

# STOMACH MISERY GAS, INDIGESTION

"Pape's Diapepsin" fixes sick, sour, gassy stomachs in five minutes.

Time it! In five minutes all stomach distress will go. No indigestion, heartburn, sourness or belching of gas, acid, or eructations of undigested food, no dizziness, bloating, or foul breath.

Pape's Diapepsin is noted for its speed in regulating upset stomachs. It is the surest, quickest and most certain indigestion remedy in the whole world, and besides it is harmless.

Please for your sake, get a large fifty-cent case of Pape's Diapepsin from any store and put your stomach right. Don't keep on being miserable—life is too short—you are not here long, so make your stay agreeable. Eat what you like and digest it; enjoy it, without dread of rebellion in the stomach.

Pape's Diapepsin belongs in your home anyway. Should one of the family eat something which don't agree with them, or in case of an attack of indigestion, dyspepsia, gastritis or stomach derangement at daytime or during the night, it is handy to give the quickest relief known. Adv.

## THIS LADY OBEYED HUSBAND

In Matter Where Her Happiness Was at Stake, and is Mighty Glad She Did.

Sheldon, S. C.—In advices from this town, Mrs. J. B. Marvin writes as follows: "For more than three years, I suffered with womanly troubles, and none of the different treatments I underwent seemed to do me any good.

I also had pains in my left side, so bad, at times, I could hardly get up. My husband told me to buy some Cardui, the woman's tonic, and I did. I started taking it, and soon began to feel better. I took only a few bottles and now I am perfectly well, and able to do anything.

Cardui has done me a world of good. It certainly cured me of the trouble I had and I am getting along nicely.

I have recommended the remedy to other sufferers, and they have all been benefited by it.

I will always keep Cardui in my home for use in time of need."

Cardui is a purely vegetable remedy, containing no harmful mineral products. Its ingredients act in a helping, building way, on the womanly constitution. It has been relieving womanly troubles for over half a century, during which time it has proven of more than ordinary value as a tonic for weak women.

You can rely on Cardui. It will do for you, what it has done for thousands of others. It will help you. Begin to take Cardui today.

## SAGE TEA DARKENS GRAY HAIR TO ANY SHADE. TRY IT!

Keep Your Locks Youthful, Dark, Glossy and Thick With Common Garden Sage and Sulphur.

When you darken your hair with Sage Tea and Sulphur, no one can tell, because it's done so naturally, so evenly. Preparing this mixture, though, at home is messy and troublesome. For 50 cents you can buy at any drug store the ready-to-use tonic called "Wyeth's Sage and Sulphur Hair Remedy." You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning all gray hair disappears, and, after another application or two, your hair becomes beautifully darkened, glossy and luxuriant. You will also discover dandruff is gone and hair has stopped falling.

Gray, faded hair, though no disgrace, is a sign of old age, and as we all desire a youthful and attractive appearance, get busy at once with Wyeth's Sage and Sulphur and look years younger.—Adv.

## FEEDING THE ORCHARD TREE

One Central Thought—We Cannot Continually Take From Soil Without Giving Back Something.

(By BESSIE L. PUTNAM.)  
Said a successful farmer recently: "I have lots of nice apples, and I believe that my success is largely due to the fact that I do not neglect to feed my trees. There is Blank, with a large orchard next to mine. But his soil has run out, and now he wants to buy the fruit from two or three of my trees."

This man had his own ideas, too, about the renewing of the soil. De-testing the nuisance of cornstalks in the stable, he used the orchard for a feeding ground in the late fall, and the result was that the added fertilizing element keeps the ground in good condition.

"This year," he says, "I overdid the matter. Look at the nice crop of ragweed started." We wondered why so

Protection for Young Fruit Trees This Fall.

careful and observing a man had allowed the weed crop to mature. But he assures us that when about to cut it he hesitated, fearing that the stalks would pierce any apples which chanced to fall. And now, at picking time, he finds that the weeds act as a cushion protecting the falling fruit and rendering it scarcely less perfect than that which is hand-picked.

Each individual should work out his own problems for himself, as this man has done; but in any case there is still the central thought—we cannot continually take from the soil without giving something in return.

## EXPERIMENT WITH PIG FEED

Results of Tests Made at Kansas Agricultural College Embodying Work of Three Years.

Weanling pigs weighing about forty-five pounds at the Kansas Agricultural college were fed: One lot on corn alone and another on corn and alfalfa pasture, in summer, and alfalfa hay in winter. President Waters showed the results of the experiments, embodying the work of three years, with charts and photographs and lantern slides. In every case the pigs were put into the experiment at weaning time weighing about forty-five pounds, being March pigs.

The experiment began about July 1. In each experiment one group fed on corn alone in a dry lot did not thrive. At least one pig died each year of what the veterinary experts declared to be starvation, notwithstanding the fact that they were offered all the corn they would eat. When pigs on other rations were weighing 250 pounds each and were fat and ready for market, the pigs on corn alone, were thin and scrawny, weighing forty or sixty pounds.

## POULTRY NOTES

In mating for market poultry select the best breasted birds.

Summer or winter, the birds should have plenty of roosting space.

Success with poultry depends more on good care than on the breed.

Trust an old hen to know exactly where she ought not to scratch.

Compare your poultry with that shown at the agricultural fair and see if yours can be improved.

Don't keep a lot of young or old male birds in the flock to worry the rest of the birds and to eat expensive grain.

Fowls should be killed just before they begin to moult, for when they begin to shed their feathers they begin to lose flesh.

It is poor economy to feed the poultry on one kind of grain. It is more profitable in every way to give variety, of which corn, wheat and oats should be the leading feeds.

## TREATMENT FOR HARD SOILS

Where Land is Difficult to Work It Should Receive Careful Attention—One Good Method.

Often the different kinds of soils are found on the same farm and the best results cannot be obtained, as far as crop returns are concerned, by a uniform method of cultivation and irrigation. The soil that is hard and difficult to work should receive most careful attention, not only from the standpoint of cultivation, but also in the method of irrigation.

It is not always profitable to attempt a perennial crop on soil that is hard to work and irrigate—the yield is usually low, due to the resistance to root development and scarcity of plant food; also to the shallow depth of the irrigation which in turn causes the root system to develop near the surface and make the crop susceptible to drought.

Deep plowing, with a liberal application of manure or straw, will be found beneficial. The decay of the organic matter will leave the soil more or less porous and allow the moisture access to the lower soil; root development will be more complete and the crop will stand drought better.

The cultivation of sugar beets on hard soil will, if properly handled, bring the field eventually into proper tilth. Furrow irrigation will not allow the soil to bake; deep cultivation of the crop will be found beneficial; the tap root of the beet will have a tendency to open up the soil below the plow sole; the decayed tap root after harvest will leave the lower soil more or less porous, and hence increase the capacity of the soil for the storage of moisture.

## BUSINESS OF DAIRYING PAYS

Time That Dairyemen Took Hold of Matter to Raise the Standard of Dairy Intelligence.

(By S. VAN AKEN.)

There is a sentiment abroad that dairying is becoming unpopular with many, and there is less inclination among young men to engage in it. If this be so, it is time dairyemen took hold of this matter to raise the standard of dairy intelligence and education up to the point where it will be popular. The door must be opened to the boys and girls of this country so invitingly, with so much of interest and profit in sight, that they will without question become our future citizen farmers.

We cannot expect much change in those with settled opinions. While we may not change much, we have it in our power to promote and institute a change, and uplift, that shall be a power for good to those who come after us. The door must be opened wide, and the light made so clear it will be recognized that getting a start and winning success in life does not imply that one must leave the farm. It must be shown that a man may by intelligent practice have a farm, high producing dairy stock, and may know about feeds and feeding and produce the best; but it implies study, comparison, and gathering the best information and applying it.

The man who refuses to educate and broaden his mind along his business, who pins his faith to the reckon

Up-to-Date Dairy Farm of Ex-Vice-President Levi P. Morton on the Hudson River.

and guess, will always be found milking mixed-bred cows, in which the failures are the most prolific; will be feeding everything if it is cheap, and believing that all failures are due to the factory and market end of his business. As one has expressed it, too many men go through life mistaking their gizzards for their heads. The moment a man sees and puts into practice the idea that he can cheapen the cost and increase the excellence of an article, that moment he has opened the door to enlarged opportunities.

## For Warts on Calves.

For the warts apply nitrate of silver in stick form. Rub gently each day and they should, in a short time, go away.

Nitrate of silver applied in the same way to where the horns appear until the blood just comes, will stop the horns growing, but this must be done within ten days of the birth of the calf. Begin the application on the third day.

## Water for Wheat.

If an inch of water is worth two and one-half bushels of wheat to the acre, and the farmer wants to average 25 bushels of wheat, his problem is to secure and place at the disposal of his wheat plants, just ten inches of water. Simple isn't it. It's just a matter of arithmetic—and using one's intelligence.

## Sunflowers of Value.

Next spring plant a little patch of sunflower seed. The great plants make good shade and the seeds are much relished by the chickens.

# IS CHILD CROSS, FEVERISH, SICK

Look, Mother! If tongue is coated, give "California Syrup of Figs."

Children love this "fruit laxative," and nothing else cleanses the tender stomach, liver and bowels so nicely.

A child simply will not stop playing to empty the bowels, and the result is they become tightly clogged with waste, liver gets sluggish, stomach sour, then your little one becomes cross, half-eick, feverish, don't eat, sleep or act naturally, breath is bad, system full of cold, has sore throat, stomach-ache or diarrhoea. Listen, Mother! See if tongue is coated, then give a teaspoonful of "California Syrup of Figs," and in a few hours all the constipated waste, sour bile and undigested food pass out of the system, and you have a well child again. Millions of mothers give "California Syrup of Figs" because it is perfectly harmless; children love it, and it never fails to act on the stomach, liver and bowels.

Ask at the store for a 50-cent bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and for grown-ups plainly printed on the bottle. Adv.

## Finance as She Is Wrote.

To add to troubles of the Wall street man forced to spend his summer in the city comes the necessity of employing a substitute-stenographer in vacation season. Wall street dictation is hard enough for the regular stenographer; the substitute finds it next to impossible.

The employer of one of the substitutes not long ago tried to be particularly careful and distinct in his dictation. Nevertheless, "controller of the currency" emerged as "comptroller of the corn belt." A remark about the drought district in Kansas was interpreted as "grouch in Kansas." Reverting to money matters again, the employer talked about taking bullion into the Bank of England, and the copy showed that bouillon soup had been taken into the bank.

Right there the bell rang for a new typist.—Wall Street Journal.

## Signatures on Paintings.

Experts rarely rely on signatures alone to determine the authenticity of an old painting, but trust rather to their knowledge of the painter's technique. Sometimes the painter's name is found in a conspicuous place, as for instance, in Raphael's "Sposalizo" at Milan.

Proud of having surpassed his master the youthful genius wrote on a frieze in the very center of the canvas, "Raphael Urbinas."

Reynolds hardly ever signed his work. But upon the completion of the portrait of Mrs. Siddons as "The Tragic Muse," he wrote his name large on the gold embroidery of her dress. He was unable, he said, "to resist the temptation of sending my name to posterity on the hem of your garment."

## He Obeyed.

Willie was struggling through the story in his reading lesson. "No, said the captain," he read, "it was not a sloop. It was a larger vessel. By the rig I judged her to be a-a-a-a."

"Barque!" repeated the teacher, this time sharply. Willie looked as though he had not heard aright. Then with an apprehensive glance around the class he shouted:

"Bow-wow!"

## Gretna Green Ceremony.

A young couple who arrived at Berwick the other Sunday were married after the Scottish fashion in a delightfully simple way.

They drove over the border into Scotland, and stopping at a spot where two men were seated, the young man said that he and the lady wished to be married and that they could not adopt the conventional method, as it would be stopped directly the banns were put up.

The couple then formally took each other for man and wife before the two witnesses, and a document to that effect was produced and signed by the parties and the witnesses.

# Women of Middle Age

## From 40 to 50 Woman's Critical Period.

Such warning symptoms as sense of suffocation, hot flashes, severe headaches, melancholia, dread of impending evil, palpitation of the heart, irregularity, constipation and dizziness are promptly treated by intelligent women who are approaching the period of life.

This is the most critical period of woman's life and she who neglects the care of her health at this time invites incurable disease and pain. Why not be guided by the experience of others and take Lydia E. Pinkham's Vegetable Compound? It is an indisputable fact that this grand old remedy has helped thousands of women to pass through this trying period with comfort and safety. Thousands of genuine and honest testimonials support this fact.

## From Mrs. HENRY HEAVILIN, Cadiz, Ohio.

Port Worth, Texas.—"I have taken Lydia E. Pinkham's Vegetable Compound and derived great benefit from its use. It carried me safely through the Change of Life when I was in bad health. I had that all gone feeling most of the time, and headache constantly. I was very nervous and the hot flashes were very bad. I had tried other remedies and doctors, but did not improve until I began taking Lydia E. Pinkham's Vegetable Compound. It has now been some time since I took the Compound and I have had no return of my old complaints. I always praise your remedies to weak women."—Mrs. HENRY HEAVILIN, R. F. D. No. 5, Cadiz, Ohio.

## From Mrs. EDWARD B. HILBERT, Fleetwood, Pa.

Fleetwood, Pa.—"During the Change of Life I was hardly able to be around at all. I always had a headache and I was so dizzy and nervous that I had no rest at night. The flashes of heat were so bad sometimes that I did not know what to do.

"One day a friend advised me to take Lydia E. Pinkham's Vegetable Compound and it made me a strong, well woman. I am very thankful that I followed my friend's advice, and I shall recommend it as long as I live. Before I took the Compound I was always sickly and now I have not had medicine from a doctor for years. You may publish my letter."—Mrs. EDWARD B. HILBERT, Fleetwood, Pa.
