

Difficult Horseback Feat.

There are no better horsemen in the world than the cavalry officers of the Italian army, yet even among them there are very few who could perform the feat recently achieved by one of them.

To run an ordinary foot race is easy enough, but to run at full speed for several hundred yards holding in one hand a spoon on which rests an egg and to reach the goal without dropping the egg is a feat which must be practiced carefully a long time before it can be performed successfully, and as a result there are not many who can be sure of accomplishing it whenever they try. Great was the surprise when an Italian officer mounted on horseback performed this difficult feat. Moreover, he selected a course in which there were two or three high fences, and these he cleared at full gallop without losing the egg.

Quaint Questions.

Do you know that the bayonet was so called because it was first made at Bayonne, France?

That coffee received its name for the reason that it first came to Europe from Caffee?

That candy was first exported from Canada?

That tobacco was so called from the island of Tobago, the home of Daniel Defoe's imaginary hero, Robinson Crusoe?

That gin was invented at Geneva and early became an important factor in the commerce of that city?

That the tarantula was a notorious pest in the vicinity of Taranto?

That cannibal was made at Cambridge?

That muslin was made at Mouscron?

That calico was made at Calicut?

That dimity was made at Damietta?

That milliners plied their trade at Milan?

That the magnetic property of iron ore was first noticed in that dug in the neighborhood of Magnesia?—Washington Star.

The Empress of Germany's private wedding present to her relations always consists of a very plain traveling clock, for she values among all other virtues that of punctuality.

GOOD NEWS FOR PLYMOUTH.

Science at Last Discovers a Real Cure For Rheumatism.

After years of experiment a new scientific remedy has been found that not only relieves, but absolutely cures rheumatism and kindred diseases. In many cases, Rheumatism is caused by an excess of poisonous acids in the blood. The new discovery, RHEUMACIDE, though purely vegetable, and acting through nature's channels, neutralizes these acids and sweeps all poisons and harmful germs out of the blood. At the same time it tones up the stomach and regulates the liver and kidneys.

RHEUMACIDE therefore, cures the disease permanently, because it removes the cause. It has cured hundreds of cases after the most noted doctors and hospitals have failed. RHEUMACIDE cured James Wilks of Dillon, S. C., after he had been held in bed by rheumatism for three years and his feet were drawn up almost to his back. This is only one of the many marvelous cures RHEUMACIDE has already performed. RHEUMACIDE is curing many cases of Rheumatism, Sciatica, Stomach, Gout, Kidney trouble, Indigestion and Constipation. Right in this community today.

Because it has cured so many others we believe it will cure you. All the leading druggists in this place sell and recommend RHEUMACIDE.

Strange Coincidence.

There is a mysterious coffin-shaped grave in the churchyard at Montgomery, England, on which the grass refuses to grow. According to the local legend, a young man of Montgomery was hanged for murdering his sweetheart. He asserted to the last that he was not guilty, and on the scaffold, declared that the grass would grow over his grave if his innocence was proved. The prophecy, it is alleged, has been fulfilled to the present day.

An Illusive Plant.

There is a plant in Chile and a similar one in Japan, called the "flower of the air." It is so called because it appears to have no root, and is never fixed to the earth. It twines round a dry tree or sterile rock. Each shoot produces two or three flowers like a Lily—white, transparent and odoriferous. It is capable of being transported six to seven hundred miles and vegetates as it travels suspended on a twig.
