A weak Stomach, means weak Stomach nerves always. And this is also true of the Heart and Kidneys. It's a pity that sick ones continue to drug the stomach or stimulate the heart and kidneys. The weak nerves, not the organs themselves, need this help. This explains why Dr. Shoop's Restorative has, and is promptly helping so many sick ones. It goes direct to the cause of these diseases. Test this vital truth, and see. Griffin's Drug Store.

About eighteen months ago I had grown so much worse that I could not digest a crust of corn bread and could not retain anything on my stomach. PAIN

Pain in the head—pain anywhere, has its cause. Pain is congestion, pain is blood pressure—nothing else usually. At least, so says Dr. Shoop, and to prove it he has created a little pink tablet. That tablet—called Dr. Shoop's Headache Tablet—coaxes blood pressure away from pain centers. Its effect is charming, pleasingly delightful. Gently, though safely, it surely equalizes the blood circulation. If you have a headache, it's blood pressure. If it's painful periods with women, same cause. If you are sleepless, restless, nervous, it's blood congestion—blood pressure. That surely is a certainty, for Dr. Shoop's Headache Tablets stop it in 20 minutes, and the tablets simply distribute the unnatural blood pressure. Bruise your finger, and doesn't it get red, and swell, and pain you? Of course it does. It's congestion, blood pressure. You'll find it where pain is—always. It's simply Common Sense. We sell at 25 cents, and cheerfully recommend

Directing Folks in Boston.

The stranger had been searching nearly half an hour among the mysterious curving ways of the park for Fenway street. At last the trim figure of a hurrying student attracted her eye, and she resolved to ask for the necessary information.

"Can you tell me, please, where Fenway street is?" she asked.

"Yes, indeed," answered the student. "Why, we're in it now."

"Yes?" The stranger looked rather helplessly around at the wealth of shrubbery, the smooth roads that seemed to lead only to Mrs. Gardner's green roofed palace. "But I wanted to find a certain number on Fenway street."

"Oh!" said the student, a helpless expression for a moment clouding her face.

"Do you know, there's a street down there." She pointed a daintily gloved hand straight into a clump of elms. "I don't know the name of it. I never did know that it had a name. Why don't you try that one?"—Boston Herald.

Pretty Strong Lungs.

In "Through Luzon on Highways and Byways" the author, a naval officer, tells this expansive story. We vouch for the story only, not for the facts:

While traversing this attractive country, which offers so much to tempt the husbandman, we met with no sign of life until nearing a village, where could be seen native hunters after deer and carabao. The carabao furnishes a fine quality of meat and has a peculiar, instinctive trait in being the only denizen of the forest that can protect it-

self against the boa constrictors, which are somewhat numerous in these parts. When the carabao is pounced upon by the boa and the reptile has wrapped itself round the body for the squeezing process of killing the animal, the carabao slowly draws in its sides until the boa has his grip fixed securely and begins to tighten up; when suddenly the carabao inflates his lungs to their fullest and spreads his sides, tearing the vertebrae of the reptile into a thousand pieces.

How Tea Lead is Made.

Tea lead for lining tea chests is superior at least from the standpoint of cheapness to any other metal. According to an article in the Brass World, the method practiced by the Chinese in the manufacture of tea lead is to press molten lead between two flat stones. The excess of lead is melted in an iron kettle by a direct fire underneath. Rice paper is carefully smoothed down over the surface of the stones to supply a nonconductor of heat and thus prevent the chilling of the lead. The stones are now placed flat upon the ground and the upper one raised a short distance, with one edge resting

upon the lower stone. In other words, the stones are opened like a book. A ladle full of melted lead is now poured in between the stones, and the top one is quickly dropped. The lead is squeezed out until only a thin layer is left. Tea lead usually runs from .005 to .10 inch in thickness.

An Untamed Marquis.

The father of the Marquis of Bute had an amusing experience in the neighborhood of Rothesay. He met a cockney traveler who asked to be directed to a certain place. Deceived by the marquis's accent, the visitor took him for a southron and took occasion to make supercilious remarks about the barbarous islanders of Bute. He said, "Blime me, I suppose you're like me, an Englishman?"

"No," responded the marquis; "I'm a native of Bute, this island." "Good gracious!" exclaimed the Londoner, in amazement. "Then who in the dooce tamed yer?" Lord Bute assumed a fierce expression and, raising a ponderous cudgel he was carrying, said angrily, "Who says I'm tame?" The alarmed cockney turned and fled.—Pall Mall Gazette.

Two Cures For the Blues.

"What do you do when you have the blues?" asked the first woman. "I walk up Fifth avenue and look in all the jewelers' windows and at the orchids and high priced hats. What do you do?" "I go way down to Rivington street and look at the wretched poor women with seventeen children struggling in the dirt. That makes me thankful my affairs are no worse."—New York Press.

USING

Rexall "93" Hair Tonic

THOS. J. BROOKS

THOS. J. BROOKS

LOUISVILLE, Ky., May 24, 1905.

Gentlemen:

Allow me to say a word endorsing the remarkable merits of your Rexall "93" Hair Tonic.

My attention was called to this remedy by one of your clerks, who guaranteed beyond question it would stop my hair falling out, and also put my scalp in healthy condition for new hair.

I hand you photograph before starting to use it, which shows me to be nearly bald. After using two bottles I saw decided improvement, so continued its use. I have used seven 50-

cent bottles, and have a heavier suit of hair than I ever had in my life.

I also enclose photograph taken a few weeks ago, showing the wonderful results in a short time.

I take great pleasure in making this statement to you, gentlemen, endorsing your great Rexall "93" Hair Tonic, and will answer promptly all inquiries regarding it.

I am at present special agent of the Western and Southern Insurance Company, 21-22 Courier-Journal Office Building, this city.

Very respectfully,

Thos. J. Brooks

This is a remarkable case—an exception to the rule. We do not promise that "93" will grow hair on every bald head—but we do guarantee, because we know, that it will stop falling hair, cure dandruff, and give satisfaction to anyone needing a hair dressing. If it doesn't, bring back the bottle, and we'll refund the 50 cents you pay for it.
