THE ROANOKE BEACON. Plymouth, N. C.

AT a meeting of the Board of Directors of the Plymouth State Normal School, colored, held on Monday, Prof. Jno. W. McDonald was re-elected Principal. This, we think, was a worthy compliment to a worthy man. Aside from the fact that John McDonald is a native of this town, who spends his time, money and talent in building up this town morally, religiously and educationally, he is a man of high character, and is acknowledged one of the leaders of education, not only by his own race but by the State, as will be seen from the fact that he has been employed by the State Board makes the statement, that she caught cold. of Education to hold Institutes for which settled on her lungs ; she was treatcolored teachers throughout the ed for a month by her family physician, but grew worse. He told her she was a In this his associates are hopeless victim of consumption and that State. Professors S. G. Atkins, E. E. Smith no medicine could cure her. Her druggist and W. F. "All honor to our teachers! With inadequate equipment, in poor school houses and with compensation so meagre that it is embarrassing to our pride to print it, they are going to teachers' gatherings to discuss the ways and means of education, and to summer schools to better fit themselves for the work they are doing for the State.

"The ablest men and women of each generation ought, as a matter of ethics and as a matter of business. to be set apart to teach the succeeding generation.

""The State of North Carolina would become rich and widely influential in less than two generations if it should adopt a policy that would secure such men and women for its teachers.

"It is rich enough to do this, and it is too poor not to do it.

"In the meantime, let us not fail to show our appreciation of the work of those who are now bearing the heat and burden of the day in the educational field. Nothing is too good for them.

"The capable, patriotic and hardworking school teacher is North Carolina's most useful public servant."

FROM a report by the U. S. Department of Labor which was published in the New York Journal of Commerce and Commercial Bulletin, it is no wonder the Kloudikers are high livers :

"During the winter, however, whiskey was \$40 to \$75 a gallon, and coal oil was \$40 a gallon. A good deal of flour was sold at from \$50 to \$150 a sack, and the price touched \$180, while beef and mutton lasted through the winter and were sold for a dollar a pound, and moose meat was not much more. Firewood was usually \$40 a cord, but was occasionally nearly twice that, Nails were \$5 a pound, and as soon as navagation opened oranges and lemons were sold at \$1.50 and apples at a dollar. A 24-pound can of batter wes worth \$10, and a can of tomatoes

Did you ever try to dodge the rain-drops? Did not succeed very well, did you? It's just as useless to try to escape from the germs of consumption. You can't do it. They are about us on every hand and we are constantly taking them into our lungs.

Then why don't we all have this disease? Simply because these germs cannot gain a foothold in a strong throat and lungs. It's when these are weak that the germs master.

The body must be well supplied with fat. The danger comes when the blood is poor and the body is thin. If your cough does not yield, and your throat and lungs feel raw and sore, you should not delay another day. Take

Scott's Emulsion

of Cod-Liver Oil with Hypophosphites at once. It will heal the inflamed membranes and greatly strengthen them as well. The digestion becomes stronger, the appetite better and the weight increases. The whole body becomes well fortified and the germs of consumption cannot gain a foothold.

It's this nourishing, sustaining and strengthening power of SCOTT'S EMULSION that has made it of such value it all wasting and exhausting diseases.
