AMERICA NEXT IF ALLIES BEATEN

LORD NORTHCLIFFE INSISTS THAT GERMANY HAS DESIGNS ON SOUTH AMERICA

By LORD NORCLIFFE (Copyright by United Press)
London, Dec. 9.—As a personality Lloyd George is for many reasons interested in the United States.
He is one of the few British statesmen understanding the difficult and intangible psychology of American temperament.
He is important to America for another reason.
David Lloyd George is now the head of the five British nations engaged in war, and the winning of the war primarily devolves upon these nations.
If they and their allies are beaten it will undoubtedly be America's turn next, for Germany's plans in South America and Germany's hatred of the United States should be known to every American.
I believe Lloyd-George will win the war, bring about a settlement of the Irish question and maintain the essential factor of good will between the British empire and the people of the United States.

THIS WOULD SEEM WORTH INVESTIGATING

F. Lee Sheppy, 8th Floor, 243 W. 17th street, New York City, General Sales Manager of the largest concern of its kind in the world, wants three or four men in Pasquotank County and several men in adjoining Counties, to work for him spare time or all the time. He can use only those who have a rig or auto. Work is very pleasant and no previous selling experience is necessary. Work consists of leaving a wonderful new household necessity in the homes on free trial. Test at more than thirty of the leading Universities and the Government Bureau of Standards show this new article to be four times as efficient as the article now in general use in this section. Article is needed in every rural home and benefits every member of the household, bringing cheer, comfort and happiness into the home. Not necessary to be away from home nights. Pay from \$6.00 to 15.00 per day according to ability and number of homes visited. In writing Mr. Sheppy, mention what townships will be most convenient for you to work in; what your regular occupation is; your age; married or single; how long you have lived in the community; what kind of rig or auto you have; whether you wish to work spare time or steady; how much time you will have to devote to your work; when you can start; and about how many homes are within six miles of you in each direction. This is a splendid opportunity for several men in Pasquotank County and counties adjoining to make good money, working steady or spare time only. No investment or bond necessary. adv. dec 9 11 12

Some of the specimens were taken from a depth of 1,000 or 1,200 feet. The collection contains different kinds of clay, rocks, sand, shells, and petrified wood. To the student of Geology such objects tell a wonderful story about the changes through which Eastern North Carolina has passed in the course of a thousand years.

The specimens will be arranged according to their geological age, and the whole collection will be known as the Hathaway Collection.

E CITY PASTORS AT CONFERENCE

REV. J L CUNNINGIM DELIVERS ADDRESS ON THE WORK OF THE EPWORTH LEAGUE

Durham, N. C. December 9.—Rev. J. L. Cunniff, pastor of the First Methodist church of Elizabeth City, and former presiding elder of the Durham district, made the address at the anniversary of the Epworth League board at Memorial church Thursday evening.

C. B. Calbreth, chairman of the Epworth League board, presided over the Epworth League anniversary service.

"The Religious Development of the Local Congregation" was the subject of Mr. Cunniff's address. A subject which he said would be of interest to every one. He spoke specifically of the Epworth League then there would be some he realized who would turn away with lack of interest. Every one must be interested in how the most can be made of the churches with which they are connected.

Mr. Cunniff said that what he said of development was with the background of emphasis on evangelism and winning souls to Jesus Christ.

But, he asserted, the church has been paying far too little attention to development. He gave it as his belief that seventy-five per cent of the persons who have been brought into the church are doing nothing. It is a great deal easier to get persons to accept Christ, he said, than it is to get them to develop to do any work in the church. For going up and down the country he was disheartened at the pitiful inefficiency of persons.

"They are not growing, they are dying right under our eyes by the hundreds thousands," he said. "There is nothing sadder than the dwarfed life. The greatest joy of a parent is to watch the development of a child into a perfect life and no greater agony than for a parent to witness a dwarfed, undeveloped life." It is such a sight he added, that God is looking down on lives dwarfed and pitifully undeveloped. Development comes in one way through education and "it is vastly more important," said Mr. Cunniff to educate a child in religious life than it is in mathematics.

Mr. Cunniff suggested the method that is being followed more and more in Public education, the method of self expression as the best way to bring about development in local congregations and the way to save the persons who are drifting away from God's kingdom. This he recognized, is a big problem, a difficult problem. This law of self expression applies to worship and activities.

"And there is where the Epworth League comes in. The Sunday school has accomplished great things in instruction, but it has been too largely passive. He expressed it as his belief that the Sunday school will have to be reorganized. It has become autocratic.

The Epworth League came into being to give the young people something to do. "Whatever you may say of the practicability of the Epworth League," said Mr. Cunniff, "the Epworth idea has come stay."

"The church has got to take hold of the problem of amusement or entertainment of young people," said Mr. Cunniff. "You've got to educate through normal activity and the normal activity of the child is to decide how to develop and educate these play activities of the child."

NOTHING WARLIKE IS EXPECTED

THE STRONGEST STEP IN SUBMARINE SITUATION PROBABLY SHARP NOTE

Washington, Dec. 9.—"Nothing will happen", meaning nothing warlike, "in the submarine situation between the United States and Germany," is the statement made today by a prominent administration spokesman. The strongest step expected is a sharp note asking quick definition of the German pledges. It is believed too, that before taking any step toward a break with Germany the President would ask this country whether or not a break is wanted.
