Will Tell Business Men How to Get Packing House

Man From Town In Cotton Belt Where Packing House Is In Successful Operation Speaks Tonight At Courthouse

WILL DEAL ONLY WITH FACTS

No Subscriptions Taken At This Time And None Wanted Until Business Men Have Learned Facts And Considered Them

At the courthouse at eight o'clock tonight and under the auspices of the Chamber of Commerce Mr. John W. Greer of Moultrie, Georgia, will tell the business men of this city and all others who may wish to hear him, how a city in the cotton belt may get a packing house and what such an establishment will do for a city and its territory.

Mr. Greer is well qualified to speak on this subject because Moultrie is in the cotton belt and a successful packing house is in operation there. He is not only well acquainted with what the packing house has done for Moultrie and for Georgia, but he knows also what it has done for the middle west. He will put the facts before his hearers to night and will tell them just what will have to be done to get a packing house here.

Mr. Greer comes to Elizabeth City at the invitation of the Chamber of Commerce and without any other object than that of giving the people here, interested in this subject but without a definite idea of how to make their interest count, the benefit of his experience and his knowledge and his study along this line. He is not a packing house promoter and no effort will be made at the meeting tonight to secure subscriptions. "No subscriptions will be taken at this time," says President Gaither, and none are wanted until Elizabeth City's business men are given the facts. To give them the facts is the one object of this meeting tonight. When they have got the facts and have had time to consider them, they may act as they see fit.

"A packing house," says Mr. Greer "as everybody knows, is an establishment that buys the farmers hogs and cattle, slaughters them and converts the meat into marketable products. Armour and Swifts are the two big and well known packing house establishments in this country."

"At the meeting tonight, Mr. Greer continued "I will try to tell your business men what a packing house will cost, how to get the money and then what it will take to keep it in successful operation."

President Gaither urges every member of the Chamber of Commerce to be sure to attend this meeting. The business men of the town are especially invited to attend. The meeting will be held in the courthouse and will be open to all who are interested. And what Mr. Greer will have to say will no doubt be intensely interesting to a very large number of Elizabeth City citizens.

FRENCH INFANTRY HAS THE PEP

RECENT CAPTURE OF SAILLY SAILLISEL AN EXAMPLE OF POWER OF THEIR DASH

By HENRY WOOD

(United Press Staff Correspondent)
With French Armies advancing on Bapaume Wood, Oct. 20—Since Wednesday night the Germans have been making terrific counter attack against the village of Sully-Saillisel conquered by the French in a brief but violent battle a few hours earlier.

The fury of the German counters is evidence of the importance they attribute to this position. By its capture the French have removed one of the strongest defenses south east of Bapaume and one which German prisoners had repeatedly boasted was unbreakable. At the same time by the capture of this village the French have widened the breach in the German lines to a depth of more than eleven miles and have extended to French possession of the Peronne-Bapaume highway by four and a half miles.

The quick capture of Sully-Saillisel is a striking example of the power of the dash of the French infantry.

Late dispatches from Berlin received this afternoon claim that the British gains of Wednesday along the Somme have been virtually recovered by German counters. Three British "Tanks" were destroyed in Thursday's fighting.

AGAIN SPEAKS TO LARGE CROWD

WILL CONDUCT SPECIAL SERVICE FOR YOUNG PEOPLE SATURDAY AFTERNOON

Dr. C. S. Blackwell at the Riverside Chapel last night spoke to a large crowd on "Man's Wounded God" based upon Is. 53 "Wounded for our transgressions and bruised for our iniquities." Redemption! He said in part:

The crucifixion of Jesus has always seemed foolish to the unredeemed man and a stumbling block to the Jews. It is like a puzzle and cannot be seen at first, but when Jesus is once found, nothing else can be seen. After a while, however unless care is exercised, the word loses its meaning. It is the task of the preacher to make the redeeming blood of Jesus tangible to the mind. It is not to be explained by logic, but rather by love, with parallel, likeness and illustration.

Dr. Blackwell gave an illustration of a child that had been kidnapped and the kidnapers had agreed to return him to his parents for a big ransom. The money was furnished as directed and the child returned to his parents, who with numerous friends, shouted for joy. The little fellow could not understand the excitement and expressed surprise that they thought he had been in danger, as he was treated nicely by his kidnapers. Thus it is with sinners. They do not know when the devil has them.

Dr. Blackwell offered a number of illustrations in which the point of ingratitude for things that are done for us, and showed how sin has the fatal power of making us ingrates and stated that the heart of gentility is gratitude.

He told of a fond mother, who finally succeeded in getting permission to follow her vile boy to prison. She might be near him and make him as comfortable as possible while he was serving his sentence. She would work and save everything possible and fix extra things for him to eat. He in his ingratitude would strike her hands through the bars, spit upon her and revile her every time that she got near him.

Another striking example was his own observations of the action of a young lad in a girls school in this State who scorned and refused to notice her old hayseed of a father who had worked and scraped to keep her in school for four years and had come against her wishes, to see her graduate, because he was proud of his daughter ungrateful as she showed herself to be.

These illustrations, as revolting as the incidents may be, cannot be compared to the ingratitude of the sinner, who received day after day, the many blessings of life, food, clothes, friends, everything, that God has given, without a sign of gratitude. In addition, he gave His Son to die for sinners, who show their appreciation not only by refusing to draw a single breath of gratitude, but also by taking that name in vain.

At the close of the sermon one came out professing conversion and made public confession of Christ.

Dr. Blackwell will speak tonight. He will conduct a service for girls and boys on Saturday afternoon at three o'clock. He will also preach Saturday night.

SPECIAL SERMON JR. O. U. A. M.

On Sunday night the Junior O. U. A. M. will attend in a body a special service in their honor at the First Baptist Church. Dr. Henning will preach on "Christian Patriotism." The members of the order will occupy the central row of pews especially reserved for them. All are welcome.

VILLA CONTROLS PART OF STATE

DE FACTO GOVERNMENT ADMITS WESTERN AND SOUTHERN CHIHUAHUA IN HANDS

(By United Press)

Washington, Oct. 20—No further important relief of the troops along the Mexican border is contemplated by the War Department until after the report of the Mexican Peace Commission has been learned. If this report is satisfactory, the troops will probably return in a body, otherwise all will probably remain in definitely.

From El Paso today comes word that the De Facto Government admits the western and southern portions of the state of Chihuahua to be under the control of Francisco Villa. These admissions followed detailed news of the bandit chief's hold raid upon the town of San Andres Tuesday. San Andres is 25 miles to the westward of Chihuahua City.

Railroad To Sell Real Estate

Norfolk, Oct. 20—The management of the Norfolk Southern Railroad Company has recently decided to place on the market for sale all real estate owned by the Company that will not be needed in the future development of its property. The Company's future policy will be that of disposing of this property as promptly as it can be sold at a fair price and devote the proceeds to the betterment and improvement of the railroad. In some towns along the line of its road the company owns nearly every other lot.

The sale of the property has been placed in the hands of M. S. Hawkins, Assistant to President, Norfolk, Virginia.

Sheriff John Mitchell of Old Trap was in the city on business today.
