PUBLISHED EVERY FRIDAY.

Plymouth, N. C., Friday, June 8th, 1917.

THE registration in Washington County on Tuesday proves that there are no slackers here. From seven o'clock in the morning until nine o'clock at night a steady stream of young men, both white and black, patiently waited for their turn to come to answer the call of their President, and if need be, fight for their flag and the cause of humanity.

In Plymouth the crowd was orderly and quiet, yet by expressions made on every side we do not believe there is a dozen here who will not willingly answer the call if they are selected to go to the front.

Especially should the registrars be commended for their services, for they had a hard day of it, the six in Plymouth working in the heat and mosquitoes until one o'clock at night. They were P. W. Brinkley, J. W. Darden, S. A. Ward, Rev. B. T. Hurley, J. K. Reid and David Hurley, all of whom served voluntarily, as did all the registrars in the county except two, and only one man in the county charged for the room in which registration was held.

Washington County has fully done its 'bit' and we feel proud of its young manhood.

NOTICE OF LETTING CONTRACT.

The Board of Drainage Commissioners of Albemarle Drainage District (Beaufort County Drainage District No. 5) will on Monday, June 18th, 1917, at ten o'clock in the forenoon at the office of Small, MacLean, Bragaw & Rodman, attorneys for the said district, receive bids, either as a whole or in sections, as they deem most advantageous for the district for the work of construction of the proposed improvement consisting of a main canal seventeen laterals and two sublaterals as outlined in the final report of engineer and viewers filed with the Clerk of Superior Court of Beaufort County on April 11, 1917, together with certain incidental work as therein specified.

The estimated excavation of main canal is 612,253 cubic yards and of laterals 2,540,880 cubic yards.

The intercepting canal is also to be enlarged and cleaned out as specified in said report, and estimated at 93,300 cubic yards; certain fills and bridges are also to be constructed as described in said report.

The contract will be based on the plans and specifications submitted by the engineer and viewers in their final report, and as confirmed by the court, the original of which is on file in the office of the Clerk of Superior Court of Beaufort County, and is open to the in-

spection of all prospective bidders; but the Board reserves the right to correct errors and modify the details if, in their judgment, they can increase the efficiency of the drainage plan thereby without increasing the estimated cost.

The entire work must be complete within three years from June 15, 1917, and the contractor will be required to give credit and pay for the work heretofore done at the contract price.

Any further information will be furnished by said attorneys or by F. M. Edgerton, Supt. of construction, Belhaven, N. C.

Bidders will be required to deposit check for \$1000.00 as a guarantee of good faith, and the contractor will be required to give bond in an amount to be fixed by the Board.
