Needs of Elizabeth City and the Albemarle

1. A hard surfaced road from Elizabeth City by South Mills and also through Currituck to Norfolk.
2. A hard surfaced highway not less than 16 feet wide connecting Elizabeth City with every county seat east of the Chowan River.
3. A bridge across the Chowan River, connecting Bertie and Chowan counties and making possible a real coastal highway through this section.
4. A direct road from Belersoon to Coinjock bringing all Currituck below Coinjock 10 miles nearer Elizabeth City and thus adding to the attractions of Point Harbor as a summer resort.
5. Conversion of the Old Fairgrounds just beyond the Elizabeth City hospital into a public park.
6. Ferry service between Point Harbor and Nags Head, connecting at Point Harbor with bus service to Elizabeth City.
7. A broader knowledge of public health among the people of this section.

It's off with the "old loves and on with the new," speaking of County officials.

The News and Observer has a mind of its own about the sort of man who should be appointed to the Federal bench in this district. But The Advance suspects that the News and Observer's opinion would weigh much in the sight of the Coolidge administration.

Democrats haven't decided to read Senator Wheeler out of the party yet, says news item. Judging from the slim showing he got in the last election, looks like he'd better keep all we can and then some. You remember that old joke told so often during the World War about the colored soldier who when asked if he knew why he was fighting, said, "Sho, boss, why to make the whole world safe for the Democratic party." If he was right then, the pessimists are right now that the war was fought in vain.

Washington Letter

WASHINGTON—The approaching departure of Jules Jusserand as ambassador from France has revived reminiscences of the old days when the strenuous T. R. and the doughty French diplomat set new high marks for athletic activity in the Washington official set.

Probably no other foreign diplomat ever was on such intimate terms with an American president as Jusserand was with Roosevelt.

They played tennis together on the White House courts. They spent hours on long cross-country hikes. At twenty times they talked natural history, literature and the comparative merits of boxing versus fencing.

Jusserand was always loquacious around the White House, and always was welcome. He had the run of the place. Some said he had a White House latchkey.

ONE of the stories recalled of the Roosevelt-Jusserand exploits is of a cross-country hike they took on a sweltering July day. They had been hitting it up with characteristic Rooseveltian vigor, up hill and down dale, when they came to a stream winding down toward the Potomac at a point where there seemed to be a good swimming hole.

"Ah! The Old Swimming Hole!" Roosevelt exclaimed. "How about a dip?"

No sooner said than done. With the abandon of three schoolboys playing hooky, Roosevelt, Jusserand and Archibald Butt, who was the third member of the expedition, shed their hiking duds.

Roosevelt and Butt plunged in good American fashion, but Jusserand waded in rather cautiously. He had got in about knee deep when T. R. noticed that he was still wearing his gloves—nice black ones like an undertaker's—

WASHINGTON—The Tammany Tiger, which did its bit in incinerating the political hide of John W. Davis, erstwhile Democratic candidate for president, had best beware.

For John is on his way to India, where he can study tigers in their native lair, and when he comes back he may have a few tricks up his sleeve with which to tame the tawny feline.

Davis, it must not be forgotten, as titular head of the Democratic party, remains in control of the party organization. The chairman of the national committee, Clem Shaver, is a Davis benchman first, last and all the time. He, indeed, is the man who put Davis in the running and even more deeply than the candidate himself does Shaver feel the sting of the party's defeat.

NOW the national committee, when it last met, adjourned "to meet again at the call of the chair." Which means that there will not be a meeting of the committee until Shaver wants it.

And Shaver is not going to want one until he has things lined up to get favorable consideration for certain proposals now being worked out which he believes might effectually tie a couple of painful knots in the Tammany tiger's tail.

One of these is a proposed change in the basis of representation for the next national Democratic convention.

At present two delegates are sent in the convention for each member of Congress from each state.

On this basis, New York state had 90 delegates in the late Madison Square Garden fracas, of which 54 came from greater New York City.

THE result was that while New York's votes in the convention threw that gathering into a deadlock that lasted through more

ISN'T TOO EARLY TO FILL STOCKINGS

Welfare Officer Would Like to Have Help Early for Christmas Season

Mrs. Anna Lewis, County Welfare Officer, asks that individuals or organizations desiring to fill Christmas stockings or otherwise aid her in the Christmas giving to those who might be forgotten by Santa Claus, see her at once and let her know what they will do. Last year the rush at the last minute was so great that it was hard on everybody.

Already this year one Sunday school class has secured its list and gone to work dressing dolls and filling stockings. If others will follow this example many little people will be spared of a merry Christmas this year that in the offer is made two days before Christmas.

FRENCH DESIROUS REACHING TERMS

Washington, Dec. 1—The American Debt Funding Commission today went over the results of the informal conference regarding the French debt held recently between Secretary Mellon and Ambassador Jusserand but reached no conclusion. It was announced, however, that the French government is desirous of attempting to reach some terms and discussions will be continued between Mellon and Jusserand.
