

THE Daughters of the Confederacy of Charleston have sent invitations to all the Chapters in North Carolina to attend a reception on Saturday, April 12th, to be given in the Assembly hall of the Woman's building at the Charleston Exposition.

There is hardly a county in the State but what has a Chapter of these noble women. Washington county has as noble women and had as noble sons in the Confederate army as any of them, but there is no Chapter here; not even an Association of the old veterans.

Now will not our ladies get together and organize a Chapter here and devise some means whereby we may raise some suitable memorial that will cause our youth to constantly remember their fathers who fought so bravely and laid down their lives so willingly for our beautiful Southland?

Ladies, make the move. We are sure you will meet with encouragement on every hand.

**The Best Prescription for Malaria**  
Chills and Fever is a bottle of GROVE'S TASTELESS CHILL TONIC. It is simply iron and quinine in a tasteless form. NO cure—no pay. Price, 50c. nov 12-1y

THE fact that a town or city spends money in advertising its advantages to outsiders, indicates that its officials are alive, have something that they believe in, and are progressive.

For any municipality to remain unadvertised, as to its advantages to the outside investor, means a dead place.

Municipal advertising has the merit and value beyond the individual advertising, in that it gives greater results.

Individual advertising means the calling of public attention to the goods of one person, while municipal advertising means the attraction of the outside public to everything within its borders.

This means, when the advertisement has proven its success by bringing in the outside investor, that both the credit and standing of the community has been advanced.

The effect of this is to increase property values of every kind, stimulate and increase all commercial trade, and promote industrial and trade development.

The officials of a municipality may deem the expenditure of money in advertising their city's advantages as something beyond their jurisdiction.

If such advertising shall be to promote the interests of the community, it cannot be classed as outside of their official action, for certainly men elected to public places of trust are expected to do within their ability everything for the people whom they serve.

As with the merchant who seeks to save by not advertising, so with officials of a municipality who refuses to make public the advantages of their community when opportunity offers.

There is money not spent, but it is the costliest saving that could be devised.

It means obscurity for both merchant and municipality, with a constant retrogression towards an unmarked oblivion.—New Bern Journal.

### Important to Farmers.

In view of the fact that it is not generally understood that the Rice Crop is highly protected from foreign competition by an import duty and that the crops raised in this United States have every year fallen much below the home consumption the CAROLINA RICE MILLS of Goldsboro, N. C., in order to encourage the cultivation of Rice on a larger scale than has heretofore been done, is now prepared to make contracts with planters in North Carolina for their crops of Rice they may raise during the year 1902 on the most liberal terms.

Parties interested, who wish to avail themselves of this offer, can communicate with us and we will take pleasure in giving full particulars. Respectfully,

CAROLINA RICE MILLS, np23 Goldsboro, N. C.

Seed Rice will be quoted on application.

## How To Gain Flesh

Persons have been known to gain a pound a day by taking an ounce of SCOTT'S EMULSION. It is strange, but it often happens.

Somehow the ounce produces the pound; it seems to start the digestive machinery going properly, so that the patient is able to digest and absorb his ordinary food, which he could not do before, and that is the way the gain is made.

A certain amount of flesh is necessary for health; if you have not got it you can get it by taking

You will find it just as useful in summer as in winter, and if you are thriving upon it don't stop because the weather is warm.

### To the Patrons of the Public Schools.

I call your attention to the fact that the use of the books adopted by the State Text-Book Commission, for the use in Public Schools will be compulsory after July 1st, 1901. All old books now in use, that are not exchanged before that time, the exchange prices according to the contract, with the publishers by the State Text-Book Commission, cannot be taken advantage of by the patrons of the public schools. Therefore I wish you to notify the patrons in your district, so that they can take advantage of the present contract price. If they fail to take advantage of these low prices before July 1st, 1902, they will find themselves compelled to buy new books at the full price, and their old books will be left as useless property on their hands. This of course would mean a great loss to the people of your district.

Any book that has been used or could have been used by any child in the public schools of North Carolina before July 1st, 1902, may be exchanged for a new book of like grade upon the same subject at the contract price. J. O. EVERETT, Co. Supr. of Schools.
