

The Roanoke Beacon.

The Official Paper of Washington County.

Published Every Friday by THE ROANOKE PUBLISHING COMPANY.

W. FLETCHER AUSBON, Editor and Business Manager.

Subscription price, \$1.00 per year. Advertisements inserted at low rates. Ordinary notices exceeding ten lines, 5 cents a line. Containing the words, 'allowing eight to the line,' and sent money with M.S. for all in excess of ten lines. The editor will not be responsible for the views of correspondents. All articles for publication must be accompanied by the full name of the writer. Correspondents are requested not to write on but one side of the paper. All communications must be sent in by Thursday morning or they will not appear. Address all communications to

THE ROANOKE BEACON, Plymouth, N. C.

We appeal every reader of THE ROANOKE BEACON, to aid in making it an acceptable and profitable medium of news to our citizens. Let Plymouth people and the public know what is going on in Plymouth. Report to us all items of news—the arrival and departure of friends, social events, deaths, serious illnesses, accidents, new buildings, new enterprises and improvements of whatever character, changes in business—indeed anything and everything that would be of interest to our people.

FRIDAY, AUGUST 3, 1894.

THE sale of the News & Observer has been confirmed and the purchaser will organize a stock company and the paper will be continued.

THERE is much speculation all over the country as to what Mr. Cleveland will do if the Tariff bill should pass as it now is. Some think he would veto it, while others think he would let it go without his signature, and others think he would sign it. The bill, as it passed the Senate, is not what the President or the people want, but Mr. Cleveland would most likely sign it from the fact not to do so would kill all tariff legislation by the present administration, and he knows it is better for the country to have the bill as it is than not to have it at all, therefore he will run no risks.

CONGRESSMAN W. A. B. BRANCH, of this district, has introduced in the House a bill to appropriate the amount of money in the Treasury being unclaimed bounty and pay due Union colored soldiers of the States of Virginia, North Carolina, South Carolina, Georgia, Florida, Alabama, Mississippi, Louisiana, Texas, Arkansas, Tennessee, Missouri and Kentucky, in proportion to the colored population of each State, to be applied for the establishment of a home or homes for the care of indigent colored people or orphans, in such manner as the legislatures of those States shall provide.

In the selection of Wm. M. Bond as the Democratic nominee for Solicitor of this district, we believe the party has done a wise act. While he may not possess any greater ability than those gentlemen who opposed him in convention, yet we believe he will win the victory by a larger majority than either of the others, from the fact that he has, at different times, acted as Solicitor in the absence of Solicitor Blount, and he has shown already that he is justly fitted to defend the State and prosecute violators of the law.

We would have been glad to see our townsman, Mr. A. O. Gaylord, the nominee, and were for Gaylord, but he not being the choice of the convention, we are now for Bond, and our every effort shall be to elect him.

If the protective tariff were simply for the purpose of protection, and the duties were so scaled as to simply cover the actual difference in the cost of production in competing countries and this, there would be little complaint for in that case the duties would be so low that they would be scarcely felt in the price of goods home made or imported. But this is not the case, for the revenue collected by the Government from customs is nominal in comparison with the tribute the people pay the protected manufacturers who take advantage of the high tariff to put up the price of their goods. The New York Herald, a non-partisan paper, has been making some investigations on this line and finds from statistics that from 1853 to 1882 the

American people were increased \$1,160,000,000 a year, of which only \$100,000,000 a year went to the Government as customs collected, the \$1,000,000,000 going to the protected manufacturers. For these nineteen years we would have an aggregate of \$19,000,000,000 which the American consumers have paid the manufacturers in consequence of the increased price resulting from the high tariff. Investigations since the passage of the McKinley bill show that the people have paid in increased prices \$1,800,000,000 a year, only \$207,000,000 of which went to the Government in customs collected. It figures out that under the proposed Senate bill the tribute to the manufacturers would be \$1,253,000,000 compared with \$163,000,000 of revenue to the Government. Even that would be a saving of \$343,000,000 a year to the American people in the tribute paid to the protected manufacturers. The protected manufacturing plants of this country are estimated to be worth \$7,000,000,000, so that the American people have paid in increased cost of goods more than four times the total value of all the manufacturing in the country, which is paying a pretty high price to foster American industries.—Wilmington Star.

THE Baltimore Sun on a recent date prints a timely editorial on "Wasted Time and Opportunities," which strikes us as a thing worthy to be read by all people so we reproduce it this morning hoping that it may prove beneficial to some one:

"Time slips by us almost unheeded, never to return. It cannot be saved like money, to be used after awhile, or stored as in a reservoir. Each moment is given to us but once. We must make use of it or it will pass away, never to return. To the wage-worker especially time is of very great value. He cannot afford to waste any of it. This does not mean that he should never be idle. On the contrary, he will make a great mistake if by overtasking himself he cripples his powers of work. Time is wasted unless it is used so as to keep a sound mind in a sound body. There must be an adequate allowance of time for rest and time for recreation, or the time for work cannot be fully utilized. The greatest waste of time and opportunities, however, is committed by young men and young women. They do not realize the value of time until years have rolled away and they find themselves bound down to hard labor that they might have escaped if they had taken time to improve their minds or developed some kind of special skill that would put their services in demand. Much of the distress of the world falls upon the workers of little skill, whose places can be easily filled from a great throng of other incompetents, always seeking a job. Very many of these (not all, perhaps) have wasted their time and opportunities in their youth. They have sought recreation and amusement when they should have been studying; they have refused to work at any calling that required them to soil their hands or their clothes; they have accepted easy situations and have reached manhood ignorant, lazy and incapable of giving useful services to their employers. But they cannot recall one minute of the wasted hours and days of their youth. No repentance will bring back to them lost opportunities. They are doomed as by a fate, for which they are themselves in part responsible, to a life of ill paid toil or of shame. This lesson cannot be too often held up before the young, for they are thoughtless and always more or less indifferent to the lessons of experience. Here and there, however, one may be found who will listen to the warning and guard against the waste of time. In doing so he need not sacrifice the rational enjoyments of life. There is abundant time for play, as well as for study and work and rest, if one will make a proper division. And there will be no waste of time if each hour is made to help build up the physical, mental or moral qualities, or to develop some special skill that will be useful in the bread-winning contests of the future."

Cared Every Case.
MEADOW HILL, CALDWELL Co., N. C.—Last summer I received a simple bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, and it cured every case of bowels complaint in which it was used.

JUDICIAL CONVENTION.
The Judicial Convention was called to order by H. S. Ward, acting Chairman, at 4 o'clock.
On motion C. S. Vaan, of Chowan, was made permanent Chairman and W. K. Jacobson, of Beaufort, Secretary, with the representatives of the Democratic Press as assistants.
On motion the roll of the counties was called. All answered but Pamlico, which was not represented in said convention.
On motion one delegate from each county was appointed on a committee of Permanent Organization, and one from each county on Credentials.
After some discussion on the right of Pamlico to be represented by proxy, the nomination was in order. Mr. A. D. Prater

chosen speech, placed in nomination Mr. Wm. M. Bond, of Chowan. Mr. H. S. Ward, in his most pleasing and eloquent style, placed in nomination our townsman, Mr. A. O. Gaylord, and Mr. Sawyer, of E. City, in a pointed speech, placed in nomination Mr. W. J. Griffin, of E. City.

The nomination of Mr. Bond was seconded by Mr. J. H. Small, of Beaufort, in a most able manner. The nomination of Mr. Gaylord was seconded by Mr. D. Sprull of this county, in his usual forcible language, and the nomination of Mr. Griffin was seconded by Col. Luke, of Currituck, in a happy and able manner.

No other nominations coming before the convention, it proceeded to cast its votes by counties, as follows:
Beaufort—Bond, 21; Gaylord, 11
Currituck—Bond 5, Griffin 5
Chowan—Bond 14
Currituck—Bond 13, Griffin 2
Dare—Bond 7
Gates—Bond 16, Gaylord 2
Hertford—Bond 4, Gaylord 4, Griffin 4
Hyde—Bond 8, Gaylord 2
Pasquotank—Griffin 17
Perquimans—Bond 10
Tyrrell—Bond 5
Washington—Gaylord 12
Total Bond 104, Gaylord 37, Griffin 34.

On motion the nomination of Mr. Bond was made unanimous.
After the Chair had dissolved Mr. Bond nominated a committee was appointed to notify him and escort him to the stand. Mr. Bond stepped upon the stand and as the storm of enthusiasm subsided he made a short speech of acceptance and was followed by Mess. Griffin and Gaylord who made short speeches for the cause of Democracy.

After electing an Executive Committee for the District the Convention adjourned and goes on record as the most harmonious Judicial Convention ever held in the First District.
A Committee was appointed to draft suitable resolutions expressing the sympathy of the Convention with Hon. J. H. Blount in his present critical illness.
The Edenton Band honored the Convention with sweet music which added largely to the occasion.

It Saved His Life.
ONLY, COLUMBUS Co., N. C.—I gave a small bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy to Mr. H. C. Williams, of this place, who had been sick with bowel complaint for two months. It cured him and he thinks saved his life.

STATE NORMAL AND INDUSTRIAL SCHOOL.

GREENSBORO, N. C., July 20, 1894.
REV. LUTHER EBORN, Supt. Pub. Ins., Washington Co.

DEAR SIR:—
I shall be glad to have your aid in putting before your people the following information:
1. The number of applicants has become so large that the authorities of the institution have decided to limit our entire number of students to 400, this being a large number as can be accommodated in the dormitories of the institution.
2. Those students who agree to become teachers receive tuition free of charge, just as their brothers who intend to become preachers would do at the University and colleges.
3. Of those students who intend to teach, those who secure board in the dormitories "at actual cost not to exceed \$6 a month," will find their annual expenses for board, laundry, and regular fees \$98; those boarding in private families will find that their expenses for the same items will vary from \$104 to \$112, according to the homes selected.
4. Those students who may teach but do not wish to take any obligation to do so and who want the kind of education given at the Normal and Industrial School must pay tuition, which will add \$40 to the above expenses. That is, tuition-paying students in the dormitories pay \$128 a year and tuition-paying students in private families pay \$144 to \$152 a year.
5. Nearly all boarding places are less than 300 yards from the institution.
6. The dormitories having been somewhat enlarged by means of revenue derived from tuition fees, can accommodate comfortably 230 students. Of those places 150 will be assigned to free-tuition students and 80 to tuition-paying students.
7. Of the places with board in private families, 20 places will be reserved for tuition-paying students and the remaining 150 places will be assigned to free-tuition students who take the obligation to become teachers.
8. All applications for any of these places should be in the hands of the President of the institution on August 1st.
9. Where there are more applicants for admission in any county than the number to which the said county is entitled under the apportionment, the appointment will be made by a competitive examination on the students announced in the public school course. The examination will be prepared by the faculty of the State Normal and Industrial School and will be conducted by the county Superintendent as soon as practicable after the first of August.
10. Appointments of any county for which there are no applicants by August 15th will be declared vacant and will be assigned to applicants from other counties.
11. The places for which applications are most numerous are the free-tuition places with board in the dormitories. A number of these places will be held by those who won them last year under the regulations of the Board of Directors.
12. The number of vacancies of this character in your county to be assigned in August is one.
13. If any one desires to obtain more specific information in regard to expenses or other matters have her write for a catalogue.
Very sincerely,
CHARLES D. McIVER,
President.

Grand Success.
GANDYVILLE, ROSEN Co., N. C.—Some time last summer, Curtis & Co., with whom I am employed, received a simple bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, which has been used with grand success.

Only a Scar Remains
Scrofula Cured—Blood Purified by Hood's Sarsaparilla.
"C. I. Hood & Co., Lowell, Mass.: "It is with pleasure that I send a testimonial concerning what Hood's Sarsaparilla has done for my daughter. It is a wonderful medicine and I cannot recommend it too highly. Sarah, who is fourteen years old, has been afflicted with Scrofula ever since she was one year old. For five years she has had a running sore on one side of her face. We tried every remedy recommended, but nothing did her any good until we commenced using Hood's Sarsaparilla. My married daughter advised me to use Hood's Sarsaparilla because it had cured her of dyspepsia. She had been troubled with that complaint since childhood, and since her cure she has never been without a bottle of Hood's Sarsaparilla in the house. We commenced giving it to Sarah about one year ago, and it has conquered the running sore, as a trace of the dreadful disease. Previous to taking the medicine her eyesight was affected but now she can see perfectly. In connection with Hood's Sarsaparilla we have used Hood's Vegetable Pills, and find them the best." MRS. SARAH GRIFFIN, Xenia, Illinois.
