IS YELLOW POISON
in your blood? Physicians call it malarial germ. It can be seen changing red blood yellow under microscope. It works day and night. First, it turns your complexion yellow. Chilly, aching sensations creep down your backbones. You feel weak and worthless.
ROBERTS' CHILL TONIC
will stop the trouble now. It enters the blood at once and drives out the yellow poison. If neglected and when Chills, Fevers, Night-Sweats and a general break-down come later on, Roberts' Tonic will cure you then—but why wait? Prevent future sickness. The manufacturers know all about this yellow poison and have perfected Roberts' Tonic to drive it out, nourish your system, restore appetite, purify the blood, prevent and cure Chills, Fevers and Malaria. It has cured thousands—it will cure you, or your money back. This is fair. Try it. Price, 25 cents. For sale by

We predict for him great success in his chosen profession.

Dead
The many friends of Mr. William Henry Williams will be pained to learn of his death which occurred at his home near Town Creek at 3 o'clock Tuesday morning. Monday night he ate supper with his family and was apparently as well as usual, but soon afterward was taken with a violent pain from which he died. He had for a long time suffered with heart trouble and it is thought that caused his death. He leaves a wife and four sons to mourn his loss. To the bereaved ones we extend heartfelt sympathy.

A Drawback
Pete—Say Tom.
Tom—What is it Pete?
Pete—I saw some boys in bathing at Wix's pond the other day. One boy was tired of bathing and got out of the water and those in the water caught him and pulled him back.
Tom—Well, what of that? That's nothing.
Pete—Yet it is. It's just awful.
Tom—Why is it?
Pete—Well, you know that was a great drawback to the progress of humanity.—Ls.
