ABE MARTIN

Miss Tawney Apple received an invitation to a New Year's dinner and 'tried' to exchange it. When we see how thin the girls and women in dress, it seems like a simple 'waste' money on coal.

A Hard Question

To print or not to print—that is frequently a question for the editor to exercise his discretion about in the matter of the news brought in by the police court reporter.

The general rule of The Advance is to print this news, fully, fairly and without bias; except when a defendant is found not guilty when the charge against him is not a matter of common report. In such an event, under ordinary circumstances, and particularly if a certain obliquity is commonly attached to a charge whether it be proved against one or not, it is the general policy of The Advance to omit reference to the case. If, on the other hand, however, the case is one that has attracted considerable attention and gossip, it seems to us that justice to the defendant demands that his acquittal be made public.

Or again, if the verdict of not guilty in a case seems out of line with the evidence, The Advance thinks that the public is entitled to the evidence.

The foregoing is a statement of this newspaper's general policy on police court news. But there are exceptions to all rules and from time to time we have made exceptions in favor of defendants who were youthful and represented to us as first offenders. For instance, two boys just above 16 were recently found guilty of larceny. Their names were omitted because the offense was one involving moral turpitude and because one of the boys came to the editor's office to plead that he be given another chance. These boys had no influential friends to plead for them but they received the same consideration as did the youngster convicted of unauthorized use of an automobile when his father came to plead his case.

Whether we deem it necessary to print the young offender's name or not our sympathies are always with him. Most of us in our youth were involved in one or more episodes that had we got caught, would have brought us into more or less serious trouble.

Had to know that while Senator P. H. Williams is busy saving the State financially he isn't going to forget how badly we need that Chowan bridge to make this corner a real part of North Carolina.

The idle rich have to do something, we suppose, but just fancy spending all over town and getting arrested a time or two for the faded thrill of finding a make-believe bag of treasure.

A HARD ONE TO SOLVE

Washington Letter

BY HARRY B. HUNT
 NEA Service Writer

WASHINGTON—The real game of tag between President Coolidge and his supporters, who want Congress to adjourn March 4 for a long vacation, and those who believe the new Congress should be assembled immediately, or at least soon after the end of the present session, begins with the reconvening of the legislators after the Christmas recess.

Tactically, the battleground of the extra-session brigade has been chosen as the Senate.

With one-third of the short session already gone, the upper house has not taken up for passage any of the necessary "supply bills," which provide the means to keep the wheels of government turning in the departments and bureaus.

Under the Senate rules the opportunity for a group of determined opponents to force the president's hand in the matter of an extra session is recognized.

With a dozen appropriation bills, proposing expenditure of billions of dollars, to be acted upon within eight weeks, it is not necessary to stage an old-time filibuster on any one measure.

The slowing down of the machinery that would result from even a reasonably close scrutiny and discussion of these measures, might easily cause them to consume an average of one week each.

Which would mean that some three or four departments would be left without any provision for funds after July 1, and before they could continue to function Congress would have to be recalled to provide appropriations.

THE efficiency with which President Coolidge can handle the "big stick" doubtless will be displayed in this developing situation.

The president frankly doesn't want a winter session. He doesn't want Congress "on his hands" over summer. He is much more confident of his ability to steer a

NEGOTIATIONS IN AN ACUTE STAGE

(By The Associated Press)
 Paris, Jan. 10.—Anglo-American negotiations on the subject of American reparation claims appeared here today to have reached an acute stage.

The British delegation, it is understood, found representatives of the United States rather indifferent to arguments on a subject that appeals to the Allies, because America is free from some of the complications with which the Allies are entangled.

THANKS
 The children and grandchildren of the late Mrs. J. E. Goodwin are deeply appreciative of the many kindnesses expressed through tenders of assistance and sympathy; through services rendered and aid bestowed, during her recent illness and death. When saddened and bereaved, the presence of friends and their solacing ministrations afford inexpressible comfort. We shall remember you all and our hearts go out to you in boundless gratitude.
