The State Library Commission selected Col. Alex J. Feild, editor of the State Journal, as state librarian, pending a general reorganization and coordination of the library interests of the state by the next general assembly in consolidating the legislative reference library, the state library and the state library commission under one management.

S. A. L. Allowed to Curtail.

Big delegations from Sanford, Hamlet, Cary, Raleigh and Oxford were in Raleigh for the hearing before the corporation commission in the matter of that it be allowed to take off the Raland change materially the Henderson- food production and food saving. Oxford service. The hearing began at 3 o'clock and W. L. Stanley, represent- this year: ing the Seaboard Air Line, presented the reasons for the request, explaining that the necessity of contributing the company's part to the government demands for troop movement and special freight service, really necessitated the curtailment of the train service asked.

Mr. Stanley believed that the patriotism of the people of North Carolina would constrain them in the face of necessity to go back to the service of the mixedtrains and box cars if the requirements of the war necessitated such a thing. He believed that we are just on the threshold of the war State is Best Hog Market. demands and that train curtailment is really in its inception. The saving of not a penny or a paltry dollar was involved in the curtailment asked, he ing declaration was made by Mr. L. hour in serving the country in its hour of need for waging the war. There must be 30,000 men of the national guard moved at once by the Seaboard requiring 6,000 cars, and this is only the beginning of the movement. The Oxford delegation agreed to the proposed changes in the Oxford-Henderson-Durham service and the commission indicated that a probable solution of the Raleigh-Charlotte service would be that the Raleigh-Charlotte shoo-fly will be taken off and the Raleigh-Norlina shoo-fly run extended to Hamlet and that this with a double daily service between Charlotte and to 100 head, at present prices is worth Hamlet will meet the transportation necessities and give the Seaboard an additional engine and car for troop twenty carloads shipped by Edgemovement. The commission wants it understood that there is no intention of disturbing the present Charlotte- farmers of the county approximately Rutherfordon shoo-fly service.

A. J. FIELD CHOSEN Bigger Better Bables' Contest. The biggest Better Bables' contest ever held in the state and probably in the South will be held here at the state fair next month, October 15-20. For this purpose a wing or section of the new Woman's building, recently constructed and used this season for the first time, has been set apart and specially equipped. The interest of the babies has been well looked after in the new building, and their presence with that of their mothers is counted on as being one of the biggest features of this year's fair. The babies are already enrolling.

Miss Mae Reynolds, who is secretary of the Better Bables' contest, is receiving applications and requests for information almost daily and says that such interest in the contest has not been shown this early before. The names of one-hlaf dozen fine babies have already been placed on the list.

The contest will be again under the management of the Woman's Club of Raleigh, with Mrs. W. A. Withers as chairman. The same rules and regulations as those governing the contest last year and previous years will be observed this year. Babies from six to thirty-six months old will be admitted and the same system of making expert physicians ,baby specialists, and trained nurses will be secured.

LIFT OUT ANY CORN Apply a few drops then lift corns or calluses off with fingers-no pain.

WOMEN! IT IS MAGIC!

Just think! You can lift off any corn or callus without pain or soreness. A Cincinnati man discovered this ether compound and named it freezone. Any druggist will sell a tiny bottle of freezone, like here shown, for very little cost. You apply a few drops directly upon a tender corn or callus. Instantly the soreness disappears, then shortly you will find the corn or callus so loose that you can lift it right off.

Freezone is wonderful. It irles instantly. It doesn't eat away the corn or calus, but shrivels it up without even irritating the surounding skin.

Hard, soft or corns beween the toes, as well as painful calluses, lift right off. There is no pain be-

fore or afterwards. If your druggist hasn't freezone, tell him to order a small bottle for you from his wholesale drug house .- adv.

Went to Extremes.

A young man walking through a foreign quarter of New York stopped with an amused smile in front of a small eating place, on the window of which was painted in whitewash "Lam stew."

The proprietor from his doorway, asked what the joke was and the young fellow explained about the missing "b" in "lamb" and was thanked for the correction.

The next day, passing the same restaurant, he found that while the bill of fare had changed, the spelling lesprietor was now offering "Clamb chowder."

Another "prominent" opponent of the government-William Hale Thompson, the mayor of Chicago-came a cropper last week. In defiance of the orders of Governor Lowden, he compelled the police of Chicago to give protection to a meeting of the pacifists who had been barred from Wisconsin, Minnesota and other states. Thereupon the governor sent troops to the city to prevent repetition of the offense, the city council of Chicago formally rebuked the mayor, the agents of the department of justice began inquiries into his conduct with a view to his indictment, the press and people of the country denounced him, and his infantile boom for the Illinois senatorship collapsed utterly. He did not go to the Kankakee fair, where that boom was slated to be started. It is difficult to write of Thompson, Mason and other still more prominent foes of their country in printable language. Those who combat the government's war efforts "give ald and comfort to the enemy" and exasperated loyalty wonders why they are not subjected to the penalties prescribed by the law against treason.
