

## Interesting Bits Of Business In U. S.

The cost of living in the United States jumped one-half of one per cent in September over August levels, according to the National Indus-

trial Conference Board. War is gradually cutting into one of the country's biggest hobbies, photography, with Eastman Kodak Company rationing some photographic film supplies for civilians. Net sales of General Electric Company for the first nine months increased 38 per cent over the same period in 1941, but net profit dropped from \$37,471,608 to \$30,710,499, while fed-

## War Insurance Is Made Available At A Very Low Charge

War damage insurance to protect you against financial ruin in the event of enemy attack has been made available to you, at a reasonable cost, by the War Damage Corporation, an agency of the United States Government. Ordinary business prudence would seem to demand that you give careful consideration to this type of emergency protection in order to determine whether or not you can afford to gamble with your own financial solvency by being without it.

On December 13, 1941, following this country's declarations of war, the Federal Government, through the Reconstruction Finance Corporation, announced the establishment of a one hundred million dollar war damage fund to meet the immediate demands for this kind of protection which arose throughout the United States and possessions following Pearl Harbor. Subsequently this fund was increased to one billion dollars, the sole purpose being to provide temporary war damage protection for everyone, pending the time that a permanent system of war damage insurance could be put into operation.

Fire insurance policies never have included protection against loss caused by invasion or military power and it was rather generally felt that it would be unsound for private insurance carriers to undertake to furnish protection against these war-time perils. The reserves of private insurance carriers have been built up over a great many years to guarantee the security of the protection these companies have sold.

eral taxes rose from \$82,000,000 to \$139,000,000.

## Relief At Last For Your Cough

Creomulsion relieves promptly because it goes right to the seat of the trouble to help loosen and expel germ laden phlegm, and aid nature to soothe and heal raw, tender, inflamed bronchial mucous membranes. Tell your druggist to sell you a bottle of Creomulsion with the understanding you must like the way it quickly allays the cough or you are to have your money back.

**CREOMULSION**  
for Coughs, Chest Colds, Bronchitis

## BEHIND THE GUN

To expose these reserves to the catastrophic losses which might result from invasion or bombardment might make these insurance carriers unable to meet their obligations to their millions of policyholders throughout the nation, thereby undermining our entire credit structure at a time when a strong system of credit was most necessary. On the other hand, policyholders who were relying upon private insurance carriers for financial protection against war damage losses might conceivably face financial ruin should such losses prove too great for private insurance carriers to bear. These were several of the reasons prompting our Government to provide protection against these perils which present such great catastrophe possibilities.

Accordingly, there was created by an act of Congress the War Damage Corporation with a capital of one billion dollars and with authority to provide protection against direct physical loss of or damage to described property "which may result from enemy attack including any action taken by the military, naval or air forces of the United States in resisting enemy attack." The free insurance which had been furnished by the Government ceased at midnight of the last day of June, and the War Damage Corporation began operations on July 1, 1942.

The purchase of war damage insurance is not compulsory. It is offered by the War Damage Corporation through the established facilities of the fire insurance business which has cooperated closely with the Government in all of the details involved in planning for this venture. The fire insurance industry is performing these services as a contribution to the war effort and there

## Things To Watch For In The Future

A hinged bottle cap that can be removed with the bare fingers. . . . Pen and pencil clips made of plastics. . . . A new material with a cellulose acetate base, which may be used to replace tin in collapsible tubes. . . . A new mattress which has no inner springs and doesn't use critical materials. . . . Quick-frozen spaghetti.

### Stronger

The over-all demand for farm products in 1943 will be even stronger than in 1942, predicts the Bureau of Agriculture Economics of the U. S. Department of Agriculture.

is no profit to anyone writing this form of insurance, it being intended that the allowances granted to those engaged in merchandising war damage insurance will be sufficient only to cover out-of-pocket expenses. Thus war damage insurance is not a profit-making venture. It is nothing more or less than a sound business proposition offered to owners of real and personal property at a reasonable cost.

It is believed that every property-owner will wish to consider these new hazards with which he is faced as a result of present world-wide conflict, and whether or not he decides to purchase war damage insurance, he at least should be familiar with the details of this plan which is designed for his protection. An inquiry of any established agent will bring complete information without obligation of any kind.

## NOTICE of TOWN TAX SALES

I, L. U. James, tax collector for the town of Williamston, County of Martin, State of North Carolina, have this day levied on the following tracts of land, and will sell same at public auction, for cash, at the courthouse door in Williamston, North Carolina, on Monday, November 9th, 1942, at 12 o'clock noon, for taxes due and unpaid for the year, 1941, unless said taxes, penalty and costs are paid on or before that date. A charge of \$5.00 to care for costs in handling the sale plus interest are to be added to each of the amounts shown.

This the 7th day of October, 1942.  
L. U. JAMES, Tax Collector,  
Town of Williamston.
