

### War As It Relates To Home Front Is Reviewed for Week

(Continued from page one) ishment values similar to the "red meats"—fruits, cereals, dry beans, soybeans, peas, peanuts, milk and cheese, poultry, fish, eggs and the like. Meat bones, included in the ration quota, will go more than ever to soup stocks and we'll be serving such things as kidneys, brains and heart—not on the ration list—more often. Farmers who slaughter their own meats and butchers who handle them are obligated to keep to the same rations as the rest of us.

**Inflation Fight Makes Big Gain** Rubber boots and work shoes now are being rationed to war workers and others who must have them, not by coupons but by certificates which eligible purchasers obtain from local rationing boards. Ordinary over-shoes, which can be made mainly of reclaimed rubber, aren't affected.

We made a big gain in our fight to keep down living costs when maximum prices were fixed for nearly all foods previously not under control. The only important foods—about one-tenth of the total—not now under price ceilings are fresh fruits and vegetables, fresh fish and peanuts. Rent control—a most important weapon against rising living costs—is being extended to the entire country, in addition to the 396 defense rental areas where rents already have been rolled back.

Automobiles and tires are among our big problems, whether in storage or in use. Owners of commercial vehicles who are allowed new tires for essential operations must take special care of them, have them checked every 5,000 miles or every 60 days.

And all drivers are expected to drive as little as possible, keep to the 35-mile maximum speed limit, be sure tires are properly inflated, share their cars with others. Used tires and tubes, which cannot be sold at present, soon will be rationed. . . Workers' suggestions for increasing our war output are being "ploughed back" into industry through 1,600 labor-management committees. Labor-management cooperation, already established in railway transportation, is being extended to the motor truck industry. . . Women workers, now heavily employed in the munitions industry, soon will make up two-thirds of the labor force in munitions plants. Four-fifths of all war jobs can be performed by women, next year we'll need another five million of them working in war and other employment. . . The letter "S" (for simplified) on work clothes means they are up to government standards—and under price control. . . Trainloads of "victory scrap" are rolling toward the steel mills, but there must be no letdown in the national scrap drive if steel production is not to lag. . . Pelts for felt hats are so scarce that there is a campaign to hunt wild rabbits for their fur. . . Home canning, storing or drying of fruits and vegetables will save labor and materials at the canning plants—another household contribution to the war program.

### Approximately Four Hundred Delegates Expected To Attend

(Continued from page one) C. Hough will also address the afternoon meeting which will also hear committee reports and special music by representatives from the Kennedy Home. Adjournment is scheduled for 3:50 o'clock.

Following the evening meal, the association will open its last session at 7 o'clock with a song service. Special music will be furnished by the Washington choir, and the program, planned by Miss Mary Lee Earnest and associates, will embrace timely topics relating to Christian Education, the B. T. U. and B. S. U.

All seventy-one churches are expected to have delegates present for the meeting here, Dr. Burrell stating that we are looking and preparing for them and that all indications point to a great assembly of the religious group. Commenting briefly on the size and activity of the associations, Dr. Burrell said, "All phases of Baptist work sponsored by the Baptist State Convention has been steadily increasing until the 17,000 church members in the Roanoke have given to all denominational objects around \$200,000 during the past year."

### Jurymen Drawn For The November Term Of Superior Court

(Continued from page one) Gurkin.

Bear Grass Township: T. M. Hopkins, Jasper Rogers, Jos. W. Harris and Garland W. Harris.

Williamston Township: N. B. Bland, Jos. G. Corey, Robert E. Edwards, Ira Rogers, Kelly Davenport and W. Harrell Everett.

Cross Roads Township: Joe Bland, Robersonville Township: J. R. Daniel and R. B. Nelson.

Goose Nest Township: C. T. Flanagan and Clarence Hardy.

### Two Suffer Broken Legs In Accident Saturday Evening

(Continued from page one)

one head light. The head light was on the motorcycle. No head-on collision resulted, but the vehicles side-swiped one another, catching the left legs of Mizelle, the driver, and Latham between the car and the two-wheeled vehicle.

Hines was arrested and jailed and is being held until a hearing is held or until bond can be arranged.

Damage to the two vehicles was estimated at \$100.

No one was hurt and no great damage resulted last Sunday morning

### THE RECORD SPEAKS . . .

Death broke through repeated safety appeals, regulations for decreased speeds and gas and tire rationing to claim another human life and threaten several others on the highways of this county last week. Two years ago, two lives were snuffed out on Martin County highways in the same corresponding week, and strangely enough, it has been years since motorists traveled through the month of October in this county without one being knocked into eternity. Some would say stay off the highways in October. That's hardly necessary, but everyone can exercise a greater care in October and the other eleven months, too.

The following tabulations offer a comparison of the accident trend: first, by corresponding weeks in this year and last and for each year to the present time.

41st Week Comparison			
Accidents Inj'd	Killed	Dam'ge	
1942	4	3	\$ 400
1941	3	2	1,000
Comparison To Date			
1942	57	35	\$ 7,908
1941	74	44	20,030

### Only Twenty-Eight Out Of Large Group Accepted Recently

(Continued from page one)

lie White, Clarence Burnett, William Daniel, Elbert Lee Whitmore, Geo. D. Bonds, Raymond Henderson, Ponce LeLeon Sykes, James Pierce, Oscar Mancefield Cherry, Thomas Watson, Bernes Fagan, John Thomas Young, Eddie Arthur Hardy, William Lankford Alexander, Samuel Austin Whitaker, William Thomas Moore, Leander Williams, Rander Jones, James Ollie Purvis, Columbus Brown, Columbus Dennis Collins, Clifton Elisha Gaynor, David Forrest, Robert Bell, David Thompson, Sam Howell, George Eli Locke, Harvey Bryant, Noah Thomas Bryant, Julius Ward, Willie D. Perry, William Brown, Frank Belcher, Henry Davis Clemmons, Matthew James Council, Rufus Moore and Alonza Whitaker.

Falling to report, Leahner Bennett, James Andres Moses, Jacob Cooper and William Henry Harris, are being reported delinquent to the Federal Bureau of Investigation.

At 9:45 o'clock when two cars, one driven by Mr. William Everett and the other by Roscoe Bunn, crashed near the Pitt-Martin boundary line on Highway 64 not so far from the scene where Bonnie Latham was fatally injured a few days before.

Bunn started to turn off the highway just as Mr. Everett was attempting to pass him. Patrolman W. E. Saunders, investigating the accident, estimated the damage to the two cars at \$200 including a ruined tire on the Everett car.

### Draft Board Defers County Registrants; Reclassifies Others

(Continued from page one)

City, 3-B.

Lawrence Lilly, w. RFD 1, Williamston, deferred until December 1.

Lester Latham Whitaker, w. RFD 1, Robersonville, deferred until December 1.

Stewart Harrell, w. NYA Center, Greenville, 1-A.

Edwin Earl Lilley, w. RFD 1, Jamesville, classification pending.

### Cruiser Sinkings In Solomons Stinging Blow To The Allies

(Continued from page one)

weight of the fighting had shifted during the Stalingrad lull, the high command reported new Russian successes. Earlier front dispatches said the Red army had seized the initiative on both wings of the Caucasus front above the Grozny oil fields and in the Black Sea region.

On the other fronts, the Allies are still advancing in New Guinea and are now within twelve miles of the strategic center of Kokoda.

There is much activity in the air over the Mediterranean and Egypt, the Allies blasting away at German supply bases while the Axis are pounding away at Malta. Late reports from the little Mediterranean island fortress state that the Axis have lost 24 planes and had 50 others damaged during recent fighting there.

American forces are pouring it into the Japs in and around the Solomons. The Marines, taking the offensive, have strengthened their positions on Guadalcanal Island, and two Jap cruisers were damaged and 15 planes were downed in recent fighting in that area. High naval authorities declare that the Allied forces can hold their positions in that area despite frantic efforts by the Japs to land reinforcements.

An Allied merchantship was reported sunk today off the west coast, presumably by a Jap submarine. Survivors have been landed.

Hitler today issued an ultimatum to Laval, warning him that all of France would be occupied if a greater collaboration is not forthcoming by the first of the year.

Munitions factories in Delaware and Maryland were ordered under control by the armed forces when wholesale bribery charges were lodged against the companies and certain citizens.

Speaking to the nation last night, President Roosevelt stressed the need for lowering the draft age to 18 years, and hinted that local communities would work out their manpower problems or a manpower draft could be expected.

### Bear Grass Quartet To Give Benefit Program

The Bear Grass quartet will appear in a benefit program on Friday evening of this week at 8:30 o'clock in the Bear Grass school auditorium, it was announced. Proceeds from a small admission charge will be used for the construction of a new airplane observation post there.

### Leslie T. Fowden Enters Hospital For Treatment

Mr. Leslie T. Fowden, recently retired local postmaster, entered a Richmond hospital Sunday for treatment. Making the trip in a Biggs ambulance, he was accompanied by his son, Pete Fowden, and Mr. J. Paul Simpson. Late reports state that he is getting along very well.

### Care Should Be Taken In Storing Tractor for Winter

Proper steps should be taken in storing a tractor for the winter. If the tractor is equipped with rubber tires, block it up so the tires carry no weight. It is best to keep the machine under cover so the tires will not be exposed to the sun. Also see that there is no oil or grease on the tires. Start the tractor every week or so and allow it to idle until the engine is warm. This will coat all engine parts, particularly the cylinder walls, with fresh hot oil and will prevent rust due to moisture condensation. The storage battery should be kept fully charged.

Irving Daniel Gurganus, w. RFD 1, Williamston, deferred until Dec. 1.

Robert Lee Everett, w. RFD 1, Robersonville, classification pending.

James Alexander Everett, c. Jamesville, classification pending.

Paul Chester Edmondson, Jr., w. Hassell, deferred until January 1.

William Edmund Early, Jr., w. Oak City, 1-A.

### Legion To Maintain Recruiting Station

Cooperating with the government in every way possible and forming one of many units handled by the American Legion, the John Walton Hassell Post will open shortly a Navy recruiting station in the hut on Watts Street. The establishment of the station was unanimously approved at a regular meeting of about 65 post members here last evening when Chef John A. Ward served the group 120 squirrels and several chickens.

"We are planning to keep a recruiting officer at the hut during regularly scheduled hours," Post Commander John D. Biggs said, adding that any young man wishing to join the Navy could report to the hut or see him personally. This county has been assigned a quota of six recruits to be met by October 27th.

Young men, subject to immediate call to the Army, are invited to contact the recruiting station and discuss their plans.

Reporting on the post membership drive, the commander stated that more than 100 veterans had joined during the past few weeks.

Dalton Edward Carroway, w. RFD 3, Williamston, 1-A.

Roy Stator Hardison, w. RFD 1, Williamston, 1-A.

John Walton Corey, w. RFD 1, Williamston, classification pending.

Noah Rhodes Hardison, w. RFD 1, Williamston, classification pending.
