WHAT MOTHERS CAN DO.

Mothers Are Asked to Co-operate with Quarantine Officer to Control Contagious Diseases.

Nobody knows what it means to have a sick child like the mother, therefore, I am asking the mothers of this county, especially, to co-operate with me, their county quarantine officer, and by all working together, to keep down those preventable diseases like whooping cough, measles, scarlet fever and diphtheria, as far as is possible.

Some old fashioned mothers used to believe that whooping cough and measles were like taxes, just had to come, and the sooner they "came and went," the better. But now mothers know different. They know that even if children should have these diseases when they grow up it goes less hard with them then, and they are more likely to recover without defects and impairments. Why, when a mother's baby has measles if it is less than five years old, she never knows whether it is going to be left blind, deaf, lame, or with weakened heart or kidneys, for life. The safest plan is to take no chances with any of these so-called children's diseases. Children don't have to have them, and why not protect them?

Some of the things mothers can do to keep down whooping cough, measles, scarlet fever, infantile paralysis and diphtheria in their homes and communities are, first, to suspect the disease and keep home the children having the first symptoms, such as sore throats or head colds, particularly if any contagious diseases is in the community. Second, in case no physician is called to attend the child, the mother should see that the disease is reported at once to the county quarantine officer who will then tell her what to do and how to treat the case. The law requires her to do this. Third, every mother should respect the Quarantine Law. It may inconvenience her slightly but what will a few days of inconvenience mean if it saves a child's life or even if it saves him from a life long defect, like blindness which is often one of the after effects of measles. The mother who disregards the Quarantine Law is not only an undesirable to have in the community but is an enemy of little children.

The number of cases of contagious diseases in this county last month reported to me were:

Whooping Cough: William A. Spruill, Thurston and William Hornabue, James Coleman, Jr., Bennie Gray, Rena and Kathleen Ruddiff, Leola, Doris and Randolph McCabe, children of W. H. Davenport, Daniel Bate-man, two children of Jas. Skinner, Carrie, Cora, Gladys, Bradford, Plone and Isaac Lewis, Matthew, Charles and Mary Simpson, children of M. C. Spruill, child of C. N. Davenport, seven children of Walter Pailin, Violet Alexander, Ada Alexander, Louie May Alexander, Edna Alexander, Mory Alexander, Jessie Alexander. PROGRESSIVE FARMER!

I wish to invite your attention to my second car load of horses and mules that I expect to purchase in Northern markets next week. In regard to our first car of last week we did not keep them long enough to show them, sold them so quickly. We can not keep good team on hand when the people want them. I buy them to sell at a price to suit the public. I extend you an invitation to come early and look our stock over so you can make your choice. Remember we are also headquarters for buggies, harness, saddles, etc. We wish to say that you will make no mistake to purchase early this season, for like everything else live stock will be sure to be higher later in the season than it is now. Make our place your home when in town. Thanking you for your past patronage, we are,

Yours very truly,
