

CALOMEL IS MERCURY, IT SICKENS! STOP USING SALIVATING DRUG

Don't Lose a Day's Work! If Your Liver Is Sluggish or Bowels Constipated Take "Dodson's Liver Tone."—It's Fine!

You're bilious! Your liver is sluggish! You feel lazy, dizzy and all knocked out. Your head is dull, your tongue is coated; breath bad; stomach sour and bowels constipated. But don't take salivating calomel. It makes you sick, you may lose a day's work. Calomel is mercury or quicksilver which causes necrosis of the bones. Calomel crashes into your bile like dynamite, breaking it up. That's when you feel that awful nausea and cramping.

If you want to enjoy the nicest, gentlest liver and bowel cleansing you ever experienced just take a spoonful of harmless Dodson's Liver Tone. Your druggist or dealer sells you a 50-cent bottle of Dodson's Liver Tone under my personal money-back guarantee that each spoonful will clean your

sluggish liver better than a dose of nasty calomel and that it won't make you sick.

Dodson's Liver Tone is real liver medicine. You'll know it next morning because you will wake up feeling fine, your liver will be working, your headache and dizziness gone, your stomach will be sweet and your bowels regular. You will feel like working; you'll be cheerful; full of vigor and ambition.

Dodson's Liver Tone is entirely vegetable, therefore harmless and cannot salivate. Give it to your children! Millions of people are using Dodson's Liver Tone instead of dangerous calomel now. Your druggist will tell you that the sale of calomel is almost stopped entirely here.—Adv.

Protect the Children.

Alaska has forbidden the employment in underground mines of boys under sixteen.

Crude.

Natural Suggestion.

"The accounts says that the new Emperor Karl was deeply touched at the first interview with his ministers of state."

"Great Scott! Did they try to borrow from him that quick?"

A magazine has been patented for carrying an extra load of tobacco along the stem of a pipe.

THOUSANDS HAVE KIDNEY TROUBLE AND DON'T KNOW IT

Weak and unhealthy kidneys cause so much sickness and suffering and when through neglect or other causes, kidney trouble is permitted to continue, serious results may be expected.

Your other organs may need attention—but your kidneys should have attention first because their work is most important.

If you feel that your kidneys are the cause of your sickness or run down condition commence taking Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy, because if it proves to be the remedy you need and your kidneys begin to improve they will help all the other organs to health.

Prevalency of Kidney Disease.

Most people do not realize the alarming increase and remarkable prevalence of kidney disease. While kidney disorders are among the most common diseases that prevail, they are almost the last recognized by patients, who usually content themselves with doctoring the effects, while the original disease constantly undermines the system.

SPECIAL NOTE—You may obtain a sample size bottle of Swamp-Root by enclosing ten cents to Dr. Kilmer & Co., Binghamton, N. Y. This gives you the opportunity to prove the remarkable merit of this medicine. They will also send you a book of valuable information, containing many of the thousands of grateful letters received from men and women who say they found Swamp-Root to be just the remedy needed in kidney, liver and bladder troubles. The value and success of Swamp-Root are so well known that our readers are advised to send for a sample size bottle. Address Dr. Kilmer & Co., Binghamton, N. Y. When writing be sure and mention this paper.

A Trial Will Convince Anyone.

Thousands of people have testified that the mild and immediate effect of Swamp-Root, the great kidney, liver and bladder remedy, is soon realized and that it stands the highest, for its remarkable results in the most distressing cases.

Symptoms of Kidney Trouble

Swamp-Root is not recommended for everything but if you suffer from annoying bladder troubles, frequently passing water night and day, smarting or irritation in passing, brick-dust or sediment, headache, backache, lame back, dizziness, poor digestion, sleeplessness, nervousness, heart disturbance due to bad kidney trouble, skin eruptions from bad blood, neuralgia, rheumatism, lumbago, bloating, irritability, worn-out feeling, lack of ambition, may be loss of flesh or sallow complexion, kidney trouble in its worst form may be stealing upon you.

Swamp-Root is Pleasant to Take.

If you are already convinced that Swamp-Root is what you need, you can purchase the regular fifty-cent and one-dollar size bottles at all drug stores.

Inconsiderate Biddies.

L, Boston. Sold everywhere.—Adv.

Social Rivalry.

A woman's idea of a social rival is another woman who wears better clothes than she can afford.

It must be a great relief to some men when their wives become widows.

PROFIT RECEIVED FROM SWEET POTATOES

SWEET POTATO WITH ONE END PARTIALLY DECAYED.

(Prepared by the United States Department of Agriculture.)

The profit to be received from growing sweet potatoes will be determined largely by the degree of care with which the crop is harvested and stored. Any bruising of the roots, either in the field or in the storehouse, or the maintenance of improper temperatures in the latter, will facilitate rot and so will greatly increase the percentage of loss.

Sweet potatoes should not be dug until they are mature. Then care should be taken in plowing them out to avoid all bruising by contact between the implements used and the roots. The soil should then be scratched away from the potatoes and they should be left exposed for several hours to dry. Picking should be in padded boxes, baskets, or crates. The roots should be carefully placed, not thrown into the picking receptacles. Although sweet potatoes do not have the appearance of being easily injured, they require, in fact, as careful handling as oranges and apples.

Handling should be minimized to as great an extent as possible. This makes desirable a rough sorting in the field by placing the largest potatoes in one picking container, the smallest in another, and the bruised roots in a third. In no case should sacks be used either as temporary containers or for marketing purposes. Diseased potatoes should be placed in none of the assortments. Such roots should not be left permanently in the field, however, to contaminate the soil, but should be gathered and fed to pigs.

Storage Facilities.

Proper storage facilities are valuable to the grower in that they do away with the necessity of selling the crop on digging, greatly lessen the heavy losses sustained when the primitive storage method of burying the potatoes is employed, and permit holding for good prices in winter or spring. A special storage house, such as many southern farmers have built, is advocated by the department specialists. Such a structure with a capacity of 1,000 to 2,500 bushels can be built at a cost of from \$100 to \$500, depending on the availability of lumber and other material. The storage house should have double walls to insulate against heat and cold and a false floor to facilitate ventilation. A stove should be installed for supplying artificial heat. If bins are used, they should have slatted sides, further to facilitate a circulation of air.

Sweet potatoes may be satisfactorily stored in bins, but where economically

Spot of Black Rot.

practicable it is advisable to store in crates or hampers, since such a practice reduces pressure on the roots, permits better ventilation, and confines such rotting as may start to a relatively restricted space. In some sections the potatoes are stored in the hampers in which they are to be marketed, being removed just before shipment and resorted.

Disinfecting Receptacles.

Where storage is to be in bins or other receptacles these should if they have been used before, be thoroughly disinfected by spraying with solutions of formalin or copper sulphate. The former should be used in the proportion of one pint to 30 gallons of water. The copper sulphate should be used at the rate of one pound to 25 gallons of water. With either solution a second spraying should be given after 24 hours.

Storage Temperature.

When first placed in the storage house sweet potatoes should be cured by being kept, by the use of a fire, in a temperature of from 80 to 90 degrees Fahrenheit. This curing temperature should be maintained for from ten days to two weeks and should then be gradually reduced to about 55 degrees, and kept at as near this point as possible. After this, the ventilators should be left open during the day in clear, warm weather, and kept closed during the nights and in damp or rainy weather. When the temperature in the house goes below 50 degrees Fahrenheit, the house should be opened if the outside temperature is higher, or a fire should be started to raise the temperature to the desired point, since once the pota-

toes have become thoroughly chilled their quality is impaired and they are more susceptible to decay. In order to maintain the proper temperatures, farmers should install accurate thermometers in their storage houses. Further information on this subject may be obtained from Farmers' Bulletin No. 548.

STOCK RELISH SILAGE

Best and Cheapest Form of Succulent Feed in Winter.

Result of Experiments Conducted by Mississippi Station—Complete the Ration With Feeds Containing Much Protein.

(By T. W. MOSELEY, Texas Agricultural Experiment Station.)

Green feeds are more easily digested, keep the digestive system in better condition, and stimulate the appetite.

Silage is the best and cheapest form in which succulent feed can be provided for winter use, or in other words, it is "canned pasture."

A given amount of corn or kafir in the form of silage will produce more milk than the same amount when shocked and dried. The Mississippi experiment station has shown that cows

Prize-Winning Hereford.

fed silage produced 36.81 per cent more milk and 34.32 per cent more butterfat than when on dry feeds.

There is less waste in feeding silage than in feeding fodder. Good silage, if properly fed, is all consumed.

More stock can be kept on a given area of land when silage is the basis of the ration.

There is a smaller loss of food material when a crop is made into silage than when cured as fodder. The Colorado experiment station shows that corn when shocked in large shocks, lost 31 per cent of its feeding value; when in small shocks, it lost 43 per cent, and when allowed to remain in the field unharvested, 55 per cent. When the crop is put in a silo the loss need not exceed 5 per cent. It has been shown that 60 per cent of the feeding value of kafir is found in the heads and 40 per cent in the stalk. Put your kafir in a silo and save this 40 per cent.

Remember that, although silage is a splendid feed, it is not a complete ration. To get the best results, we must also feed some feeds which contain a large amount of protein, such as alfalfa hay, peanut hay or cotton-seed meal.

HORSES AND MULES FAVORED

Heavy Draft Animals Were Never in Greater Demand Despite Many Uses for Automobile.

The "horseless age" has not yet arrived, in spite of the many uses to which the automobile has been put. While there is not as much of a demand for driving horses as there used to be, medium and heavy draft horses were never in greater demand.

In Mexico the army mule refused to be supplanted by the auto truck, and the government is calling for a larger number of these patient, long-eared beasts.

LIME OF GREAT IMPORTANCE

Application Means More Humus and Heavier Yield of Money Crop and Profit to Farmer.

Lime is as essential to the upbuilding of American farms as is the use of good seed and teams. Too many of our fields are yielding light crops simply because there is not enough lime to permit the growing of soil-building crops.

More lime means better green manure crops, more humus, better storage of moisture, heavier yield of the money crop, and more profit for the farmer.

What would he give for the coffee you serve?

Like a million other women, you can serve coffee that he would give most anything to have—coffee which starts the day "right" for all.

Everyone loves the rich flavor of Arbuckles' Coffee. Of all the coffees in America today, it is by far the most popular!

One woman says: "My husband used to swallow his coffee and hurry off. Now we have Arbuckles' and you'd think it was Sunday the way he lingers over his breakfast."

Until you try Arbuckles' you will never know what a difference good coffee can make in your home.

Today there are whole towns where Arbuckles' is practically the only coffee used. In one State, alone, in a year, four pounds of Arbuckles' Coffee was used for every man, woman and child in the State—four times as many pounds of coffee as the population of the State! Arbuckle Bros., New York.

Lady Uses Tetterine for Eczema. Edge Springs, Mo., July 15, 1908. The Eczema on my face usually appears in the spring and your salve always helps it. I use no other preparation but Tetterine and find it superior to any on the market. Respectfully,
Elsie M. Judyvine.

Tetterine cures Eczema, Tetter, Itching Piles, Ring Worm and every form of Scalp and Skin Disease. Tetterine 50c; Tetterine Soap 25c. At druggists or by mail direct from The Shuptrine Co., Savannah, Ga.

With every mail order for Tetterine we give a box of Saurtrine's 100 Liver Pills free. Adv.

Cold Calculation. "Quality is more to be desired than quantity," said the man of artistic inclinations.

"Not always," replied the practical person. "A diamond is pure carbon. But you can't get the action from it that you can from a ton of coal."

TO PREVENT OLD AGE

COMING TOO SOON!

"Toxic poisons in the blood are thrown out by the kidneys. The kidneys act as filters for such poisons. If we wish to prevent old age coming too soon and increase our chances for a long life, we should drink plenty of pure water and take a little Anuric," says the famous Dr. Pierce of Buffalo, N. Y.

When suffering from backache, frequent or scanty urine, rheumatic pains here or there, or that constant tired, worn-out feeling, the simple way to overcome these disorders is merely to obtain a little Anuric from your nearest druggist and you will quickly notice the grand results. You will find it many times more potent than lithia, and that it dissolves uric acid as hot water does sugar.

Want Woman Bartenders. Tavern keepers in Scotland have asked permission to employ woman bartenders, as men are scarce.

Indigestion produces disagreeable and sometimes alarming symptoms. Wright's Indian Vegetable Pills stimulate the digestive processes to function naturally. Adv.

Doleful Associations. "Why is your husband so irritable about women's fancy work clubs?"
"I guess it is because he had such a time last year having to stay in the house while his broken leg was knitting."

WOMEN OF VIRGINIA

Basic City, Va.—"I was in bad shape with womanly trouble and was all run-down and confined to bed. The doctor was attending me three times a day but I was getting worse. I heard of 'Favorite Prescription' through a friend who had been benefited by it. I could hardly raise my hand and could not sit up in bed. I began taking the 'Prescription' and the first bottle gave me strength. I kept it up until six bottles were used. I was then able to do all my work. I doubt not that the use of it saved my life. When I begin to run down now I take a little and it always helps me and builds me up at once."—MRS. J. W. PADGETT, Commerce St.

This herbal tonic for women is made up in liquid or tablet form, and can be obtained in any drug store. Contains no alcohol or narcotic, and its ingredients are printed on wrapper. Purely an herbal tonic derived from nature's roots and herbs.—Adv.

Honest Jim, you don't need a cocktail. What your stomach wants is a couple of doses of GREEN'S AUGUST FLOWER—lots of boys use it to sweeten their stomachs and carry off the miserable stuff in their bowels—it stops nervousness and headache, makes you feel like a new man. Slip 'round to the drug store and try it. It will put new life into you, I know from experience.—Remember the name

Green's August Flower

Most men think they need a cocktail or a drink when their stomach is out of order and they "feel bad" with nervous indigestion, or constipation. What they really do need is two or three doses of "AUGUST FLOWER," which quickly restores the stomach, cleansing the whole system generally.

Both Quality: And Quantity

Try Yager's Liniment, the great external remedy for rheumatism, neuralgia, sciatica, sprains, chest pains, backache, cuts and bruises.

This liniment has wonderful curative powers, penetrates instantly, and gives prompt relief from pain. It is the most economical liniment to buy, for the large 25 cent bottle contains four times as much as the usual bottle of liniment sold at that price.

At all dealers.
