

At a meeting of the Board of Commissioners last week the rate of taxation was, after due consideration, advanced on many kinds of business. We learn that this progressive step on the part of the Board has created some unpleasant criticism. We do not see why, for taking it all in all, the taxes and special privileges in Plymouth are lower than most towns. Our city fathers are men who have the best interests of the town at heart, and their actions on this, as well as other matters, were taken with the view of promoting the town.

Judge Brown for Associate Justice.

We, the undersigned lawyers of the First Judicial District, of which Judge George H. Brown is the Resident Judge, present his name to the Democratic Convention for Associate Justice.

In this, his home district and among his home people who know him best, his character as a man a lawyer and a Judge is beyond criticism. We think he should receive the nomination for one of the vacancies for these cogent reasons:

First, his eminent fitness, impartiality and capacity for high judicial office has been demonstrated by fourteen years of continuous service.

Second, he is the senior Superior Court Judge in length of service and has borne all the hardships of the life of a Circuit Judge for that long period. It is sound policy invariably adhered to by Democratic State Conventions to promote those Superior Court Judges who remain on the bench and devote their lives to judicial labor.

Third, Judge Brown was nominated and received the nomination for Associate Justice in 1896, when there was no chance of election, and along with the entire ticket went down in the fusion cyclone of that year. Now that an election seems assured, we think it but just he should receive the nomination.

Wants Others to Know.

"I have used DeWitt's Little Early Risers for constipation and torpid liver and they are all right. I am glad to endorse them for I think when we find a good thing we ought to let others know it," writes Alfred Heinze, Quincy, Ill. They never gripe or distress. Sure, safe pills.

Children's Fertilizer.

That's a good name for Scott's Emulsion. Children are like young plants. Some will grow in ordinary soil. Others need fertilizers.

The nature of some children prevents them from thriving on ordinary food. Such children grow right if treated right.

All they need is a little fertilizer—a little extra richness. Scott's Emulsion is the right treatment.

Fertilizers make things grow. That's just what Scott's Emulsion does. It makes children grow in flesh, grow in strength, grow rich blood, grow in mind, grow happy. That's what we make it for.

Send for free sample.

Go to Edenton—it will pay you many times. Don't throw your money away with traveling people—they are no friends to you—they are not after building up a reputation; they cannot in a tent, they have no advantage whatever.

I might go on to give you many reasons, but this one you know: A gallery is the place. If you have never been in a picture gallery it will pay you to visit one, and the moment you enter one you will say to yourself that a gallery is the only place in which to have a picture taken.

IS YELLOW POISON

in your blood? Physicians call it Malarial Germ. It can be seen changing red blood yellow under microscope. It works day and night. First, it turns your complexion yellow. Chilly, aching sensations creep down your backbone. You feel weak and worthless.

ROBERTS' CHILL TONIC will stop the trouble now. It enters the blood at once and drives out the yellow poison. If neglected and when Chills, Fevers, Night-Sweats and a general break-down come later on, Roberts' Tonic will cure you then—but why wait? Prevent future sickness. The manufacturers know all about this yellow poison and have perfected Roberts' Tonic to drive it out, nourish your system, restore appetite, purify the blood, prevent and cure Chills, Fevers and Malaria. It has cured thousands—it will cure you, or your money back. This is fair. Try it. Price, 25 cents.

DR. MOFFETT'S
TEETHINA
(TEETHING POWDERS)

Costs Only 25 cents at Druggists.

Or mail 25 cents to C. J. MOFFETT, M. D., ST. LOUIS, MO. FLORENCE, S. C., Nov. 26, 1900.—I was first advised by our family physician in Charleston to use TEETHINA with our baby when he was but a very young infant, as a preventive of colic and to warm and sweeten the stomach. Later it was useful in teething troubles, and its effect has been found to be so very beneficial and so free from dangers that are consequent upon the use of drugs and soothing syrups, that we have come to regard it, after use with three children, as one of the necessities when there is a new baby in the house and until the teething troubles are over, and we take pleasure in recommending it to our friends instead of the horrid stuff that so many people use to keep their baby quiet.
