Appreciation.

The members Rehoboth Methodist Church and Sunday School wish to return their grateful thanks and appreciation to the friends of Plymouth and Roper who responded so beautifully to the invitation to attend the picnic held at the church last Wednesday, the 20th. It had been so long since friends from such a distance had attended any special occasion here, their presence was such a delightful surprise.

The fitting remarks in behalf of the Sunday School by Mr. W. F. Ausbon were a great stimulus, which made us feel doubly repaid for the effort to keep this institution alive.

To all of these friends we extend a welcome at any time, and in the future will let you know when similiar preparations are made for your enjoyment.

If you will just assure us of your coming our house-keepers will make greater preparations for the table, and fully convince you that the old-time reputation for hospitality, etc., in and around this church is being fully restored.

Just one year
 Chalmers was
 September
 sary Day.

It was un-
 looked a little
 was different
 of four man knew what it could
 do.

These four men—the men who had dreamed the car—had little to say.

"What will it do?" they were asked.

"Get in and try," they replied.

And in three days' time every last Chalmers executive had experienced a thrill that was new behind the wheel.

They banged it around in city traffic, abused it on hills, ran it through broken fields, made it take hurdles they would never ask their own personal cars to take.

They were amazed and then they sat down and decided to build three times as many of these cars as they had ever built of any model in a single year before—\$22,000,000 worth.

business in a single model
 you see why we are proud to have a birthday party for the car.

Any car that has 50,000,000 happy miles of use behind it certainly has an interesting history and its birthday anniversary is an event.

Remember this is only its first birthday. So successful has the car proven that the Chalmers Company is continuing to build it right through into next year. So you're safe in getting a car now that won't be obsolete in the spring.

Consider the price, \$1090 Detroit.

Come in today. Attend the birthday party.
