Canadian Troops Make Brilliant Trench Attack

Advance Characterized As One of Smoothest Bits Of Trench Taking Witnessed Since Somme Drive

By WILLIAM PHILIP SIMMS (United Press Staff Correspondent)

With Canadian Forces on Somme Front, Nov. 18.-Eight minutes of dashing across a sea of mud. or me thodeal advance in the face or parrage fire and of quick work in trench hand to hand fighting suffer ed the Canadians to take Regina

The advance has been character-Tyd as one of the smoothest bits ne trench taking witnessed in the mme drive. I saw Canadians mud dy to the eyebrows but grinning rfully the day after they had mplished this feat. The assault leated berely more than eight minutes and was executed in brilliant ht and in spite of a terrific German counter of barage fire and in spite of the sea of mud.

Every objective the Canadians sought were completely won and before dawn, completely re-organized they had 250 yards of connecting trenches. The night was perfect. The bombardment was speeded up until at midnight the artillery was voicing one continuous roar.

The British barrage fire began at fifty yars in front of the Canadian trenches. At midnight, as the men went over their parapets toward the German lines, the barrage of fire began to move forward toward Reg ina trench, he'd by the Prassians; with perfect precision. The Cana) dian wave of men followed closely and by assault took what remained of the Prussian guard.

Not a human voice was heard. The whole assault was made in perfect slience. Both in this respect and from every standpoint the action was a model of method and cooperation in all branches. number of Americans participated in the fighting.

The commanding general was nat arally proud of his men. They never wavered once and when they got to the enemy fought like bear cats
