

# CALOMEL SICKENS! IT SALIVATES! DON'T STAY BILIOUS, CONSTIPATED

I Guarantee "Dodson's Liver Tone" Will Give You the Best Liver and Bowel Cleansing You Ever Had—Don't Lose a Day's Work!

Calomel makes you sick; you lose a day's work. Calomel is quicksilver and it salivates; calomel injures your liver.

If you are bilious, feel lazy, sluggish and all knocked out, if your bowels are constipated and your head aches or stomach is sour, just take a spoonful of harmless Dodson's Liver Tone instead of using sickening, salivating calomel. Dodson's Liver Tone is real liver medicine. You'll know it next morning because you will wake up feeling fine, your liver will be working, your headache and dizziness gone, your stomach will be sweet and your bowels regular. You will feel like working. You'll be cheerful; full of vigor and ambition.

Your druggist or dealer sells you a 50-cent bottle of Dodson's Liver Tone

under my personal guarantee that it will clean your sluggish liver better than nasty calomel; it won't make you sick and you can eat anything you want without being salivated. Your druggist guarantees that each spoonful will start your liver, clean your bowels and straighten you up by morning or you can have your money back. Children gladly take Dodson's Liver Tone because it is pleasant tasting and doesn't gripe or cramp or make them sick.

I am selling millions of bottles of Dodson's Liver Tone to people who have found that this pleasant, vegetable, liver medicine takes the place of dangerous calomel. Buy one bottle on my sound, reliable guarantee. Ask your druggist or storekeeper about me. Adv.

## Stop That Ache!

Don't worry about a bad back. Get rid of it. Probably your kidneys are out of order. Resume sensible habits and help the kidneys. Then, kidney backache will go; also the dizzy spells, lameness, stiffness, tired feelings, nervousness, rheumatic pains and bladder troubles. Use Doan's Kidney Pills. Thousands recommend them.

### A South Carolina Case

Mrs. L. F. Taylor, Ford St., Mullins, S. C., says: "My back ached and pained right across my kidneys. The secretions from my kidneys passed irregularly and contained sediment. I had attacks of kidney colic and suffered awfully. Friends recommended Doan's Kidney Pills and I used some. They relieved all symptoms of kidney trouble and I am glad to recommend them."

# The HOME BEAUTIFUL

Flowers and Shrubbery  
Their Care and Cultivation

A Pretty Home Surrounded With Flowers and Trees.

## BEAUTIFYING THE HOME GROUNDS

By L. M. BENNINGTON.

If you want your bed of cannas or border of caladiums to make a grand showing from now to frost, give them a frost-like covering of bonemeal; then stir the soil, water thoroughly and mulch with lawn clippings. Do this toward the end of this month and be sure to remove the fading flowers.

Copy nature by sowing seeds of perennials as they ripen. Provide some sort of shade for the seed bed. A screen made of lath or one of unbleached muslin will answer.

The robust-growing plants will need some sort of support. Let the supports be painted green or oiled to bring out the grain of the wood and you will find them more pleasing than rough sticks and far more satisfactory. Drive the stakes fast into the earth a little lower than the plants, so that they are inconspicuous.

The plants needing supports are such hardy perennials as delphiniums, giant foxglove and snapdragons. Do not overlook giving stakes to the dahlias, cosmos, hydrangeas and gladioli.

To maintain continuous blooming from now until frost, a few perennials must be preserved. Make a habit of cutting flowers freely and remove all the fading blossoms and nature will reward you with a lavish hand.

After this month, allow the chrysanthemums to grow according to their own will—that is, stop pinching them back.

## TROUBLE WITH ASTERS

By GODFREY FRY.

The maggot is a deadly enemy of the aster. Look out for it and guard against it. Work wood ashes into the earth about the plants and remove a little of the soil about the base of each plant and scatter tobacco dust liberally around them.

Wood ashes are one of the best remedies and a change of location of the aster bed each year is another wise move.

The black beetle is another pest that does deadly work with the aster plants. This pest comes suddenly and does ruinous work in a very little while. When you see the first beetle use the following emulsion liberally

All the Irises Are Beautiful and Hardy and There Are Many Varieties of Colorings.

all over the plant, and repeat the application frequently.

One half pound of any good soap, Ivory or other white soap, reduced to a liquid by melting.

One teacupful of kerosene.

Let the soap with a little water come to a boil. Add the kerosene. Stir the mixture vigorously while cooling. Use one part of this to ten parts of water. Be sure the water and the emulsion are united then use a spray.

## GARDEN NOTES

Tulips increase by bulblets which issue from the side of the larger bulbs. Under certain conditions, too, the larger bulbs split up into smaller ones.

In a well-drained, sunny bed the bulbs will live and increase from year to year, but should be lifted, divided and reset every third year, as the clumps become too much crowded to thrive and bloom.

In potted lilies, set the bulbs two inches or more beneath the soil. The larger the pot, the larger will be the plant.

Auratum, Speciosum, Longiform and Brownii are all suitable for pot culture.

After potting, water and set in a dark closet or cellar, keeping the soil moist until roots form and the tops start, when the roots may be brought to a cool window, say in January or February, if early started.

## IRIS

Take some strong clumps of iris, about two or three years old and not too large. Leave the earth on them and take them up just before the ground freezes and put them in large pots in a cool cellar. If they do freeze it will not hurt them, but see that the frost comes out gradually.

Bring them up to the light and put them in a southern exposure and they will flower during February and March. If white ones are planted beautiful Easter flowers will be provided. With care iris will bloom almost half the year. The flowers grown in the house are more delicate and beautiful than if grown out of doors.

Other winter flowers are expensive, but these can be secured at little cost, and when once started one can get them from one's own garden.

Experiment with irises this fall; you will get pleasure and profit from it.

## Anatomy From Experience.

The former big league baseball manager, who had been canned because the team finished last as usual, was taking a civil service examination in order to secure a political job. He was amazed at the list of fool questions on the examination paper. He didn't know the distance from the earth to the moon, so he passed that one up. And he could not describe a syzygy, so he called that test a loser. But the third question interested him. It said:

"Name the largest bone in the human frame."

And with a grin of confidence the former manager wrote this answer: "The head."—Cincinnati Enquirer.

A somewhat befuddled individual, who evidently had been lurching a trifle too freely, climbed on board the car with difficulty.

"Oh, you must have known it, or you wouldn't have stopped to let me catch it," said the befuddled one.

## Save the Babies.

INFANT MORTALITY is something frightful. We can hardly realize that of all the children born in civilized countries, twenty-two per cent., or nearly one-quarter, die before they reach one year; thirty-seven per cent., or more than one-third, before they are five, and one-half before they are fifteen!

We do not hesitate to say that a timely use of Castoria would save a majority of these precious lives. Neither do we hesitate to say that many of these infantile deaths are occasioned by the use of narcotic preparations. Drops, tinctures and soothing syrups sold for children's complaints contain more or less opium or morphine. They are, in considerable quantities, deadly poisons. In any quantity, they stupefy, retard circulation and lead to congestions, sickness, death. Castoria operates exactly the reverse, but you must see that it bears the signature of Chas. H. Fletcher. Castoria causes the blood to circulate properly, opens the pores of the skin and allays fever.

Genuine Castoria always bears the signature of *Chas. H. Fletcher*

## DIFFERENT STRAIN OF BOYS

Little Story Shows Why It Is That Some Succeed in Life While Others Don't "Make Good."

Two boys left home with just money enough to take them through college. They both did well at college, took their diplomas in due time, and got from members of the faculty letters to a large shipbuilding firm with which they desired employment. When the first boy was given an audience with the head of the firm, he presented his letters.

"What can you do?" asked the president.

"I should like some sort of a clerkship."

"Well, sir, I will take your name and address, and if we have anything of the kind I will write to you."

The other boy then presented himself and his papers.

"What can you do?" the president asked him.

"Anything that a green hand can do, sir," was the reply.

The president touched a bell that called a foreman, and the college graduate went to sorting scrap iron. A week passed, and the president, meeting the superintendent, asked, "How is the new man getting on?"

"Oh," said the superintendent, "he did his work so well that I put him over the gang."

In two years that young man was the head of a department, and on the way to a salary larger probably than his friend will ever earn.—Youth's companion.
