ABOUT CASE TO PUBLIC

Was Too Nervous to Work Or Sleep And Hardly Able To Eat Before She Began Taking Tanlac.

FEELS SPLENDID AND LIFE A PLEASURE NOW

Wants Other To Benefit By Her Experience— Withheld Statement Until Rigid Test Completed

Mrs. C. Bozell, 612 East Clay Street, Richmond, Virginia, bookkeeper at a well known fruit and vegetable market, adds her voice to the hundreds who have already endorsed the Master Medicine, Tanlac.

Bozell. "I have overcome a case of nervous indigestion that had pulled me down to almost a complete physical wreck. I am now a well woman and life is a pleasure. I am glad to recommend Tanlac because it is worth recommending and I am telling the people of a medicine they can depend upon for results.

"For a long time, and on up to the time I began taking Tanlac, there was scarcely an hour day or night but what I suffered intense pains from indigestion. I had no appetite and no matter whether I ate or not these awful pains came in my stomach just the same. I would bloat very badly and at times my entire body seemed full of pain. I was so nervous I shook like a leaf and it was useless for me to lie down at night for sleep was next to impossible for me. Even the telephone ringing and other noises I have always been used to almost drove me to distraction. Many a time during the day I simply had to get up from my desk and walk around because I was so nervous I just could not sit there any longer. I felt so tired and worn out in the mornings I could hardly get to my work.

"I had suffered a long time before before I took Tanlac isn't it? It's a real pleasure to tell about Tanlac." Tanlac is sold in Elizabeth City at the money I paid for them away, for the Standard Drug Co. adv

if they did me any good I don't know it. When I saw Tanlac so highly recommended, so many people telling how it had helped them, I wondered if it was because Tanlac was so much better than other medicines that it did them so much good. So I decided to try Tanlac only because others said it helped them and not that I had any confidence in it. I did not doubt the people whose statements I read, but I was discouraged and just did not believe Tanlac would do me any good. I am telling this because I want everybody to know Tanlac has relieved me of the worst form of nervous indigestion even though I did not believe it would do me any good. I just began taking it because I was suffering so and it was something else to try. But the first bottle helped me more than all the other medicines I had taken put together. Then I bought five more bottles, have already taken three, and am going to take the balance, not because I feel the need of it, but to be on the safe side. I would not give my testimonial until I had taken three bottles because I did not want to make a hasty statement that might mislead other people, for I know what it means to be taking a medicine hoping to get well and then find that you are disappointed. But now I know what Tanlac has done for me and I gladly make this statement sincerely hoping that others who have not been able to find anything to relieve their suffering will be influenced by it to try the medicine that has done so much for me. All my friends and everybody who knows me, know how I suffered with nervous indigestion and everyone I can tell shall know about Tanlac. Now after I get through my work at the market I come home, cook and eat a hearty supper and thoroughly enjoy it. I do not have any more indigestion or gas pains and sleep just fine all night long.
