## BLOODY RIOTING BY IRISH STRIKERS

HOSPITALS SO CROWDED, MANY  
OF INJURED SENT TO THEIR  
HOMES.

400 PERSONS ARE HURT

In Many Sections of the City Pitched  
Battles Occurred—Thirty Con-  
stables Injured.

Dublin, Ireland.—Fierce rioting in connection with the tramway strike was renewed. Hundreds of persons were injured. All the hospitals are so crowded that many serious cases had to be sent to their homes for treatment.

The strike committee, in the interest of peace, had rescinded the call for a mass meeting in O'Connell street, and had substituted a parade from Beresford place to Croydon park, at Fairview, a suburb on the north side of the city. The authorities meanwhile had prohibited the mass meeting.

Croydon park belongs to the Transport Workers' union, and a meeting was held there without disorder. But on the return march attempts of the police by baton charges to disperse the constantly growing crowds led to rioting.

The mob was further incensed by the arrest of one of the strike leaders, James Larkin, against whom a warrant had been out for 24 hours. Larkin was on the balcony of a hotel in Sackville street. He was wearing a disguise for the purpose of eluding arrest, but an enthusiastic admirer raised the cry, "Three cheers for Larkin!" The police immediately pounced upon him and violent scenes ensued.

The rioting became general in various parts of the city. The police charged repeatedly with their sticks, and this led to pitched battles. Stones, brickbats and bottles were hurled by the infuriated rioters, and the streets were soon covered with prostrate forms. More than fifty arrests were made.

The lord mayor announced his intention of demanding a public inquiry into the conduct of the police during the strike riots, and will send law officers of the corporation to attend the inquests over the two men who have died from their injuries.

## PACIFIC WATERS IN CANAL

Last Remaining Barrier Blown Out by  
Charge of Dynamite.

Panama.—The last remaining barrier at the Pacific end of the Panama canal was blown out by dynamite. It was an intensely interesting spectacle. At exactly 9:30 o'clock an electric switch was turned on and the 1,500 spectators, including the Shriners visiting here from the United States and officers of the British cruiser New Zealand, were rewarded by a wonderful sight. Hundreds of tons of mud and stone were thrown high in the air and the thunderous roar of the explosions re-echoed in the nearby hills.

About twenty long tons, equivalent to 44,800 pounds, of 45 per cent. dynamite constituted the blast, which was one of the largest ever set off in the canal.

The charge, which was planted in 541 holes at an average depth of 36 feet, tore a big gap in the barrier, but not to a sufficient depth to permit water to flow through, as the sea level channel was at low tide.

Equally interesting as the explosion was the actual breaking of the barrier at the time, the tide creeping steadily up until it was level with the top of the gap. A workman seized a shovel and made a small trench through which a rill of water trickled. Gradually it widened, until an hour later a raging torrent, with a 35-foot fall, poured through an opening 400 feet wide into that part of the canal between Gamboa Dike and the Miraflores locks, which previously had been excavated by steam shovels.

This cut, which is 5,000 feet long, 500 feet wide, and 41 feet deep below mean sea level, was entirely filled by the time the waters of the Pacific laved for the first time the solid masonry of the Miraflores locks.

Put Five Bullets in Chief of Police. Lena, S.C.—J. B. Harter, chief of police at Allendale, S. C., was shot to death at Lena. A. L. Walker is confined in the Hampton county jail, charged with the killing. While the tragedy occurred on the platform of the railway station, there were no witnesses, and as Walker refused to make a statement, nothing is known as to how or why Harter was killed. An inquest will be held at which time an effort will be made to solve the mystery. The dead man was well known in this section.

## SENOR DON ANGEL ALGARA

Senor Algara, the popular young first secretary and charge d'affaires of the Mexican embassy in Washington, is a busy man these days.

## CONGRESS SUPPORTS WILSON

PRESIDENT'S MESSAGE ON MEX-  
ICO ENDORSED BY THE  
LEADERS.

No Member of the Huerta Government  
Will Make Statement About the  
Message of Mr. Wilson.

Washington.—Congressional leaders declare that President Wilson's vigorous assertion of a definite policy toward Mexico would have the effect of staying in congress for a time at least, open criticism of the administration. Those who discussed the message agreed in the general statement that it presented a frank and full statement as to the recent negotiations with the Huerta government, and, at the same time, definitely outlined the American policy for the future.

Republicans joined with Democrats in the endorsement of the president's utterances.

"The president's message is an admirable document," said Senator Bacon, chairman of the senate foreign relations committee. "It sets forth the facts without reservation, and puts us right before the world. Moreover, I believe it will have a calming effect on our own people, and a soothing influence upon public expression in the United States. The magnificent ovation given the president showed that he has behind him both branches of congress, without regard to party division."

Mexico City.—Without comment Frederico Gamboa, the minister of foreign affairs, presented to the standing committee of the Mexican congress all the facts in the controversy between Mexico and the United States.

The congressmen comprising the committee received the facts without comment other than that indulged in as individuals after adjournment. Unless there are new developments it is improbable that discussion, even of a private character, will continue long.

## MISS JESSIE WILSON HURT

President's Daughter Is Thrown  
From Horse—Found by Roadside.

Plainfield, N. H.—Miss Jessie Wilson, daughter of President Wilson, while riding near here, was thrown from her horse and lay unconscious for more than half an hour on the roadside.

She was found there by Dr. Charles W. Worthen of White River Junction, who applied remedies and restored her to consciousness. Later Miss Wilson was taken to a house nearby and the Cornish home of President Wilson was notified by telephone. Her injuries are not believed to be serious.

Miss Wilson's fiancée, Francis B. Sayre, with whom she had started for a ride, had gone ahead of her and knew nothing of the accident until the riderless horse dashed past him. The scene of the accident was on the New Hampshire side of the Connecticut river, just opposite the Vermont town of North Hartland.

## Girls Clear \$233 on Tomatoes.

Raleigh, N. C.—How two Mecklenburg county girls cleared \$233 on one-fifth of an acre by raising and selling tomatoes was told by Miss Margaret Brown, aged 15 years, to 1,500 farmers and more than 300 housewives here in annual convention. Miss Brown said she donned overalls and tended her crop. Mrs. Julian Heath of New York City, organizer of the Housewives League of America, urged the women to trade direct with the producer rather than give the middleman his profit.

## VISCOUNT HALDANE ON VISIT TO U. S.

FIRST LORD HIGH CHANCELLOR  
TO LEAVE GREAT BRITAIN  
SINCE WOLSEY.

DISCUSSES MANY SUBJECTS

Situation in Mexico Is Only Subject  
Tabooed by Distinguished  
Guest.

New York.—Viscount Haldane, the first lord high chancellor of Great Britain to leave his country since Cardinal Wolsey went to France four hundred years ago, arrived here on the steamship Lusitania for a flying visit in this country and Canada. The lord high chancellor, whose position in England corresponds to that of chief justice of the supreme court of the United States, is here as a guest of the American Bar Association, before which he will deliver an address at its annual meeting in Montreal. He was entertained at a dinner given in behalf of the association by C. A. Severance of St. Paul. His itinerary includes visits to West Point and Albany.

Previously warned that he might expect to be interviewed by American newspaper men on his arrival in New York, the chancellor smilingly greeted a delegation of them who boarded the Lusitania at quarantine and submitted to another interview when he reached the hotel where he is making his headquarters in this city.

Lord Haldane freely discussed many questions of the day, declared that he was in favor of woman suffrage, prophesied that a millennium of peace was far off, said the relations between Germany and England were never more cordial, praised the intellectual growth of the United States and predicted that home rule for Ireland would soon be an accomplished fact. With a merry twinkle in his blue eyes the lord high chancellor joked with his interviewers between serious remarks and conceded that the American custom of interviewing distinguished visitors was "delightfully progressive."

## WANT WARSHIPS AS SCHOOLS

Medical Inspection of Public Educa-  
tional Institutions Recommended.

Buffalo, N. Y.—The fourth international congress on school hygiene has adopted resolutions recommending a thorough medical inspection in all public schools and the use of discarded battleships as open air schools.

The congress states it is convinced that the open air school is one of the most powerful agents in the prevention and cure of tuberculosis in childhood. The resolution says:

"That the fourth international congress on school hygiene petitions the United States government to place at the disposal of the various states of the Union as many of the discarded battleships and cruisers as possible to be anchored according to their size in rivers or at the seashore and to be utilized by the respective communities for open air schools for children or hospital sanatoria for adults."

"That the congress expresses its appreciation to the Italian government for the example it has given by consecrating three of its discarded men of war to the combat of tuberculosis."

Methods of correcting defects of vision in school children and preventing malnutrition were the principal subjects discussed by the congress. At the closing public meeting G. Stanley Hall, president of Clark university, Worcester, Mass., spoke on the hygiene of appetite.

## 3 Shot, 6 Hurt, in Family Row.

Redbank, N. J.—Mrs. Frank Storck retains possession of her husband's home in the fashionable residential section of Redbank, after a fight made to dispossess her in which three persons were shot, four injured by blows, an eighth broke his ankle and Mrs. Storck herself was thrown through a window and rendered unconscious when she fell on her head on the sidewalk. Storck, a piano dealer, divorced his wife last month. She has since frustrated his efforts to force her to leave his residence here. He organized a raiding party.

## Refused to Eat Editorials, Is Shot.

Sulphur, Okla.—J. I. Schneck, editor of the Sulphur Democrat, was shot and killed here, and John Lindsay, former treasurer of Murray county, is charged with the killing, was hurried from the Sulphur jail to the more secure prison at the nearby town of Norman, when mob violence was threatened. Lindsay, it is alleged, opened fire on Schneck with a shot gun when the editor refused to "eat" a copy of his paper which contained adverse editorial comment concerning Lindsay.

## E. N. BROWN

E. N. Brown is one of the men especially interested in the critical Mexican situation, for he is vice-president of the Mexican National railways.

## CLAIM GLYNN IS GOVERNOR

GLYNN IS RECOGNIZED BY THE  
NEW YORK GENERAL  
ASSEMBLY.

Action Came After Bitter Fight.  
Vote 43 for Recognition to  
29 Against.

Albany, N. Y.—Lieut. Gov. Martin H. Glynn was formally recognized as acting governor by the assembly after a bitter debate. The vote of such recognition stood 43 for to 29 against.

This recognition came in the form of official acceptance of messages sent by Mr. Glynn as acting governor to the legislature. Messages also were received by the senate, but with the express understanding that objection could be made later to their official action as though no action had been taken.

The senate session was brief and colorless, but the assembly remained in session long after midnight. Its proceedings were characterized by sharp criticism and the bandying of epithets between friends and opponents of Governor Sulzer. Referring to alleged attempts to punish him through the medium of criminal indictments for the part he had taken in the impeachment proceedings, Majority Leader Levy bitterly denounced Lynn J. Arnold, one of Governor Sulzer's trusted lieutenants, who has been active in this matter.

## NEW RULES FOR CARRIERS

Carriers Not Required to Collect  
Coins.

Washington.—Picking up loose money has grown to be such a hardship for the overworked rural free delivery carrier that the postoffice department issued an order warning reckless citizens against leaving loose coins lying around. Hereafter coins must be tied in bundles or inclosed in envelopes whenever the patron of a rural route wants stamps from a carrier and leaves the necessary amount in the wayside box.

"The attention of postmasters at rural delivery offices and of rural carriers," says Fourth Assistant Postmaster General Blakelee, "is again directed to the fact that rural carriers are not required to collect loose coins from rural mail boxes."

"Patrons should inclose coins in an envelope, wrap them securely in paper or deposit them in a coin holding receptacle so they can be easily and quickly taken from boxes and carriers will be required to lift such coins and when accompanied by mail for dispatch, attach the requisite stamps."

## 21 Persons Injured in Wreck.

Lynchburg, Va.—Twenty-one people were injured in a wreck of a mixed train on the Buckingham branch of the Chesapeake and Ohio railroad, near Breno. The train was derailed by spreading rails and the passenger coach and three freight cars loaded with lumber rolled over a 20-foot embankment.

## American Murdered by Mexicans.

Washington.—State department reports telling of the attack by Mexican federalists upon employees of the Madera Lumber company at Madera, Mexico, said that Edmond Hayes, Jr., a negro known as "Tom" were killed. General Cordoba, commanding the federalists in that vicinity, immediately arrested all of the men implicated in the attack, according to the report. Hayes was killed, the consul at Chihuahua, reported, by a bandit named Castillo, who, with about eight men.

## FRENCH AVIATOR'S REMARKABLE FEAT

EPOCH-MAKING EXPERIMENT TO-  
WARD ATTAINMENT OF SAF-  
ETY IN AIR.

MAKE FLIGHT UPSIDE DOWN

Rose to a Height of 3,000 Feet, Took  
a Headlong Plunge But Retained  
Perfect Control of His Machine.—  
Other Feats.

Juvisy, France.—The daring French aviator Pegoud, who on August 20 made a parachute drop from an aeroplane from a height of 900 feet, accomplished a much more remarkable feat, while at first sight appears to have been a piece of extraordinary aerial acrobatics, but which experts declare was an epoch-making experiment toward the attainment of safety in the air. Briefly, Pegoud caused his monoplane to describe a gigantic letter "S" in the sky during which he was flying upside down for about a quarter of a mile.

The strictest secrecy was maintained prior to the test and only a few persons were present when Pegoud took the air. He mounted rapidly to a height of more than 3,000 feet, describing a curve; then the forward part of the machine was observed to incline towards the earth. Through glasses the spectators saw the propeller and the monoplane further incline until it was perpendicular with the earth. It seemed as if nothing could stop the headlong plunge. As the machine dropped swiftly the tail dipped again towards the earth and the pilot appeared head-downward. Seconds which seemed hours passed. With an almost imperceptible curve the machine shifted its course to a straight line, the pilot in the same position. How long he remained upside down the anxious watchers could not determine but it was long enough to cause them to believe that he would never right himself.

Presently the machine dipped again and with a graceful curve assumed an erect position. Pegoud flew for a few minutes to and fro and descended by a series of beautiful spirals. On landing the aviator said:

"Everything went splendidly. The levers answered the slightest touch."

## Weakness of Naval Stations.

Washington.—Lack of berthing slips and drydocks is pointed out as the distinctly important weakness of our naval stations located north of Cape Hatteras, in a report to the Secretary of the Navy by the Naval Board of Inspectors of all Northern Navy Yards. Additional drydocks on the North Atlantic Coast, in the opinion of the board, are essential for the needs of the Atlantic fleet and it suggests that Jamaica Island at the Portsmouth Navy Yard should be acquired as the site of two additional drydocks.

## Americans Attacked by Mexicans.

Los Angeles.—American refugees are in force here, having landed at San Diego. Sixty persons were brought north from Guaymas and vicinity by the United States cruiser Pittsburg. Among them was T. L. Findley, who still is suffering from the effects of a bayonet wound received at the hands of an intoxicated rebel while lying sick in bed at his home in Durango. Findley gave a graphic description of the raid on the city of Durango by a band of 8,000 rebels.

## Mexican Situation Marking Time.

Washington.—Senator Bacon, chairman of the foreign relations committee, conferred more than an hour with Secretary Bryan, after which he declared the Mexican situation seemed to be marking time. "So far as I know," said the senator, "the Mexican situation is absolutely at a standstill. No word of importance has been received from Mexico City and nothing has come from Mr. Lind, who remains in Vera Cruz. I do not know what he plans to do."

## Charlton Undergoes Interrogation.

Como, Italy.—Porter Charlton, the young American who was extradited from the United States to stand trial on a charge of murdering his wife, was subjected to a preliminary interrogation. Judge Rognoni, the examining magistrate, and Signor Mellini, Charlton's counsel, accompanied by a clerk, and an interpreter appeared at the prison soon after the breakfast hour. During the examination Charlton was self possessed. The prison officials declare they have not observed any sign of mental deficiency.

## FROM THE TAR HEEL STATE

Short Paragraphs of State News That  
Has Been Condensed For Busy  
People of State.

Washington.—Messrs. Davis and Davis, Washington patent attorneys, report the grant to Jerry M. Hassell, Warsaw, of a patent on a logging-car.

Oxford.—Mrs. Kate Hays Fleming, one of Oxford's most accomplished teachers, was appointed by Gov. Craig a delegate to the Fourth International Congress on school hygiene, now being held in Buffalo, N. Y.

Warrenton.—This county is stirred over the proposition of a bond issue of \$100,000 for good roads. The question will be decided at the polls September 16 and both sides are hard at work.

Salisbury.—The hookworm campaign, which has been under way in Rowan county for six weeks, was concluded recently. The work was done in a thorough manner by Dr. G. F. Leonard and Mr. H. E. Jenkins.

Fairmont.—Several days ago the Robeson county veterans held a reunion here and a great crowd was in attendance. There were 85 veterans present, 18 of whom were over 75 years old. Mr. L. R. Varner, of Lumberton, was the orator of the day.

Concord.—Supt. A. S. Webb, of the city schools has notified the teachers that September 22 is the opening day. He has instructed the teachers to meet their pupils on Friday, September 19, for the purpose of giving out book lists and assigning lessons for Monday's work.

Charlotte.—That Willie Stevens was justified in slaying George Smith on May 25th was the decision of the jury sitting on the case in the superior court after a deliberation of an hour and forty minutes. The decision was announced after court had been adjourned nearly two hours. The trial continued through two days.

Dunn.—At a meeting of a committee from the chamber of commerce selected to handle the question of a union depot for Dunn and several of the leading business men of the town it was decided to accept the proposition made by the Atlantic Coast Line and the Durham & Southern to build a modern station at the junction of the two roads.

Henderson.—From present indications the extensive preparations now being made will result in greatly increasing the tobacco interests of Henderson and a part of this increase will be shown this season. The Farmers' Sales Warehouse, nearing completion, is the largest structure of the kind erected in the city since it became a tobacco market.

Asheville.—The dream of a "great white way" for Asheville appears to be materializing, workmen having already started the task of installing the light standards on Patton Avenue. The work of placing the standards will be completed within the next week or ten days and then the "juice" will be turned on to that street as well as North and South Pack square.

Durham.—Mrs. J. E. Keith, of the Creedmore section of Granville county, met a tragic death several days ago, when she was killed in the elevator of the Trust building. Mrs. Keith and her daughter were on the car, and the body of the elder lady was fearfully mangled, death resulting instantly. The daughter was a witness to the fearful death of her mother.

Salisbury.—A narrow escape from serious injury and perhaps death, was experienced recently near Salisbury by Mr. Reed Rusher, Miss Annie Rusher and Miss Olga Brown of Faith. In driving a young horse by a street car on a fill near the city limits the animal dashed down a high embankment turning the buggy over several times. The occupants escaped with slight bruises.

Raleigh.—The state fair will this year make of its tobacco and it has arranged for the exhibition with Col. John S. Cunningham and Dr. J. L. Burgess in charge. The competition is limited to North Carolina growers and the prizes are numerous and substantial. In the selection of the men in charge the fair association has chosen two of the state's best tobacco men. The directors will spend \$330 in prizes alone and will confer all diplomas that mean a great deal.

Greensboro.—The preliminary trial of Ed Hargis, charged with the murder of his son, was held several days ago. The defendant was held without bail for superior court. The principal evidence against him is the story of the killing told by his daughter.

Greenville.—The county commissioners visited the county home and are considering the matter of rebuilding with modern improvements, either at the present site or nearer town. This matter has been agitated much of late, all agreeing that a new home is a necessity.
