FRIDAY, NOVEMBER 16, 1894.

THE defeat of the Democratic party this time will make Democrats be Democrats in the next contest.

WE were mistaken in our estimate that the Legislature of North Carolina had gone Democratic, for it went Republican with a whoop.

THE Solid South has at last been broken. Now let us see the oft repeated prediction go into effect, that "break the Solid South and a stream of prosperity will flow into the South."

THE Populists throughout this country can't claim anything, politically, for in every case the fusion has given them all they got. In only two states are they given a national showing. West Virginia will elect new Senators as will also North Carolina. The former will send Republicans and the latter one Republican and one Populist.

In the next Congress the Populists will not even hold the balance of power, as the Republicans have a majority over all. This settles the Populist party in politics. They will have no more to do with the legislative of the country than the Democrats. The Republicans have been sharp enough not to allow the fusion trick to catch them.

ELECTION ECHOS.

North and South Dakota goes Republican.

Kansas drops Populism and goes Republican 25,000.

South Carolina goes Democratic by about 20,000 majority.

Brooklyn gives the Republican ticket a majority of about 15,000.

The land-slide struck Missouri and elected a Republican Legislature.

From present figures the next House of Representatives will stand: 239 Republicans, 111 Democrats and 6 Populists.

Wilson, the great tariff reformer, of West Virginia, has been defeated and Senator Camden's successor will be a Republican.

North Carolina's next Legislature will be about as follows: Fusionists, 60; Democrats, 43, with several counties not heard from. The Fusionists claim two-thirds of the Senate.

North Carolina elects six Democrats, two Populists, and one Republican Congressman. The Democrats are, Woodard, of the 2nd; Shaw, of the 3rd; Cooke, of the 4th; Lockhart, of the 6th; Henderson, of the 7th; Bowen, of the 8th. The Populists are Skinner, of the 1st, and Pearson of the 9th. The Republican is Settle, of the 5th.

Henry Wilson, the postmaster at Welton, Florida, says he cured a case of dandruff of long standing in six hours, with one small bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy. What a pleasant surprise that must have been to the sufferer. Such cures are not unusual with this remedy. In many instances only one or two doses are required to give permanent relief. It can always be depended upon. When reduced with water it is pleasant to take. For sale by Plymouth Drug Co. 1m

DOES FARMING PAY?

Wilmington Star.

The question 'Does farming pay?' has been asked so often in this country, North and South, that it has become a stereotyped one. It depends very much, and almost altogether, on how it is done whether it pays or not. Like any other business it must be conducted intelligently and with thrift, and when this is done it will pay. There are men who make it pay while many around them drag along and come out at the end of the year very little better off if not worse than they began it, but these men understand their business and farm instead of making a pretense of farming. We know farmers in this State who have succeeded and become independent when scores of others in the same neighborhood with substantially the same kind of land have failed, simply because the one farmed right and the other didn't.

What intelligent culture and thrift will do on the farm is shown by the following statement of the product, cost and profit of a one-horse farm, for which Col. M. McK., of Robeson county, was awarded the premium at the Border Exposition of the Carolinas, held at Maxton Oct. 31st and Nov. 1st and 2d:

Net profit.....	\$781 17

Here is a net profit of \$781.17 as low as the price of cotton is, on a one-horse farm. The secret of the profit will be found, outside of thrifty management, in the diversified crops every one of which added to the increase and profit of the worker. If he had confined himself to cotton he could have made no such satisfactory exhibit as this, however hard he might have worked or well he might have managed.

For pain in the side or chest there is nothing so good as a piece of Chamberlain's Pain Balm and bound on over the seat of pain. It affords prompt and permanent relief and if used in time will often prevent a cold from resulting in pneumonia. This same treatment is a sure cure for lame back. For sale by Plymouth Drug Co 1m

IT HAS DIFFERENT MEANINGS.

New Bern Journal. Somebody who wants to explain what the editorial "we" signifies, says it has a variety of meanings, varied to suit the circumstances. For an example: When you read that "we" expect our wife home to day, "we" refers to the editor-in-chief, when it is "we" are a little late with our work, it includes the whole office force, even to the devil and towel; if "we" are having a boom, the town is meant; "we" received 700,000 immigrants last year, and it embraces the nation; but "we" have a hog cholera in our midst only means the man that takes the paper and does not pay for it is ill.

WISE WORDS.

Bad music has terrors. Don't temporize with sin. Cupid is not an intellectual being. A newspaper is the diary of history. We are your company manners every day. A politician needs sublime confidence. Honest men do not fear black mailers. Looking for trouble is one way to make it. An idle brain is the Anarchists work-bop. "I didn't mean to" does not lessen the damage. In the eyes of a mule short ears are a deformity. He is the greatest coward who fears himself. Distrust of others is the result of distrust of self. The man who pays cash is the man who buys cheap. No news is not good news in a news paper office. It isn't a man's character that makes a woman love him. Take care of the dollars and the world will take care of you. Man is sometimes quite as jealous of his wrongs as he is of his rights. The bag in the knees of a man's trousers isn't always filled with piety. If people could see themselves as others see them there would be many more suicides. If there is any dog in a man it is pretty apt to growl when his food is not to his taste. If history repeats itself it does not do so because of vociferous cheering or to respond to an encore.—Eg.

In Agony

15 Years With Salt Rheum Hood's Sarsaparilla Gave a Perfect Cure.

"C. I. Hood & Co., Lowell, Mass.: Hood's Sarsaparilla is an excellent medicine. I had eczema in my left leg for fifteen years. Part of the time my leg was one mass of scabs, and about every week corruption would gather under the skin and the scabs would slough off.

The Itching and Burning sensation made me suffer indescribable agonies. I spent a great deal of money for different remedies but did not get relief. About a year ago, leading physicians advised me to take Hood's Sarsaparilla. I did so and have taken five bottles. Now all the sores, scabs and pain have vanished and I am enjoying perfect health. I think Hood's Sarsaparilla is second to none and gladly recommend it to all suffering humanity." M. L. CHEUVRONT, Leonard, Missouri.

Hood's Pills act easily, yet promptly and efficiently, on the liver and bowels. 25c.
