WILL DISCUSS PACKING HOUSE

CHAMBER OF COMMERCE INVITES ADJACENT COUNTIES TO CO-OPERATE IN MOVEMENT

At the Southern Hotel on Thursday evening, November 23rd, The Chamber of Commerce will give a supper to representative men of the Albemarle section in an effort to get definitely under way a packing house movement in Elizabeth City.

There will be in the course of the supper an informal discussion of the practical problems with which packing has to deal.

"It is a significant fact" says secretary Push of the Chamber of Commerce, "that there are only eight packing plants in the South."

"What is probably the leading establishment of this sort is located at Moultrie, Georgia."

"This plant was erected and its equipment installed by the Brooks Engineering Company of Minneapolis, of which Mr. John W. Greer is secretary and treasurer."

"It will be remembered that Mr. Greer was here on Friday night Oct 20th, and informally discussed this question before a number of the city's representative citizens."

"Raleigh has made two attempts at corralling enthusiasm over a packing plant, and Henderson is taking the matter up. Norfolk is going after it strong."

"When it is conceded that Richmond is the nearest packing plant to this section and when it is further conceded that North Eastern North Carolina is unsurpassed in its adaptability to the raising of hogs, then a glance at the map, which shows Elizabeth City to be the industrial center of this section, should convince one that the packing house proposition is a feasible one. I believe that our people will be interested in the promotion of a co-operative packing plant which would guarantee a stable market for their hogs."

"Dr. F. D. Owen, who is at work in the counties of this section educating our people as to the prevention of hog cholera says that there can be no mistake in the establishment of such a plant as there is already pork enough in the making to support such a plant."

"There is no question, of course, that the establishment of such a plant would stimulate interest in livestock throughout the section."

"Mr. J. M. Barr, Ex President of the Seaboard Railroad, who has a farm of several thousand acres in Beaufort county and who is probably responsible for the attention which the packing house question has received in Raleigh has been interviewed by Mr. A. B. Houtz and will be one of the guests at the supper Thursday evening. Mr. Barr will have 1,000 hogs for market this year."

"The Chamber of Commerce is constantly at work upon similar matters which will tie together the interests of the people of the country and the town."

Among those attending Elizabeth City tonight for the purpose of taking part in the installation of Sedan Temple in that city on Wednesday, November 22, are Louis Selig, C. E. Thompson, C. H. Robinson, C. O. Robinson, Dr. J. B. Griggs, G. B. D. Pritchard, R. E. Lewis, C. A. Johnson and T. A. Commander. Mrs. Louis Selig, Mrs. C. E. Thompson, and Mrs. C. H. NOTED SPEAKERS AT CHAPEL HILL

LECTURERS OF NATIONAL AND INTERNATIONAL REPUTATION TO BE HEARD THERE

Chapel Hill, N. C., Nov. 21.—Within the next month several noted speakers come to Chapel Hill for lectures at the University and at least one important convention will be held here. On Wednesday night of this week the second series of lectures on "American Citizenship" will be begun by James A. Macdonald, editor of the Toronto (Canada) Globe. Prof. George B. McClellan of Princeton University delivered the first series last year. This lectureship is supported by funds given by heirs of Sol and Herman Weild of Goldsboro, and like the McNair series, has become one of the big events of the college year.

Mr. Macdonald will deliver three lectures on "The North American Idea." On Wednesday night he will discuss "The North American Idea in the American Republic." On Thursday "The North American Idea in the Canadian Dominion" will be his theme; in the last lecture he will consider "The North American Idea and America's Internationalism." Dr. Macdonald's fame as a lecturer both in his own country and the United States will make these lectures of national import, especially at this critical time in the nation's history.

The McNair Lectures, which come in February, will this year be delivered by Hugh Black, now of the Union Theological Seminary, but formerly of Edinburgh, Scotland. Besides being a famous writer Dr. Black is regarded as one of the two or three biggest preachers in the world. He has always drawn immense crowds in New York City since he began to make his home there. These lectures are concerned with problems of religion, philosophy and science. Dr. Black's subjects will be announced later.

The coming Newspaper Institute at the University, Dec. 7-9, is already being much discussed by the newspaper men of the state, and there are many indications that

STRIKE THREAT SEEMS AVERTED

THIS THE CONSTRUCTION FLAG ED ON REMARKS OF ONE OF BROTHERHOOD CHIEFS

(By United Press) Washington, Nov. 21.—A general railroad strike in January is not now regarded as probable. It is the general belief that the danger of such an eventuality has been averted.

This interpretation is placed on the remarks of Warren S. Stone, chief of the brotherhood of locomotive engineers, to the effect that the "question of a strike will be answered later."

Last week in New York leaders of the brotherhoods declared flatfootedly that there would be a strike if they didn't get a real 8 hour day. It is now believed that the brotherhoods will await the test of the constitutionality of the Adamson law.

The Brotherhoods are shrouding their movement in secrecy. Today the brotherhood chiefs at Baltimore addressed the convention of the American Federation of Labor — a move that portends co-operation between the brotherhoods and the federation in an effort to force acceptance of the general principle of the eight hour day by the strength of organized labor instead of by legislation.

Meantime the Department of Justice appears to be ready for the test of the constitutionality of the Adamson eight-hour measure, when the Union Pacific and the Santa Fe lines begin their injunction suits in Kansas City to restrain the enforcing of the law.

The decision is vital as upon it probably depends the question of whether the brotherhoods will ultimately resort to a strike to gain their end.

The investigation of the Newlands committee will be resumed on Thursday with testimony of the railroads.
