

# THE ROANOKE BEACON

C. V. W. AUSBON Editors and Publishers C. S. AUSBON

PUBLISHED EVERY FRIDAY.

Plymouth, N. C., Friday, July 27th, 1917.

## Get Your Liability Number.

We are enclosing an insert in this issue giving the numbers of the first 166 numbers drawn by the selective draft officials at Washington last week. On the inside pages we are giving, also, the entire numbers, as they were drawn, of the 10,509. Number "133" appearing on the insert should be "103."

If your name does not appear on the insert, do not think that your name has not been drawn, for it has. The way we have arranged this list will give you a key to work by to determine your liability number. Begin to count each group of figures from the top, skipping any that are above 996, that being the number registering in this county, and the order by that method in which you find yours will give you your liability number; that is, the number in which you are drawn to be called by the Exemption Board.

## START A FALL GARDEN NOW.

Don't neglect the garden, keep it going, for a good home garden not only supplies the family with fresh vegetables when you want them, but also cuts down the living expenses. Every family should have a good home garden and because the spring has passed and the summer is over, don't let up on the garden, keep planting. There are several vegetables that you can plant now for fall and winter use.

Some of the vegetables that can be planted in this month are given below:

Transplant tomatoes to the garden now. Transplant collards for winter use, Sow Bush Lima Beans for fall use, Transplant cabbage for a fall crop; Plant fall Irish potatoes; and the following can be sown for a fall crop: Lettuce, field Peas, Radish in succession, and also Turnips; and for information on the fertilizers and preparation of the soil I will be glad to furnish that on request.

Don't allow any space in the garden to be idle, for the garden should be kept constantly in some crop or other. Rotate and keep planting. Should your garden produce more than you can use at your home and more than you can sell then, CAN IT.

I would like for all members of the Washington County Board of Agriculture, and the Washington County Food Conservation Commission to meet with me in the courtroom in Plymouth on Monday morning, August 6th at 10 o'clock. There are some very important matters to come before these organizations at this time and it is hoped that every member will make an especial effort to attend this meeting. Bear in mind the purpose of these boards and that for which they were organized first; to promote the Agricultural interests in the county, second, to increase and conserve the food and feed products of the county.

It is earnestly desired that these members meet above date, and also that all farmers and men over the county get with these Boards to be of further service in regards to fall gardens and winter crops, see or write me.

Very truly yours,  
N. B. STEVENS,  
County Agent.

## TO THE BOYS OF THE TOWNS OF WASHINGTON COUNTY.

At the request of Mr. T. E. Brown, State Director of the National Boys' Working Reserve, I am acting as local enrolling officer for Washington County. It is the purpose of the National Boys' Working Reserve to organize the boys of our towns and cities between the ages of 16 and 21, who are available for emergency farm labor. It is desired that there be a large enrollment in the Boys' Working Reserve that labor may be available for the harvest of the food and feed crops this fall. Boys who successfully comply with the requirements of the organization will be awarded a Federal Badge, a very pretty bronze medal, indicating that they are a member of the National Organization which is rendering the Nation a necessary and patriotic service.

I shall be glad to have any boys call at my office and talk the matter over. Let's have Washington County represented in the National Boys' Working Reserve.

JOHN W. DARDEN,  
Local Enrolling Officer  
for Washington County.

## Thrift Is Preparedness

Financial strength is to nations as important as military strength. No nation can survive a war if it cannot finance itself.

The man who fortifies himself with an account in a savings bank does more than prepare himself—he contributes to the preparedness of the country.

Germany, unable to borrow from other countries, has been financed by the thrift of her people, as this thrift was expressed in accounts in savings banks.

A savings bank deposit helps the nation and is indispensable to the individual.
