

Took 1500 Mile Tour At Cost Of Cent A Mile

Moyock High School Boys See Two State Capitals and Enjoy Two Weeks Automobile Touring in Virginia and N. C. at Cost, Including Grub and Lodging, of \$12 Each

A fifteen hundred mile tour of two states that took them from the sea to the mountains and back again at a total cost, including meals and lodging for the two weeks consumed in making the trip, of less than a cent a mile was the amazing experience of a party of Currituck County high school boys this month. T. B. Elliott, teacher of agriculture at Moyock High School, was in charge of the party, which consisted of the members of his class in agriculture at Moyock High. They left home on Monday, July 30, and got back on Saturday, August 11, and when Mr. Elliott had figured up the total expenses of the trip the cost to each boy in the party was a few cents less than \$12.

Attacks Theories Of Higher Critics

Rev. Thurston Price Would Face The Enemy In The Open He Says In An Address

Lake Junaluska, Aug. 29.—A man can be both an evolutionist and a Christian, but only when he is neither a strong Christian or a deeply convinced evolutionist, declared Rev. Thurston B. Price, evangelist, in a sermon this morning at the Bible and Evangelistic conference, with which the Southern Methodist Summer Assembly will come to a close next Sunday. "What will the Higher Critics do with Jesus Christ?" was Rev. Mr. Price's subject. He selected as his text the words of Pilate at the trial of Christ before his crucifixion.—Matthew 27: 22—"What Shall I do then with Jesus, who is called Christ?" There is today, the preacher said, a movement against Christianity called "higher criticism," which he declared could be much better named "destructive criticism." The Bible, he said, "will stand or fall a completed plan."

KLANSMAN BURIED BY ROBED BRETHREN

Pittsburgh, August 29.—Klansman Thomas E. Abbott, murdered in rioting last Saturday night at Carnegie, was buried here yesterday with hundreds of Klansmen present and ministers attired in full Klan regalia officiating. ed the salient or distinctive features of the particular breed of stock on that farm were pointed out and explained, and I believe that the value of the course that the boys are to take this year in animal husbandry will be greatly enhanced by the trip. "But the value of the trip, in my opinion, is not to be measured in terms of knowledge to be gained in any class room. This was the first time these Currituck youngsters had seen the mountains. Western North Carolina to them was everything beyond Raleigh, just as Eastern North Carolina to people in the mountains who have never been to the coast is everything beyond Winston-Salem. Now they know the true significance of 'The Land of the Sky,' and have gained a new respect for their own State.

Ten Counties Have Tested All Cows

Are Now Fully Protected Against Spreading Of Tuberculosis By Milk

Raleigh, Aug. 29.—The milk supply of ten counties in North Carolina is now fully protected against the spreading of the great white plague, tuberculosis, the cows of these counties all having been tested, released and passed by officials of the State Department of Agriculture, according to a report made public today by Dr. A. J. Fosset, inspector in charge of this work. Inspections have been completed in three other counties, he said, and these will be recommended for release this month. Fifteen other counties have made appropriations for carrying on this work in conjunction with the Agricultural Department and North Carolina State College and inspections are now going on in nearly all of them, he added.

"Our records show," Dr. DeFosset continued, "that less than two per cent of the cattle in North Carolina have tuberculosis at this time. This is in contrast to some of the states in the north, where from 21 to 40 per cent tuberculosis is common. I could go out in Vermont, where I was stationed previous to coming to North Carolina, and find more cattle infected with tuberculosis in one afternoon than we have found here in a month's time. "North Carolina is wise to begin in time to eradicate this dreaded disease. The people have shown wisdom by wanting the work carried on. They will profit by the experience of the northern states. Where we find tuberculosis cattle in North Carolina we can generally trace it to importations from some of the worst infected centers. For that reason those who buy cattle from other states should make sure that they are getting them from accredited herds. This will safeguard their purchases and also the cattle already on their farms."

Smith, commonwealth attorney of Cumberland County, who was a witness to the shooting and who was called as court witness in the trial of Robert Garrett today. The witness was grilled at length by the prosecution who attempted to break down his testimony and to show that his "power of observation was influenced consciously or unconsciously by fear that the Garrett brothers could make it very disagreeable for him in Cumberland County."

EDENTON TO HAVE NEW AUDITORIUM

Edenton, August 29.—The Edenton Auditorium Company stockholders met in special called meeting Monday evening and agreed to sell to S. W. Taylor the property on Main street, next to L. F. Ziegler's store, for the erection of a first class moving picture and dramatic theater, which will be complete within a year. Mr. Taylor, who has struggled with a show house on a side street and made good with it, sees the possibilities of a fine theater property on Main street, which was the purpose of the Edenton Auditorium Company. The company, being composed of local citizens, was not in favor of putting up a competitive amusement house and so the sale of the property to Mr. Taylor is a very happy solution of the matter. Edenton will get a fine opera house. Mr. Taylor will get a theater that will make him money and maintain his reputation of furnishing clean, up-to-date picture, and it will eliminate the one objectionable feature—two theaters killing one another by competition.
