Your Flag and My Flag

Your Flag and my Flag! And oh, how much it holds-Your land and my land—secure within its folds! Your heart and my heart beat quicker at the sight; Sun kissed and wind tossed, red and blue and white. The one Flag the great Flag the Flag for me and you-Clorifies all else beside the red and white and blue!

Your Flag and my Flag! And how it flies today In your land and my land and half a world away? Rose-red and blood-red the stripes forever gleam; Snow-white and soul-white—the good forefathers dream; Sky-blue and true blue, with stars to gleam aright The gloried guidon of the day; a shelter through the night.

Your Flag and my Flag! To every star and stripe The drums beat as hearts beat and fifers shrilly pipe! Your Flag and my Flag—a blessing in the sky; Your hope and my hope—It never hid a lie! Home land and far land and half the world around, Old Glory hears our glad salute and ripples to the sound!

HAD TO WAIT FORTY DAYS

Long Time Before all heavily manned, it was believed that the Americans would be cowed **England Got News** of the Battle of Lexington

T SEEMS strange in these days away Europe is cabled to America cur-when flying machines equipped brought into view and king and subwith machine guns are fighting each other in the clouds-when advocates of preparedness are arguing that the ocean is no barrier to a foreign foe because of the swiftness of their first sailing vessel to arrive from the steam cruisers-to hark back to the battle of Lexington, April 19, 1775, and try to realize the length of time it at this early day journalism had required for the news of that conflict shown its superiority over governto reach England.

There were no telegraph wires, no telephone, no dispatch boats or "special correspondents" with each regiment. A steam vessel had not then been dreamed of. There were no cables, no flying machines, no machine guns. Only sailing vessels, of small size, were available to cross the ocean, and as a consequence it took a long, long time for the shot to be "heard around the world."

Dependent on Salling Ships.

Journalism in America was then in its swaddling clothes. The race of the enterprising journalist to outfoot fleet-footed Time had not then begun. There was not the intense rivalry of today between metropolitan papers, with their specials and war extras-to say nothing of baseball extras. There was, too, a similar lack of activity on the part of editors in London.

The newspapers in Boston and other nearby towns at that time were published weekly, usually on Monday. News of sanguinary events, if they occurred during the week, was necessarily held for publication until the following Monday. It was not surprising, therefore, that the news of the battles of Lexington and Concord was not printed in Boston until April 25-for the idea of issuing an "extra" in such emergencies was not then in vogue.

In the Essex Gazette.

The Essex Gazette, published at Salem, had by far the best report of the events of the day, with an almost complete list of the killed and wounded. The news of this first encounter between the provincials and his majesty's troops was many hours in reaching the other colonies, although post riders and expresses were started immediately for Hartford, New York, Philadelphia and the South.

In two days nearly all the scattered peoples of the young nation had been informed of the result, and the spirit of the hour had inspired the raising of troops.

Day succeeded day. March became April, and April in turn was left behind in the rush of time. May grew old, with no word of decisive action from the colonists.

The citizens of Berea were "more noble" and have continued to this day as a great inspiration to Bible students (witness the Berean series of lesson helps). Much of our present day Bible study is interesting and enlightening, but is not energizing nor evangelistic because it looks upon the Bible merely as literature.

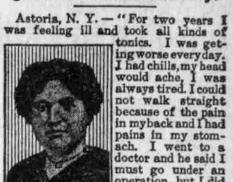

We need to study the Bible as did the Bereans to know love and obey Jesus as our Savior and king. We need to study it as our guide

and counsel through life. Those who "believed" as the result of such preaching and study were

well grounded (I Thess 3:10). After several weeks of such blessed ministry the Thessalonian Jews in terfered, "stirring up and troubling the multitude" (v. 14 Am. B. V.), and Paul again moved on, this time to Athens in Greece while Silas and Tim-
