

Mrs. L. A. Harris, a Prominent Member of a Chicago Woman's Political Club, tells how Ovarian Troubles may be Cured without a Surgical Operation. She says:

"Doctors have a perfect craze for operations. The minute there is any trouble, nothing but an operation will do them; one hundred dollars and costs, and included in the costs are pain, and agony, and often death.

"I suffered for eight years with ovarian troubles; spent hundreds of dollars for relief, until two doctors agreed that an operation was my only chance of life. My sister had been using Lydia E. Pinkham's Vegetable Compound for her troubles, and been cured, and she strongly urged me to let the doctors go and try the Compound. I did so as a last resort; used it faithfully with the Sanative Wash for five months, and was rejoiced to find that my troubles were over and my health restored. If women would only try Lydia E. Pinkham's Vegetable Compound first, fewer surgical operations would occur."—Mrs. L. A. HARRIS, 278 East 31st St., Chicago, Ill.

\$5000 FORFEIT IF THE ABOVE LETTER IS NOT GENUINE.

When women are troubled with irregular, suppressed or painful menstruation, weakness, leucorrhoea, displacement or ulceration of the womb, that bearing-down feeling, inflammation of the ovaries, backache, bloating (or flatulence), general debility, indigestion, and nervous prostration, or are beset with such symptoms as dizziness, faintness, lassitude, excitability, irritability, nervousness, sleeplessness, melancholy, "all-gone" and "want-to-be-left-alone" feelings, blues, and hopelessness, they should remember there is one tried and true remedy, **Lydia E. Pinkham's Vegetable Compound** at once removes such troubles.

Gold From Mine Waters.

The London Engineer notes that a deposit of gold on a piece of wrought iron, originally used in a mine track, and which had lain in the gutter carrying off the mine water, has been found at the Mount Lyell Mine, Tasmania. On removing the precipitated copper the gold was found deposited in places, especially near three bolt-holes, in the form of bright yellow plates. It was firmly attached to the iron, and had probably been deposited by the electrical action of the iron-copper couple from traces of chlorine in the acid mine water. No gold, however, could be detected in the mine water.

To the triumph of modern surgery there is scarcely a limit. Nothing apparently is beyond the reach of the confident and daring hand that wields the life saving blade. The hitherto hidden recesses of fatal disease are made into broadening highways for explorative scientific endeavor. No organ of the body, from brain to kidney, is exempt from successful operative procedure. Even a stab or bullet wound of the heart itself is boldly sutured in the short intervals between uninterrupted pulsations, states Dr. George L. Shady, in the Chicago Times-Herald.

A Day's Work in Washington.
In a letter from Washington, Bill Morgan notes the slow manner in which business is transacted in the national capital and gives the following story to illustrate it:
State Senator Fitzpatrick of Kansas, was in Washington on department business. He couldn't get this business pushed through, no matter how much he hurried. One day he met National Committeeman Dave Mulvane and complained that during the whole day he hadn't been able to accomplish a single thing.
"Didn't you write a letter to your wife?" asked Dave.
"Yes, I did," responded Fitzpatrick.
