

**PROGRESS OF  
PLYMOUTH  
AND  
WASHINGTON COUNTY**

**New Brick Stables.**

The old Nurney Blacksmith Shop, which has been an eyesore to the town for ages, is being torn down, and a modern brick stables will be erected on the spot by J. S. Shugar. This new building will occupy a space of 40x80 feet, and will be built in the most modern and improved manner.

The contract has been let to Mr. R. P. Walkey, and the roof will be covered with Edward's Metal Roofing.

**Hose and Reel Stations.**

The city fathers have decided to erect two hose and reel stations on Third Street. One at the junction of Adams and Third; the other on the corner of Monroe and Third.

These stations will be equipped with a modern fire-fighting apparatus, and will be a valuable precaution.

**New Post Office Almost Completed.**

In just a few more days the local post office will move into its new quarters in the Harney Building. Fixtures are being installed as fast as possible and present indications show that we are to have one of the neatest and best appointed post offices in any town this size in the state.

Our splendid little neighbor, Roper, realizing the health value of pure Artesian water, is drilling another well on the corner of Main Street, near the Ford garage.

**NOTICE**

By virtue of authority vested in me by a certain mortgage executed by Robert Sitte, son on the 24 day of August, 1915, I shall on Monday, September 25, 1916, at 12 o'clock M., expose to public sale at the Court House door in Plymouth, N. C., to the highest bidder for cash the following described tract or parcel of land, lying and being in the County of Washington, Plymouth Township, and known and designated as follows:

One house and lot known as the Stewart Allen place, beginning at the south-east corner of Ernest S. Clifton's lot on the main road from Plymouth to Roper, thence south along said road 100 feet to D. O. Brinkley's line, thence westwardly with his line 200 feet, thence northwardly with D. O. Brinkley's line 100 feet to E. S. Clifton's line, thence eastwardly along his line 200 feet to the beginning, containing one lot 100 by 200 feet. This 24 day of Aug. 1916.

# When you buy a CHEVROLET

**\$525**

(DELIVERED)

## You are Really Buying the Lowest Priced Electrically Equipped Car on the Market

For if the new Chevrolet were bought by you without modern equipment, at factory price and then equipped afterward it would cost you at retail prices:

### FOR-

the starter and electric lights	\$125
the speedometer	15
the freight	35
<b>Total</b>	<b>\$175</b>

Then if you could purchase it with inferior material you would save:

### ON-

the top	\$15
the fenders	10
the body	50
the windshield	8
the horn	2
springs cantilever	10
<b>Total</b>	<b>\$95</b>

These two totals amount to \$270 which means when deducted from \$525 [the Chevrolet delivered price] means that such an equipped car would cost you \$255.

But you don't buy a Chevrolet that way—we don't sell them that way.

When you buy a Chevrolet you get a modern, completely equipped car of graceful design, attractive appearance, easy riding qualities and a superb, proven mechanism. You get a regular automobile, a complete car—for a low price—the lowest price for an electrically equipped car in America.
