NO. 1.

Powerful Along Whole Eighteen-Mile Front .- British Are Meeting With Successes in West.

The soldiers of new Russia have assumed the aggressive. For the first time since the revolution last March Russian troops have begun an attack on an extensive scale.

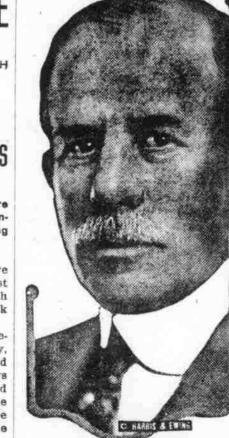

Along a region of eigheen and onehalf miles in the region of Brzezany, Galicia. Russian troops have stormed the German positions. Berlin says the Russians suffered heavy losses and were compelled to retire before the German fire. The attack was made between the upper Stripa and the Narayuvka river, a tributary of the Gnila Lipa, in the section southeast of Lemberg, the Gallician capital, where the artillery firing has been heavy recently.

The Russians also made night attacks on both sides of Brzezany and near Zwyzyn, and Berlin reports that assaults between the Zlota Lipa and the Narayuvka have brought on new battles between the opposing forces. the committee on coal production of The artillery arm of the Russian forces has again been active, and from the Berlin report it is learned that an intensive duel has been in progress in the region of Brzezany to as far northward as the Middle Stokhod in Volhynia, distance of about 175 miles.

1.1

Berlin declares that the Russian attacks, which it says were powerful, were brought about through the pressure of the leading entente powers, the text of the official statement saying:

"The Russian government having been constrained to yield to the pressure of the leading entente powers,

FRANCIS S. PEABODY

Francis S. Peabody of Chicago, one of the country's leading coal operators, received what he termed a command from Secretary Franklin K. Lane to take charge of the coal situation in America. Consequently Mr. Peabody has moved his family to Washington and turned over his business affairs to others in order to act as chairman of the council of national defense.

ADVANCE GUARDS READY TO if they so elect, file new tariffs carry-TAKE STAND ALONGSIDE ARM-IES OF ALLIES.

Order Says No Conditions of Emergency Exist as to Western and Southern Roads to Justify Upward Revision of Rates.

Washington .- The Interstate Commerce Commission suspended until October 28, 1917, the proposed fifteen per cent increase in freight rates. The commission, in announcing the decision said:

"We are led to the conclusion that no condition of emergency exists as to the western and southern carriers, which would justify permitting a general increase in their rates to become other publications, is now head of the effective.

"In the eastern districts, increased States, rates have recently been permitted to become effective, generally on bituminous coal, coke and iron ore. We think that similar increases may be permitted in the southern district on coal, coke and iron ore.

"In the southern district, the pro- M. BAHKMETIEFF SPECIAL ENposed increased rates on coal are on the basis of fifteen per cent, with a maximum of fifteen cents a ton. These tariffs we shall permit to become effective.

"In the western district, the in- Enthusiastic Reception Is Given New creases are based upon fifteen per cent with a minimum of fifteen cents per ton. These tariffs will be suspended, but the western carriers may, ing increases in rates on coal and coke not exceeding in any case fifteen cents per ton.

EAST OF MISSISSIPPI EFFECT.

ED BY AGREEMENT.

Washington.-Sweeping reductions n the price of bituminous coal at all nines east of Mississippi river, rangng from one to five dollars a ton to the operators and government offilals. The new prices become effective July 1.

Four hundred operators who gatherd here at a call from Secretary Lane, pledged themselves to furnish their product by committees from each field. Earlier in the day, they had agreed to place the price-fixing in the hands of the government, through the defense council's coal production committee, Secretary Lane and Commissioner Fort, of the federal trade commission, thus avoiding the possibility of violating the anti-trust laws.

Director Smith of the geological survey, estimated that the reduced prices would mean that the operators would get \$180,000,000 less annually for their output.

In addition to placing prices upon coal at the mines it was announced that jobbers, brokers, retailers and commission men would be permitted Washington .- In another stirring to charge commissions of not more

ON IMPORTANT PROBLEMS

FEATURE CONVENTION.

Morehead City .- The sessions of the North Carolina Press Association, in annual convention here, were full of instructive discussions and conferences on important newspaper problems. President Edward E. Britton called the the public, with an additional cut of convention to order. R. T. Wade, of fifty cents for the government, were the Morehead City Coaster, welcomed agreed upon at conferences between the visiting journalists, and Miss Beatrice Cobb, of The Morganton Herald, responded in happy vein.

President Edward E. Britton then delivered his address the keynote of which was service. "This association," said he, "is not seizing upon all the opportunities for service which present themselves to it. We should have a larger membership, and that membership should be extended so as to include not alone editors and publishers of newspapers, but the members of the staffs of newspapers, both on the news and business side of the business should be eligible to membership. More than this. There should be an effort made to have all other newspaper associations in the state, retaining their offices and independent organizations, become departments in the North Carolina Press Association. As parts of this association we should have the Afternoon Press Asociation, the Western Carolina Weekly Press Association, and any other associations of newspaper men in the state. I direct the attention of the executive committee of this association to this matter, which I regard as of prime importance."

Editor T. W. Chambliss, of The Asheville Times, pointed out "The

part of the army has been introduced to attack."

Washington-Evidence that Germany is obtaining vast quantities of sumably sent forward with the ap- 12 with the abdication of King Conshow, is replaced by the neutrals with expedition. imports from America.

From Scandinavia and Holland, the information sets forth, enough fat is going into Germany to supply 7,700,-000 soldiers, virtually the entire army of effectives in the empire. German imports from these countries, it is declared, ...reduced to calories will equal the total ration of 2,500,000 troops, the size of the German army in the west.

German purchases of foodstuffs abroad are made through the government department of the interior, which has organized a special division to buy from the neutrals. In the early days of the war, the German government stimulated importation of food by excluding imports from oneration of maximum price laws, bu. this drew such a vigorous protest from German producers the practice was stopped.

AMERICAN HELP IS REALLY VERY GREAT.

Zurich, Switzerland.-Referring to the arrival of American troops on French soil, the military critic of The Frankfurter Zeitung says Germany must not overlook the fact that American help is really very great, though it will come only by degrees. Under these conditions, he says, if France is obliged to restrict her military activities, it will signify no strengthen ing of the German situation.

advance guard.

SENATORS WRITE DRASTIC POWERS INTO FOOD BILL

Washington .- Food control legislation assumed new and more drastic form when the Senate agriculture committee virtually re-drafted many of the principal features of the House measure and reported it with material extensions of government power and a new "bone dry" prohibition provision to stop manufacture of intoxicating beverages during the war. The president would be authorized to permit wine making and to commander existing distilled spirits.

The amended bill was presented to the Senate by Senator Chamberlain. He moved to have it substituted for the draft the Senate has been debating and proceed with all expedition toward final action.

The new prohibition plan, all leaders admitted, greatly complicates the situation and precludes enactment of

the legislation by July 1.

In extending the scope of the legislation, and the President's powers, the committee adopted amendments which iron, steel, copper, lead and their products, lumber and timber, petroleum tons, and the Manistee, another Cun- thrusts against the German lines. and its products, farm implements and ard vessel. He discussed the problem had been postponed until duty of the press to the government after July 1 by agreement with the and in the instruction of the people concerning government problems and undertakings. The press must now be the medium between the government and the people.

> S. L. Meares, of The Bladen Journal, entertained the association with a forceful and witty paper entitled "Some Practical Newspaper Suggestions." These suggestions were valuable to all newspaper men and Mr. Meares' humor and spice added to the paper's charm. In the general discussion which followed W. C. Hammer spoke with emphasis of America's part in the present war and the duties of journalists as individuals.

> Miss Beatrice Cobb spoke convincingly of woman's work in the newsfield, and declared that the newspaper offered many opportunities for women who were not afraid of work. She emphasized the great opportunity of service such work gives. Woman's place on the newspaper is not confined to fashion and society notes, she said.

M. L. Shipman, Commissioner of Labor and Printing, read one of the best historian's papers in years, which was full of interesting comment concerning North Carolina newspaperdom. The annual poem by Dr. William Laurie Hill elicited much applause. It was charged with patriotic fervor. Editor H. Galt Braxton, of The Kinston Free Press, delivered the annua oration before the convention. He spoke on the "Responsibility of the Press, from its Present Enlarged As-"The press was never conpect." fronted with such a task," he declared. nd it is not so big now as it will be orrow."
