## bread and bacon.

A correspondent of the Milto Entersrise writes as follows:
It is doubtless true that somethin more of legislation in the interest o the carmer iel needpd, bnt no legislaas he can hefp himself ; and ho can
do it, by planting less of the so-caldo it, by planting less of the so-cal-

bread and bacon. Give me plenty of bread and bacon and I shall no need much tobacco and cotton.
may not handle very much money, but what I do handle will be mine. I had rather make only one hundred dollars and be able to lay it rside in
the old "blue chist," than make five hundred and then have to pay it all and maybe have to sell a mole to finish paying up. There is not much
fun in handling other people's money for nothing. Let the smoke-house yard instead of in the West and orth; let us live at home and we farmer has to begin right after Christmas to go to town after his
bread, bacon aud hay, so long will he see hard times.

one acre onght to produre as much one acre ought to produre as much
as two, of the average farm. It costs but little, if any more, to work an
acre of land in a high state of vation than it does to work a poitione; and the work is a great deal ore pleasent because a yon know the
rich acre yill respond to your did likelo try to untifully. I never of a slongy man, ner is there any oid horse that is so poor and
pak that he can hardly truvel, and
is just as mule is just as nupleasant and discourging to try to get a good crop from
poor piece of land. I have seen poor piece of hand. Thave seen
pry trying to grow on land that was
