants must be male U. S. citizens between the ages of 18 and 44, inclusive, and all must obtain clearance from their selective service boards. The War Department said it will train dogs as sentries, messengers, pack dogs, airplane spotters and for other purposes. Dogs for defense, Inc., a private organization, will continue to act as the Army's procurement agency and the dogs will be trained at the Quartermaster Remount Depot at Front Royal, Va. The department announced a reorganization of its var-

badly hurt, the passengers and steamer crew were removed to a German supply ship and after a long and hectic trip were landed in France. About six months later the two men who had not been transferred from the German raider to the supply ship were interned in a German concentration camp.

According to an unofficial report the German raider, "Tamesis," was running the coast of Spain late in November when she was detected by a British man o' war. The British ship delivered an ultimatum to the raider, the Germans putting the two prisoners, Dr. Robert Starling and Francis Vicovaria, head of a volunteer group en route to the war area to drive Red Cross ambulances, in a life boat, and taking to the boats themselves after scuttling their ship. Dr. Starling and Vicovaria were rescued by a German submarine and carried to Germany and placed in a concentration camp.

More Tires Issued In County Thursday By Rationing Board

for farm. W. J. Holliday, RFD 1, Williamston, two trailer tires and tubes for farm.

Farmville-Woodward Lumber Co., two tractor tires and tubes for loading lumber.

Wheeler Latham, Williamston, four truck tires and tubes for farm.

Stanley Ayers, RFD 3, Williamston, two car tubes for farm.

Henry Brown, Williamston, one car tube for farm.

Clyde Modlin, RFD 1, Jamesville, two trailer tires for farm.

H. H. Hopkins, RFD 1, Williamston, one trailer tire and tube for farm.

Rejections

The following applications for recapped tires were rejected:

Oliver Allen Westbrook, Williamston, two recapped car tires for WPA work.

C. D. Taylor, Robersonville, three recapped car tires for tobacco auctioneer.

Commando Raids on Dieppe Said To Be Of Limited Success

(Continued from page one)

No detailed news has come out of Egypt during the past few days, but it is believed that something is brewing there. Changes in the command have been effected, the action possibly following as a result of the momentous conference of ranking officials in Moscow a few days ago. China is said to be very much in the fight, chalking up new and sweeping victories during the past two days.

President Roosevelt warned the barbarians in the conquered countries against a continuation of their atrocious acts, and declared that retribution was to be expected.

The Office of Civilian Defense will help recruit full time personnel for the Coast Guard temporary reserve for beach patrol and coastal lookout duty. The Navy said it will appoint retailers in designated trading areas to help carry out its plan for controlling the sale of ready-made uniforms to officers or chief petty officers, beginning October 15th.

Transportation

Mail deliveries and pick-ups face curtailment in many localities because of lack of men and the need to conserve trucks and tires, the Post Office Department announced. Definite curtailment plans were announced for Washington, D. C. and Detroit. The Office of Defense Transportation said local transport systems throughout the country will face the heaviest load in history by mid-September. The ODT prohibited railroads, effective September 15, from hauling refrigerator and box cars carrying civilian freight unless they are loaded to capacity.

Alleged Vagrant Is Carried Before the Court Last Monday

(Continued from page one)

defendant pay the court costs and remain of good behavior for two years. Mrs. Martha Ellis pleaded guilty in the case charging her with operating a car without a driver's license, and the court suspended judgment upon the payment of the court costs.

Pleading not guilty in the case charging him with resisting arrest and disorderly conduct, Jasper Page was adjudged guilty and sentenced to the roads for a term of six months.

Charged with an assault and disorderly conduct, Daniel Jones and Jasper Page were found not guilty.

Pleading guilty in the case charging him with disorderly conduct and resisting arrest, James Bell was sentenced to the roads for four months.

Said to have consumed several bottles of bay rum, Josh Pritchard pleaded guilty of being drunk and disorderly. He was sentenced to the roads for three months the court suspending the sentence upon the payment of the court costs and on condition that the defendant remain of good behavior and not get drunk for a year from date. The judgment also stipulated that should the defendant be found drunk during that time, the road sentence is to go into effect immediately.

In the case charging Harvey Bryant with non-support, the court ordered the defendant to pay \$4 a week for one year for the benefit of his children and reappear at the end of that time for further judgment. A four months road term was suspended on condition and upon the payment of the court costs.

Livestock Farmers Warned of Poisons

Johnson grass and Sudan grass are two of the best pasture plants for late-July and early August grazing, says Dr. A. O. Shaw, head of the State College Animal Industry Department. Yet, scores of North Carolina farmers will not allow either of the plants to be seeded on their farms.

Two of the principal reasons why farmers hesitate to grow these excellent pasture grasses are: Fear that the grasses will spread into their row crops, and, second, the knowledge that Johnson grass and Sudan grass are poisonous to livestock under certain conditions.

"It is true," said Dr. Shaw, "that Johnson grass, the sorghums, and Sudan grass contain varying amounts of prussic acid. But the normal growth of the plant must be checked by drought, frost, trampling or willing to free the prussic acid in sufficient quantity to kill livestock. Most of the cases of livestock losses from this cause have been confined to the western plain states, where long protracted droughts are common. Few cases have been reported in the South."

The State College animal husbandman further explained that the poisonous property is usually destroyed when Johnson grass and Sudan grass are thoroughly cured as hay or dry fodder. When these plants have been made into silage, they are entirely safe.

The livestock man said that the advantages of Johnson grass and Sudan grass many times overbalance their disadvantages.

August Meeting At Smithwick's Creek

The annual August meeting at the Smithwick's Creek church gets underway today, a representative of the membership announcing that quite a few visiting ministers, including Elder Johnson, of Four Oaks, are expected to attend and participate in the program. The meeting, scheduled to continue for three days, is to close Sunday.

Miss Melissa Carrawan, Mrs. Violet O'Neal, Mrs. Mary Brickhouse and Mrs. Blanche Brickhouse, of Swan Quarter, are the special guests of Mr. and Mrs. Dave Daniel during the meeting.

One Colored School Is Closed In The County

Starting the new term on August 13th, twelve of the thirteen schools in the main cotton-producing areas are continuing operations, it was announced by the office of the county superintendent this morning. The thirteenth one, Poplar Point, suspended operations when attendance figures dropped to a low point. While attendance figures are not very high in the twelve schools, they are considered high enough to justify continued operations.
