**Don't Take Your Horses From Field Work**

**Use Smith Form-a-Truck For Hauling**

Cut down the number of horses you keep to the number actually required for work in the fields. Horses for hauling are expensive. They cost from two to three times as much as one Smith Form-a-Truck and waste three out of every four hours compared with the speed with which you can do all your farm hauling if you use Smith Form-a-Truck.

Every horse you keep means so much of your farm devoted to raising feed: every horse you get rid of means this acreage immediately available for crops that will bring you profits.

Your horses cost you real money all the time whether they are working or rot. Smith Form-a-Truck costs nothing except when

it is actually running. And the first price is no more than the price for a good pair of horses and a farm wagon. Farm hauling by Smith Form-a-Truck is the scientific, economical, up-to-date method of making trips to town in a short time, enabling you to make immediate delivery of live stock or crops when high prices prevail, giving you a type of hauling that in no way interferes

with the conduct of your regular farm work.

Keep every piece of equipment—every animal on your farm making money for you—doing every bit of work the most economical way. Smith Form-a-Truck for hauling, especially when equipped with our famous Eight-in-One Convertible Body, is the most economical farm hauling in the world.

**Use Any One of Six Chassis**

Using any one of six chassis, Smith Form-a-Truck combines with any Ford, Maxwell, Dodge Bros., Buick, Chevrolet or Overland chassis to make a fully guaranteed one-ton truck. It gives you real truck construction that will stand up under the hardest hauling you could ever do.

**When You Are in Town Drop In**

When you are in town drop in and see Smith Form-a-Truck. It will pay you well.
