

MRS. LYON'S ACHES AND PAINS

Have All Gone Since Taking
Lydia E. Pinkham's Veg-
etable Compound.

Terre Hill, Pa.—"Kindly permit me to give you my testimonial in favor of Lydia E. Pinkham's Vegetable Compound. When I first began taking it I was suffering from female troubles for some time and had almost all kinds of aches—pains in lower part of back and in sides, and pressing down pains. I could not sleep and had no appetite. Since I have taken Lydia E. Pinkham's Vegetable Compound the aches and pains are all gone and I feel like a new woman. I cannot praise your medicine too highly."—Mrs. AUGUSTUS LYON, Terre Hill, Pa.

It is true that nature and a woman's work has produced the grandest remedy for woman's ills that the world has ever known. From the roots and herbs of the field, Lydia E. Pinkham, forty years ago, gave to womankind a remedy for their peculiar ills which has proved more efficacious than any other combination of drugs ever compounded, and today Lydia E. Pinkham's Vegetable Compound is recognized from coast to coast as the standard remedy for woman's ills.

In the Pinkham Laboratory at Lynn, Mass., are files containing hundreds of thousands of letters from women seeking health—many of them openly state over their own signatures that they have regained their health by taking Lydia E. Pinkham's Vegetable Compound; and in some cases that it has saved them from surgical operations.

For Beach or Swimming Pool

THE children must be taught to swim, as they must be taught to breathe fresh air or to read and write. Swimming is not a negligible part of their training, and they take to water like little ducks.

The three suits shown in the illustration are suited to girls of all sizes. That on the nearly grown miss at the center might be made for a youthful but grown-up woman. But these models are for children and young girls.

The tiny miss at the left has on a simple and sensible garment, which is a yoke to which a bifurcated skirt is plaited. The skirt is bifurcated at the middle, forming bloomers that are drawn into the legs about the knee with elastic cord. The garment is cut long enough so that the bloomers fall over the knees.

There is a white collar and four-inch hand tie, and the short sleeves are finished with bands of white. The shoulders are very long, and the sleeves reach a little below the elbow.

Mohair is about the best material for these suits, because it sheds the water readily and is very durable. No matter how wet it becomes it does

not stick to the limbs and it dries out very quickly.

The little half-grown girl of eight has on a two-piece suit trimmed with bands of braid. There is an all-in-one underbodice and bloomers and an outer frock with broad sailor collar and very short sleeves. For lanky little, fast-growing bodies, inclined to spindling thinness, this is a fine model.

The older sister is more smartly dressed in a suit of silk with plain sailor waist and shaped skirt trimmed with silk braid. There is a broad sailor collar of the silk trimmed with silk buttons and simulated buttonholes of silk cord. A pair of short close-fitting pants are worn with this suit, and the skirt is slightly weighted.

The very clever caps hardly need description. Those of the little girls are made of rubberized cloth, and that of the older girl of waterproofed silk. This last is a wonderfully clever model made of an oblong strip of goods folded into shape and machine stitched. It shades the eyes and manages to be becoming, which is greatly to the credit of the designer.

Modish Gown for Sweet Sixteen

REFINEMENT marks this quiet and pretty gown that has been designed for the young miss from sixteen to twenty. It is of chiffon taffeta in ciel blue, made up with net in the same color, decorated with white embroidery.

It is a party gown, and the underskirt, although hanging in to the figure, is full enough for dancing.

The underskirt is of chiffon or of the thinnest of silks or silk muslin. These materials allow of considerable fullness without being bulky. Accordion plaited silk muslin under-petticoats achieve the same favorable points for dancing gowns, but when lace or net flounces are to be gathered on to the petticoat, the fullness is made by gathering the silk.

Two flounces of the embroidered net are set on to the petticoat of silk muslin.

feta in blue, fitted in to the figure by gatherings at the waist line. It is caught up in plaits at the back and at the middle of the front. There is a plain, wide, looped-up sash of the taffeta at the back, and the lower part of the drapery is cut away at the left side and hemmed into a sash end terminating in a point. This is drawn through a silk-covered buckle which serves a double purpose. It makes a pretty finish and weights the overskirt or draped tunic.

There is an underbodice of silk muslin with overdrape of the taffeta and sleeves of the embroidered net. The round neck is finished with a fringe of soft fine lace across the front and a row of tiny buttons in black, tipped with the smallest of rhinestone settings. This note of black is repeated in the plain girdle of wide black velvet ribbon.
