

# A NERVOUS BREAKDOWN

Miss Kelly Tells How Lydia E. Pinkham's Vegetable Compound Restored Her Health.

Newark, N. J.—"For about three years I suffered from nervous breakdown and got so weak I could hardly stand, and had headaches every day. I tried everything I could think of and was under a physician's care for two years. A girl friend had used Lydia E. Pinkham's Vegetable Compound and she told me about it. From the first day I took it I began to feel better and now I am well and able to do most any kind of work. I have been recommending the Compound ever since and give you my permission to publish this letter."—Miss FLO KELLY, 476 So. 14th St., Newark, N. J.

The reason this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound, was so successful in Miss Kelly's case was because it went to the root of her trouble, restored her to a normal healthy condition and as a result her nervousness disappeared.

### What Insignia Was This?

Members of the Red Cross auxiliaries may be able to explain what it is to follow, but it is too much for me. Those who knit, crochet, tat, cross-stitch and otherwise manipulate the elusive needle may be able to tell what it all meant, but all I do is to relate the facts. 'Twas a large colored woman, walking down the street. Around her ample form she wore an apron of black and white checked material. On it, done in what I was told was cross-stitch, were three large roosters. Perhaps the design was taken from some nursery pattern. And as if to make sure that there was no mistake, in letters four inches high above the birds was the following legend, also done in cross-stitch: "Roosters."—Washington Star.

### Jersey Suits for Present Wear

Jersey cloth has its adherents all the year round for suits and frocks, but it seems somehow to belong to summer time—perhaps because it is made up without lining. It has the most clinging quality in the world, which accounts for its making the most graceful suits and dresses. It is a fabric with peculiarities of its own that inspire to new effort the endless ingenuity of designers, who recognize its possibilities for softening angular figures and for helping out those that are too round. Everything depends upon the designer in Jersey suits. Usually the Jersey suit is a smart but informal affair with a flavor of sport styles, but occasionally it is finished up with collar and cuffs in a rich, dignified fabric that robs it of its casual air and places it in the class of dressy suits. An example of this kind appears in the picture where a suit of plain wool Jersey in bright color is elaborated with a wide band of cross-stitch embroidery in brown and turned-back collar and cuffs revealing a brown satin facing. It is embellished with a girde of heavy silk cord finished with tassels.

A suit of this kind is useful for present wear, in the season between summer and winter, and for tourists who plan to sojourn in the South when the coldest weather arrives in northern latitudes. The chances are that Jersey cloth in silk and in wool has come to stay. Weaves having the same characteristics are style points that cannot be overlooked in the displays of frocks and suits for fall.

### Beaded Bags.

Beaded bags are having, perhaps, a longer life of popularity than would have been the case if beads had not advanced so greatly in price as to make beaded bags a real luxury. At all events, they have never become commonplace enough to make them unpopular with women who wish the unusual. So they are still shown in the shops, in new designs and of new workmanship. Oval bags are especially good just now.

### New Blouse of Printed Voile

Does anyone know of a better material for any sort of blouse than plain or figured French voile of fine quality? If so let her earn the everlasting gratitude of womanhood by naming her discovery. Fine voile is as delicately beautiful as sheer silk fabrics and as sturdy and enduring as strong linens. It is therefore used for fine, hand-made dressy blouses with much decorative handwork in them, and for the simplest of pretty models for ordinary wear. It is a hardy aristocrat among fabrics—adaptable to any sort of wear and fitting in with every background.

In the picture one of the new printed voiles is used for the cleverest and plainest of blouses. It belongs in the company—ever growing in numbers—of the "slip-over" style. In this particular model the round neck is higher than is usual and the fullness of the blouse is gathered over small elastic cords set into casings or tucks in the material. As a finish, bands of ribbon are set between the cords and have the appearance of serving to gather up the material, at first glance. But this is only artistic camouflage which examination reveals. Except for these ribbon bands and little flat bows at the neck and sleeves there is nothing further to test as-out this design. It is a simple story attractive in the degree that the material is pretty—and altogether complete and satisfying.

Ribbon for blouses of this kind may be either of silk or velvet, but velvet is the most effective. When the blouse must be washed the ribbon must be taken off, or it should be hand-stitched to the blouse in the first place. The model would not be so effective in a plain voile but it cannot be improved upon for the many lovely printed patterns that may be found in almost any dry goods store.

English Women Make Record.

Following the example of the riveters, two young London women at Vickers' works worked eleven and a half hours at night and established a record in wave grooving the recess for the copper driving band in 18-pounder shells. One of them averaged 92.8 shells an hour. The highest average previously obtained was 84.2.

### Ugh! Calomel Sickness; Salivates! Please Try Dodson's Liver Tone

I am sincere! My medicine does not upset liver and bowels so you lose a day's work.

You're bilious! Your liver is sluggish! You feel lazy, dizzy and all knocked out. Your head is dull, your tongue is coated; breath bad; stomach sour and bowels constipated. But don't take salivating calomel. It makes you sick; you may lose a day's work. Calomel is mercury or quicksilver, which causes necrosis of the bones. Calomel crashes into sour bile like dynamite, breaking it up. That's when you feel that awful nausea and cramping.

If you want to enjoy the nicest, gentlest liver and bowel cleansing you ever experienced just take a spoonful of harmless Dodson's Liver Tone tonight. Your druggist or dealer sells you a bottle of Dodson's Liver Tone for a few cents under my personal money-back guarantee that each spoon-

ful will clean your sluggish liver better than a dose of nasty calomel and that it won't make you sick.

Dodson's Liver Tone is real liver medicine. You'll know it next morning because you will wake up feeling fine, your liver will be working, your headache and dizziness gone, your stomach will be sweet and your bowels regular. You will feel like working; you'll be cheerful; full of vigor and ambition.

Dodson's Liver Tone is entirely vegetable, therefore harmless and can not salivate. Give it to your children. Millions of people are using Dodson's Liver Tone instead of dangerous calomel now. Your druggist will tell you that the sale of calomel is almost stopped entirely here.—Adv.

### Technically Correct.

One of the Y. M. C. A. workers in France, in a letter to a friend in Los Angeles tells of an autotruck driver connected with the Red Triangle who was never seen without a box conspicuously labeled 'tools.' Finally one day an inspection officer halted the truck and asked: "What's in that box? It's labeled 'tools,' but every time you have to make repairs you get tools from under the driver's seat."

The young man opened the box and took from it several tin plates, knives, forks, skillet and a coffee pot. "Cooking tools," he remarked laconically, and threw the lever into the high.

### A CROSS, FEVERISH CHILD IS BILIOUS OR CONSTIPATED

LOOK, MOTHER! SEE IF TONGUE IS COATED, BREATH HOT OR STOMACH SOUR.

"CALIFORNIA SYRUP OF FIGS" CAN'T HARM TENDER STOMACH, LIVER, BOWELS.

Every mother realizes, after giving her children "California Syrup of Figs," that this is their ideal laxative, because they love its pleasant taste and it thoroughly cleanses the tender little stomach, liver and bowels without griping.

When cross, irritable, feverish, or breath is bad, stomach sour, look at the tongue, Mother! If coated, give a teaspoonful of this harmless "fruit laxative," and in a few hours all the foul, constipated waste, sour bile and undigested food passes out of the bowels, and you have a well, playful child again. When the little system is full of cold, throat sore, has stomach-ache, diarrhea, indigestion, colic—remember, a good "inside cleansing" should always be the first treatment given.

Millions of mothers keep "California Syrup of Figs" handy; they know a teaspoonful today saves a sick child to-morrow. Ask your druggist for a bottle of "California Syrup of Figs," which has directions for babies, children of all ages and grown-ups printed on the bottle. Beware of counterfeits sold here, so don't be fooled. Get the genuine, made by "California Fig Syrup Company."—Adv.

### Here's a Silly One.

"Where are you going with your big red apple, Willie?" called the kind old gentleman.  
"Taking it to school to my dear teacher."  
"What is your teacher's name, Willie?"  
"We call her Experience."  
"Why do you call her that?"  
"Cause she certainly is the best teacher."
